- (2) that beds are not closer together than 6 feet centre to centre. (In the case of old barracks this may have to be modified),
- (3) that free ventilation is maintained.

A.G.-1.

- (a) *If of substantive rank of Serjeant or above.*—
(All of whom are entitled to be married in accordance with Appendix XV, Army Regulations, India, Volume II).

The Head of the Service or Department with which they are serving shall be the authority for admitting them to the married establishment, but will first get the concurrence of the Officer administering the married roll of the applicant's permanent unit. A man so admitted will be taken on the married establishment roll of his permanent unit from the date he is admitted, and will retain his place on the roll, but will be borne supernumerary until he rejoins and is absorbed.

- (b) *If below the substantive rank of Serjeant.*—
(Four per cent. of whom are entitled to be married in accordance with Appendix XV, Army Regulations, India, Volume II).

The man shall apply to the Officer administering the married roll of his permanent unit or corps, through the head of the Service or Department with which he is serving for admission to the married establishment, and will not be entitled to admittance thereto, until his proper turn arrives in his permanent unit or corps. When admitted he will be borne supernumerary to the married establishment roll, and will be placed and retained on it with seniority from the date of his admission.

Commandant Signal Training Centre and Dep't, I A O. 47.
 who is responsible for the administration of the married roll of the Indian Signal Corps as a whole 20th Jan. 1925.

3 Admission to the married establishment of the Indian Signal Corps does not, in itself, confer any right to admission to the married establishment of an individual corps or unit.

In order to protect their own interests in the event of posting to the home establishment or reversion to their units the individuals who are not already borne on the married establishment or on the waiting list for their Corps or Unit, should apply to be placed on that list at the same time as they submit their application for admission to the married establishment of the Indian Signal Corps.

Legal and Judicial.—There have been cases lately in which a prosecutor at a Court Martial held under the Army Act has commented on the fact that the accused did not give evidence himself. The law does not permit a prosecutor to comment either on that fact or on the fact that the accused did not call his wife as a witness. Such comment by the prosecutor may render it necessary to annul a conviction. Prosecutors are directed to refrain from making such illegal comments and presidents of Courts Martial are enjoined to carry out their duty under Rule of Procedure (60) (B).

Legal and Judicial—It is necessary that copies that are used at trials by Courts Martial of records in regimental books be certified by the Officer who has the custody of the regimental books. Copies of regimental orders, copies of records in guard reports (vide para 643 King's Regulations), the schedule to Army Form B 296 and any similar documents are not to be signed by any Officer "for" the Commanding Officer or "for" the Adjutant. When an Officer is in temporary charge of the regimental books he will certify copies of records from those books in his capacity as Officer in temporary charge thereof and not "for" another Officer.

ANNEXURE TO INDIA ARMY ORDER No 18 of 1925
THE WAR OFFICE, LONDON, S W -1,
6th December, 1924

46 General 59 (A G 1)

Sir,

From correspondence which has been received in the War Office, it has been noticed that in some cases officers charged with the administration of the Married Quarters Roll of their unit or corps, are not complying with regulations on the subject and are in doubt as to the selection of soldiers to be placed on that roll.

It is therefore notified for the information of all concerned, that a married soldier of 26 years of age or over is eligible for the Married Quarters Roll provided he complies with paragraph 297 (b) of the Regulations as amended by Army Order 397 of 1924) *to the satisfaction of the responsible officer*, and the fact that a soldier married to a woman of other than British origin is no sufficient reason to refuse to consider an application for his to be placed on the Married Quarters Roll.

I am, etc,

B PAKENHAM, Colonel,
for Director of Recruiting and Organization

THE WAR OFFICE, LONDON, S W -1,
11th December, 1924

40 General 58 (A G 1)

Sir,

I am directed to inform you that an enquiry has been received as to the effect of para 215 A Allowance Regulations (A O 398 1924) and in order to ensure uniformity of action, it is notified for information that soldiers now being placed on the waiting list for the Married Quarters Roll in accordance with the above regulation, i.e., those who have not previously registered their names for the Married Quarters Roll but have been in receipt of marriage allowance, should be placed on that list, after those who are already noted on it, in the corresponding order to that in which they commenced to draw Marriage Allowance.

Thereafter seniority amongst admissions to the waiting list will be governed, if not in receipt of marriage allowance by date of registration, *vide King's Regulations*, and if in receipt of marriage allowance, by date of admission to marriage allowance roll.

I am, etc,

B PAKENHAM, Colonel,
for Director of Recruiting and Organization

46/H.2879 (A.G. 1).

SIR,

I am directed to inform you that instances have occurred recently of soldiers stating that they had made application to be registered for the Married Quarters Roll and not receiving notification to the contrary have concluded that their names have been placed on the waiting list, to find later that there was no trace of their applications.

I am therefore to request that you will issue instructions for Officers Commanding Units receiving such applications from soldiers to inform the applicants whether their names have been registered or not. In cases where the married quarters roll is administered by the Officer in charge Records, Officers Commanding Units should ensure that a similar notification is received from that officer in order that the applicant may be informed.

I am, etc.,

for Director of Recruiting and Organization.

ANNEXURE TO INDIA ARMY ORDER NO. 111 OF 1923.

THE WAR OFFICE,

LONDON, S.W.-1.

18th December, 1924.

103[Misc.(2611 (Q.M.G.-1-b.)

Sir,

With reference to Army Council Instruction No. 576 of 1924 concerning the liability for payment of Officers Mess contributions, questions of detail regarding its application have been referred to the War Office for decision.

In view of the doubt which still exists as to the interpretation of the instructions issued, I am commanded by the Army Council to enunciate the following broad principles by which the liability, or non-liability, of an officer for payment of these contributions is to be determined.

- (i) For those officers who, on 5th August, 1914, had not completed payment of the initial contribution under paragraph 1146 King's Regulations (1912), the balance should now be paid by them to the unit with which they were serving *on the date in question*.
- (ii) In all other cases, any contributions for which an officer may be liable under Army Council Instruction 576 of 1924 should be paid to the unit with which the officer was serving *at the date of the abovenamed Army Council Instruction* or, if seconded at that date, to the unit to which he is subsequently posted.

I am,

Sir,

Your obedient Servant,

H. J. CREEDY.

Indian Other Ranks—All Indian other ranks are accommodated in Whitfield Barracks with an overflow in Whitfield camp barracks but even then the accommodation is very short. The buildings in Whitfield Barracks are mostly two storied bungalows.

with verandahs on both sides but in Whitfield camp, barracks are single storied with one verandah only.

Buildings for officers, stores, schools, coffee shop, Indian officers clubs, etc., have to be taken from what should be living accommodation. Wash houses and cook houses are good with tap water laid on.

Insufficient accommodation also applies for Warrant officers of the Indian Army Service Corps, the Indian personnel of the Mule Corps are not housed in separate lines but are in Whitfield Camp Barracks with other units.

3 *Water*—The system of water supply is good. Tap water is laid on throughout the barracks but care should be taken to prevent wastage, otherwise, in the event of rains not being up to the average, shortage may occur.

4 *Medical*—The chief epidemic diseases are Malaria, Small-pox, and Enteric Fever. There is no Military Families hospital. Army and Civil dentists are available.

Prevailing diseases.—Outbreaks of small-pox and typhoid fever are frequent. Malaria is endemic, and in the rains the incidence is high. Skin diseases are exceedingly common especially amongst Indian troops.

It is imperative that all ranks should be protected by recent vaccination, and also Anti-Typhoid inoculation.

Effects of Climate—Debility due to climate is now common amongst European women and children.

Kowloon is essentially an unhealthy area for troops.

5 *Banks*.—There are many good banks. Hong Kong and Shanghai Banking Corporation is used by the Service.

6. *Post*.—Mails are irregular but there are various routes to England. For the convenience of Indian troops, arrangements can be made with the post office at Kowloon for a Hindustani speaking official to be there two or three days after pay to assist depots wishing to send Money Orders to India.

7. *Sports and Games*.—Riding is practically nil. Some polo is played on the island of Hong Kong.

Facilities for tennis, football, cricket, hockey, golf (two courses both 18 holes at Fanling (mainland) one hour's journey by train are available. There are 9 hole courses at Happy Valley and at Deepwater Bay in the Island.

There is a good deal of yachting and bathing in summer months, also a little small game shooting.

For Indian Pasts.—Hockey—the Battalion by courtesy of Manager Kowloon Canton Railway uses railway land to play on. There is also ground at United Services Recreation Club (see para 8)

Bathing for Indian troops is poor

■ *Clubs*—At Kowloon there is the United Services Recreation Club (i.e. Army and Navy). Several tennis courts and three hockey grounds are available. The Indian Battalion by paying \$30.00 is allowed the use of one ground and the Hong Kong Singapore Royal Garrison Artillery the use of the other ground. For matches No. 1 ground can be hired on application to the Secretary.

Other Clubs—Army officers can join as subscribers only, i.e., monthly subscription but no entrance fee.

9 *Training*—There are very poor facilities for training near here. For any field work to march out to the ground takes at least 1½ hours.

10 *Range*—No revolver range is available. The 30 yards range and the Miniature Range are rather poor.

There are two ranges at Old Kowloon one hour's march from Whitfield Barracks allotted by Command Staff to units as required.

11 *Officers Mess*—At present No. 1 Stockwell Villa is allocated as mess. The Bungalow consists of—

On Ground Floor—4 Rooms—1 Anteroom 1 Dining Room 1 Billiard Room 1 room officers quarters.

Upstairs—4 large rooms and 2 small rooms—i.e. 2 Field officer quarters and 2 other quarters. There is no accommodation for mess. Office and store room & the two small rooms have to be used as such instead of being used as the Field officers extra rooms.

See Indian Army Order No. 52 of 1924 for instructions of action to be taken before leaving India regarding reimportation of mess property to India.

General Note—The allotment and distribution of land barracks etc. is at present undergoing change with a view to W.O. vacating land on the Island. Distribution of barracks etc. will undergo a change when the new barracks are built.

12 *Conveyance and Facilities*—A ferry from Kowloon to Hong Kong runs at frequent intervals. Rickshaws Motor Buses Taxi and cars are always available on hire.

A railway runs from Kowloon to Canton, through train service liable to interruption but on the British Section, i.e., up to the frontier there is a regular service.

General classification of roads in the Colony is good.

Boats leave daily to Canton and Macao.

13 *Private Followers*.—Officers are recommended to take only such private followers as may be necessary for the voyage, servants being cheaper and more suitable in China. If private servants are taken, a limit of 10 per cent. only of the actual strength of Indian ranks is admissible.

ANNEXURE to INDIA ARMY ORDER No 150 of 1925

THE WAR OFFICE

LONDON, S W 1.

5th January 1925

27/Infantry/8326 (A G 2 A)

SIR,

I am commanded by the Army Council to refer to the reports on the working of the revised system of enlisting and training recruits at Infantry Depots rendered in accordance with War Office letter, Gen No 16 4685 (A G 2 A), dated 28th March, 1924, addressed to General Officers Commanding in Chief, Home Commands

2 I have to inform you that these reports have been considered by the Council, and it seems clear that Commands on the whole are in favour of the revised scheme as laid down in Army Order 99/1923, therefore, it is felt that at the present juncture it would be a mistake to make any fundamental changes in that scheme without further extended trial on existing line

3 The following decisions have been given regarding the main questions raised in the reports —

Recommendation

- (1) A portion of Table 'A' (or, alternatively, some additional practices) should be fired on an open range

Decisions etc

Existing regulations permit of the fullest use being made of the 'open' range, where such ranges exist in close proximity to Depots, by recruits, sanctioning as they do the firing of alternative Parts II and III Table 'A', on the open range besides which the O C Depot can draw upon the Commanding Officer's pool of the Home Service battalion to the extent of 30 rounds of ammunition per recruit for extra firing instruction on the 'open' range

The conveyance of recruits to and from an 'open' range situated at some distance from a Depot would absorb extra time and involve considera

Recommendation.

(ii) Retention at depôts for further physical training in cases where recruits do not attain the required physical standard.

(iii) The period devoted to interior economy should be reduced.

(iv) It is submitted that too many subjects are included in the syllabus, and the following suggestions are made:—

(a) To lengthen the training period by 4 weeks.

(b) To delete anti-gas and grenade training from the syllabus.

Decisions. etc.

extra expense besides interrupting the continuity of the training of the recruit.

It is felt that a sufficient case for a change has not been made but in the reports under consideration.

There is no objection to the retention of such recruits at depôts for a short additional period

-This should be adjusted by Depot Commanders. It is pointed out that the training syllabus is issued for guidance, and not for rigid adherence.

This cannot be approved; but a squad that has experienced an exceptional amount of inclement weather or sickness can be given extra time, at the discretion of the Area Commander—the principle being that a squad reaches the required standard at the depot after a full 20 weeks' training.

Grenade training is to be deleted from the syllabus. The hours thus saved will be allotted to other subjects at the discretion of Depot Commanders.

The Council attach great importance to anti-gas training; therefore, this will be retained in the syllabus.

Recommendation

(c) To omit all tactical training from the syllabus

(e) The distribution of Lance Sergeants between the Training Company and Training Cadres to be at the discretion of Depot Commanders

(f) Foreign service battalions should provide a definite quota of warrant officers and N C Os to depot

(g) Each training squad to be taken to home service battalion, on completion of training by its own instructor. The latter to remain with the battalion several days to exchange views, etc., on training matters

(h) The necessity for the appointment of Sergeant Instructor of Musketry is not apparent

(i) The Corporals of the Training Company and the Training Cadre (including lance sergeants) should be interchangeable, i.e., when a squad moves to the Training Cadre it should take with it 2 Corporals who would displace 2 Corporals in the Training Cadre

Decisions, etc

This would involve a fundamental change in the principle of recruit training at Infantry Depot, and cannot be sanctioned

This is approved. The establishment will be amended accordingly in due course

This is approved. King's Regulations, paragraph 311, will be amended in due course by the deletion of the words "not more than" in column 4 of the table given therein

This procedure may be adopted when considered desirable, at the discretion of General Officers Commanding-in-Chief, and General Officer Commanding, Northern Ireland District

The Army Council consider that this N C O can be of great assistance to squad instructors during preliminary musketry instruction

This cannot be approved. The Instructors of the Training Cadre should comprise the best N C Os at a Depot Commander's disposal. The time allotted to tactical training is short, and, if good results are to be obtained, it is essential that the Training Cadre officer should be able to rehearse his proposed schemes, and instruct his platoon and section commander. For similar reasons, the Cadre Officer must have a full permanent staff as laid down if he is to carry out the

Recommendation.

(x) Certain alterations in the duration of the tour of duty have been suggested.

(xi) The establishment should be increased to permit of a margin to allow for personnel on leave, sick, etc.

(xii) Bring the syllabus of training, etc., contained in Army Order 99 of 1923 up to date.

3. I am to add that a separate communication is being sent you with regard to the recruiting aspect of this scheme.

Sir,

Your obedient Servant,

R R CUBITT.

other two important duties of the Cadre, viz:—the training of N. C. Os. in the instruction of the recruit; the training of T. A. personnel.

It is therefore desirable that there should be continuity of instructors in the Training Cadre.

It is under consideration to alter the duration of the tour of duty to:—

	Years.
C O. and Adjutant	.. 3
Other officers	.. 2
Coy. Sjt. Major	.. 1
All others	.. 2

No action to effect this change should be taken, however, pending further instructions.

Owing to the shortage of personnel available for the various establishments, it is considered to be inadvisable to make additions this year to the establishment of depôts for this purpose.

ANNEXURE TO INDIA ARMY ORDER No. 167 of 1925.

Memorandum Explaining the five-and-a-half per cent Reduction in Army Officers' Pay, Half-Pay and Retired Pay.

7
Officers.
122

As there appears to be a general misunderstanding on the question of the 5½ per cent. reduction on pay, half pay and retired pay the following explanation is issued for general information:—

(1) When the 1919 scale of pay, half pay and retired pay was granted, it was distinctly laid down that 20 per cent. of the rates would be liable to variation upwards or downwards with the rise or fall in the cost of living. The first revision was to take place on 1st July, 1924, and thereafter once every three years. That is to say, 80 per cent. is basic while 20 per cent. is variable and would disappear altogether if the cost of living fell sufficiently; on the other hand, if the cost of living when a periodic revision is due, is above the 1924 level, 20 per cent. of the rate will be increased instead of reduced.

(2) The cost-of-living figure at the 1924 revision, compared with the 1919 figure, required a reduction of rather over 27½ per cent. in the variable 20 per cent. For reasons of simplicity this was expressed as 52 per cent. on the whole rate instead of 27½ per cent. on 20 per cent. of the rate.

(3) Officers who in 1919 were in receipt of retired pay on pre-1919 scales and had given satisfactory paid military service in the Great War, were specially allowed to have their retired pay recalculated at the 1919 rates. That is to say, instead of one scale they were given another scale. For instance, a major with £300 per annum pre-war had his retired pay revised on the 1919 scale which adopts an entirely different basis of calculation, and was awarded, say, £135 or £150, the amount depending on length of service and service as major. His increased retired pay was not given in the form of a cost of living bonus of £135 or £150 on top of his original £300. The £135 or £150 is subject to all the conditions governing the 1919 scale. Thus the £135 or £150 is subject to 27½ per cent. reduction on 20

1 per cent—5½ per cent on the £435 or £450. The grant of an increased scale of pension to an officer who had already retired was in itself an unprecedented concession.

(4) A further concession was made to this class of officer, and instead of being offered the choice between keeping his pre 1919 rate or taking the 1919 rate with the risk of its being reduced 20 per cent, they were given the 1919 scale so long as it is more favourable. Should the pre 1919 rate become more favourable, this would revert to that rate.

(5) In most cases the 1919 scale is so much more advantageous that it can never, even when the full 20 per cent is taken off, produce less than the 1914 or earlier scales. Thus, a major with £300 in 1914, whose service has earned £450 on the 1919 scale can never get less than £360. But a major whose service was such as to give £350 only on the 1919 scale has a vested right to fall back on his 1914 £300, should a reduction in the cost of living bring his 1919 rate of retired pay below £300 per annum.

(6) An officer with, say, £420 retired pay pre-1919 had commuted £100. His retired pay on the 1919 scale comes to, say, £600, of which £100 is a ready commuted. Clearly in fairness to the officer who has not commuted, the 5½ per cent must be applied to £100 (27½ per cent on £120), not £500, and he receives £500, less £33 not £500, less £27 10s. Any other course would result in preferential treatment for officers who commute compared with those who do not commute and if such preference were allowed would result in the wholesale evasion of any future reduction by commutation down to the permissible limit.

It is hoped that this statement will make the position clear both as regards the basis of the 5½ per cent, and as regards the very favourable manner in which officers who were no longer serving when the 1919 scale was introduced have been treated.

MEMORANDUM

Revised rates of pay which will take effect from the 1st July 1924 for King's Commissioned Officers of the Army in India up to and including 2nd class District Commanders but excluding officers of the Indian Medical Service, Royal Army Medical Corps, Army Dental Corps, Royal Army Veterinary Corps, Cantonment Department, Ordnance Inspection Staff, India Unattached List and Indian Medical Department have been sanctioned by the Secretary of State for India and will be published in an Army Instruction (India) on the 7th March

Rules regarding free quarters or the grant of Lodging Allowance in lieu, are also being published in an Army Instruction (India), concurrently with the revised rates of pay.

2. The Government of India are anxious that there shall be no delay in the disbursement to officers affected of arrears of pay due to them, as it is important that as much as possible of the arrears, should be paid before the end of the current financial year. General Officers Commanding and others to whom these Army Instructions (India) will be distributed are requested to take urgent steps to ensure their rapid distribution to units, &c, for information and necessary action.

3. Unit and depot accountants and others who prepare officers' pay bills, etc., will at once on receipt of the Army Instruction (India) prepare supplementary pay bills for the arrears of pay due for the period from the 1st July 1924 to the 26th February 1925 for all officers who wish to draw the revised rates of pay. Controllers of Military Accounts will pay these bills provisionally subject to post audit and on the clear understanding that any over-issues subsequently discovered will be recovered in full from the next month's pay bill.

4. Officers who, after further consideration of the revised rates of pay, wish to remain on the present rates of pay until promotion may do so; they will of course immediately refund to Government any arrears drawn as a result of this memorandum.

5. Arrears of pay due to officers who have been in the payment of one or more audit officers since 1st July 1924 will be paid provisionally by the Controller of Military Accounts in whose payment they now are, any adjustment necessary being made later in communication with Controllers of Military Accounts concerned.

6. Every effort should be made to ensure the submission of these supplementary pay bills to Controllers of Military Accounts, with the least

possible delay for payment. Instructions to expedite the payment of these bills are being sent to Controllers of Military Accounts by the Military Accountant General.

(Referred to in paras. 933-942.)

1. A firing party, consisting of 1 serjeant, 1 corporal and 12 privates will attend to fire three volleys at the funeral of all officers (under the rank of major-general) and soldiers.

A firing party does not attend, as such, on the occasion of the funeral of officers of and above the rank of major-general, their places being taken by a leading detachment from the escort (mentioned in column 4 of the table in para. 935) ; strength, 1 serjeant, 1 corporal and 12 privates.

2. The bearer party, consisting of an officer, warrant officer or N. C. O. in charge, and 8 bearers, the rank of whom will depend upon the rank or status of the deceased, will see that the flag, head-dress, side-arms and wreaths (if any) are properly arranged on, and tied to, the coffin to prevent them from falling.

3. The firing party or leading detachment will be drawn up two deep, one pace interval between files, facing the building where the body is placed. The corporal will be on that flank of the front rank towards which the procession will move. The serjeant will give all words of command and be posted in rear of the centre. Arms will be at the slope. As soon as the body is brought out of the building by the bearers, the serjeant in charge of the firing party or leading detachment will give the command Present Arms. When the coffin has been placed on the gun carriage or in the hearse and the cortège is ready to move off, he will give the following words of command :—Reverse Arms—Right (or Left) Turn (the corporal taking up his place two paces in front and midway between the rank)—Slow March.

4. (a) The military mourners, band, and drummers with drums muffled will have formed up in two ranks facing inwards with

two paces interval between men and eight paces distance between ranks, through which the firing party or leading detachment will pass.

The procession will then move off in the following order —

(i) Escort (para 935) under the orders of the G O C —
para 15 below

(ii) Firing party or leading detachment

(iii) Band and drummers moving in their proper formation

(iv) Body
Pall bearers } see sub para (b)
Bearers }

(v) Mourners (military and civilian)

(vi) Troops lining the route who are detailed to attend (see para 935, column 4) will follow in fours commencing on the inner flank, the men reversing arms in succession as they break into slow time

(b) Usually, bearers will march on either side of the gun carriage, but if pall bearers are present, they will march on either side of the gun carriage, and the bearers immediately in rear of the gun carriage

5 The band or drums will commence to play the "Dead March" when about 300 yards from the mortuary, and continue for such a distance as the officer in charge may have ordered before marching off. The firing party or leading detachment will receive the command Quick March (the remainder conforming) when the band or drums cease playing.

When at a convenient distance from the cemetery, and at the instance of the officer in charge the sergeant in charge of the firing party or leading detachment will give the command Slow March and the band or drums will recommence playing.

6 When marching in slow time arms will be carried at the reverse, in quick time at the trail as detailed in the various training manuals. During the march, arms may be changed, but the party will not march at ease.

7 When the head of the procession arrives near the ground where it is to meet the officiating minister and prior to the sergeant in charge of the firing party or leading detachment giving the command Halt the ranks of the firing party or

detachment at the head of the procession, and the band and drums, will open out to six paces distance, and will halt at the command of the serjeant in charge of the firing party or leading detachment. The order will then be given—Inwards Turn—Rest on your Arms Reversed.

8 The coffin will then be removed by the bearers and carried feet-end foremost to the place of interment (or first to the chapel, if desired), and placed on the right of the grave. The right of the grave is determined by looking towards its head.

The order of the procession will now be : officiating minister, body with pall-bearers and bearers (the former walking behind the body should the path be too narrow to admit of their remaining in their correct positions), mourners, band and drums, firing party. Should the band be required to take part in the service, they and the drums may precede the body to the grave in quick time. In that case they will not open out and halt as detailed in para 7.

9 The mourners will then file around the grave, halt and turn inwards without word of command : the firing party will follow the mourners, and will be halted near the grave under the orders of the serjeant in charge, who will give the following commands : Attention—Reverse Arms—Rank—, Right and Left Turn—Slow March—Halt—Left Turn—Rest on your Arms Reversed.

The leading detachment (if present) will be halted at some convenient pre-arranged position at the graveside.

10 During the service at the graveside (except when the actual burial takes place in a sacred building) the head-dress of those attending in uniform in any capacity will not be removed.

11 Prior to the coffin being lowered into the grave, the flag, head-dress, side-arms and wreaths will be removed. At the conclusion of the service, if volleys are to be fired, the serjeant will give the following commands :—Firing Party, Present Arms—Slope Arms—Volleys (with blank cartridges), Load—Present—Fire—(Two more volleys will be similarly fired.)—Unload—Order Arms—Fix Bayonets—Slope Arms—Present Arms. The band (if present) should play after each volley, firing party remaining at the Present. If no volley is fired, the serjeant will give the following commands :—Detachment, Present Arms—Slope Arms—Order Arms—Fix Bayonets—Slope Arms—Present Arms. The buglers will then sound the Last Post—a short interval—then Reveille. Firing party or detachment will slope arms, the command being given immediately reveille sounding has ceased.

12 The band and drum will be formed up ready for moving off

13 The sergeant in charge of the firing party or leading detachment will now give the command —Form Four—Right—Quick March The band and drums will lead followed by the firing party and military mourners who will form fronts as they march off without word of command

The band will play not the drum beat until the party is entirely clear of the burial ground

Bayonet will be used at the earliest opportunity after leaving the place of burial

14 At funeral here troops are detailed to line the route, they will be required to present arms to the funeral cortege first, and reverse arms before again resting on their arms reversed. They will normally present arms as the head of the funeral cortege approaches them and rest on their arms reversed as the firing party approaches

15 At funerals of senior officers the arrangements will be made under the supervision of the G O C If, after detailing certain parts of the escort to line the route, a large portion is still available, the escort will march by companies, in four, at the head of the procession, and in front of the band and drums. The disposal of escort on arrival at the cemetery will be under local arrangements

16 Officers attending funerals as mourners will not draw swords, and with other ranks (except the firing party) will march in reverse order of seniority from front to rear

17 Officers on duty with troops will draw swords. When such troops present arms, officers will salute with their swords as laid down in the various training manuals

18 Should it happen that officers on duty with troops proceed to the grave-side for the service, they will return their swords before reaching that place

19 During the sounding of the Last Post, all troops under arms (except the firing party) will stand at attention and officers will salute, but not whilst Reveille is being sounded

20 In the case of the funeral of a mounted officer or soldier, a charger or suitable horse will be led by a soldier immediately behind the gun carriage. The jack boots of the deceased will be placed in the stirrups, but reversed, i.e. left boot in the right stirrup and heels to the front

Notes.

(a) The firing party must not be confused with the escort, under para. 935, and special party under para. 939.

(b) Bearers, *i.e.*, personnel to carry the coffin, must not be confused with pall-bearers, as laid down for officers in para. 937.

In the case of funerals of senior officers, the coffin should be carried by senior warrant officers or N. C. Os.

(c) The instructions contained in this Appendix, should be read in conjunction with any local standing orders.

Malaria — With reference to Indian Army Order Nos 776 of 1922 and 705 of 1924

25596

N 4 5

His Excellency the Commander in Chief directs the attention of all ranks of the Army to be drawn again to the extensive wastage and loss of efficiency caused by Malaria. The admissions to Hospital during the last 3 years were —

	1922	1923	1924
British troops	10 550*	10 875	11 836*
Indian troops	25 705	22 646	16 517*
Total	36 255	33 521	28 353

*Approximate

All other causes of physical inefficiency are dwarfed by these figures, which represent an enormous waste of money, time and efficiency apart altogether from the expenditure incurred in hospital dieting and treatment. The training of the troops is also interfered with to an extent that is not perhaps fully realized. It is only by the close co-operation of officers and other ranks of all branches of the service that any material improvement can be effected.

I.A.O. 228. His Excellency directs accordingly that all the measures of personal prophylaxis against this preventible disease are to be carried out with increased care and attention. He considers that if more attention is paid by Commanding and other officers to the various measures which are indicated below, the incidence of malaria in many units largely affected at the present time would be diminished.

The following prophylactic measures require close supervision—

- (1) Mosquito-nets—state of repair, size, invariable use of, etc

In this connection the great importance of having nets ready before the arrival of units and drafts from the United Kingdom is emphasized.

- (2) Lighting of institutes and barrack rooms
- (3) Use of fans or punkahs, especially after sunset.
- (4) Trapping of mosquitoes in barrack rooms, and their destruction by swatting
- (5) Shorts not to be worn after sunset; men changing their clothing after games
- (6) Avoidance of places such as cinemas known to be centres of infection.
- (7) Proper use of P. C oil (formerly known as Bamber oil) for men on guard, etc., and actual assurance that the oil is issued and properly used.
- (8) Lectures to the men—especially new drafts—on how to protect themselves
- (9) Regular attendance for quinine, etc., of men undergoing post-hospital treatment.

His Excellency regrets to find that in the case of British units the incidence of malaria was even greater in 1924 than in the previous year, and as he considers that strict attention to the points enumerated above should result in a decrease in the number of cases, he will regard a high incidence of malaria as an indication of failure to carry out these measures and as showing a lack of proper disciplinary control in the units concerned.

ANNEXURE to INDIA ARMY ORDER No 250 of 1925.

WAR OFFICE.

LONDON, S W,

14th February 1925

112|Infantry (266 (A G 1)

Sir,

I am commanded by the Army Council to refer to paragraph (2) of War Office letter No 112 68,1010 (A G-1), dated 5th April 1923, under which authority was delegated to you to authorise the transfer of a soldier to the home establishment on extreme compassionate grounds in certain cases, i.e. where discharged under paragraph 360 (1) King's Regulations [para 362 (a) of 1914 edn] was invalid.

2 The Council desire to point out the serious difficulties which arise in the absorption into the home establishment of warrant and non-commissioned officers so transferred and of the disturbance to units and general dissatisfaction which may arise if voluntary replacements of requisite ranks are not forthcoming and which have to be despatched who would otherwise not be due to proceed overseas.

3 I am, therefore, to request that applications from warrant and non-commissioned officers above the rank of sergeant for transfer to the home establishment on compassionate grounds which in your opinion cannot suitably be met by the grant of furlough or discharge, should in future be forwarded for the consideration of the Army Council furlough being granted by you if considered necessary in cases of extreme urgency, pending a decision on the case.

4 As regards ranks of and below that of sergeant, I am to say that the Army Council are anxious to reduce to a minimum the number of transfers to the home establishment on compassionate grounds, such cases being met, where possible, by discharge or by the grant of furlough. Whilst desiring to leave you full discretionary powers, they consider that transfers are chiefly desirable in such cases as that of a soldier whose wife dies in India leaving a young family, provided that there is no suitable person at home in whose custody the father can place the children, in which event the grant of furlough to the

soldier would probably be sufficient. As regards transfers however "for the support of parents" they consider that a soldier serving in India is in as good a position to contribute to the parents support as he would be if serving at home

I am,

Sir,

Your obedient Servant,

(Sd.) B. B. CUBITT.

His Excellency,

The Commander-in-Chief,

Army Headquarters,

India.

Page 54

In cert n Appendix B

(c) Instruction not yet given & hence

The general instruction given below is to be followed. It is realized however that variation in detail may be necessary to conform with scheme of formation, ration etc, and with local requirements. Further the heading and allotments of duties must vary with the unit and branch of the service to which the unit belongs.

General Instructions

1. A mobilization scheme of a unit is to contain all information and documents which guide the process of mobilization to be carried out with the minimum amount of labour and without reference to Regulations, District and Brigade Orders, Circular memoranda etc, on mobilization.

All documents should be completed in peace so as to require, on mobilization the addition only of numbers, dates, places and other details which cannot be determined in peace.

2. Each scheme is to be divided into four parts and indexed as follows—

- (a) a summary,
- (b) a diary,
- (c) appendices,
- (d) annexures.

Summary

3. The summary is to show briefly the salient points of the mobilization arrangements so that a commanding officer, on first taking over can rapidly obtain a clear general idea of the nature of the scheme. The summary is to be divided into sections classified according to the subject, such as—

Section

- I—General
- II—Personnel
- III—Horses
- IV—War Outfit.

Appendices

5 The Appendices are to contain the complete detail for all arrangements in the form of table- time tables, lists, requisitions, indents, telegrams, draft unit orders, etc., for each day —

(a) Unit orders will be prepared for each day of mobilization in skeleton, so that they only require to be filled up with dates, hours, names, etc

(b) In addition to a copy of War Equipment Tables, India (which will ultimately be incorporated in Field Service Manual-) there will be lists showing —

(i) All articles which are required to be drawn from I A O C on mobilization

(ii) All supplies required from the I A S C

(iii) All stores if any, required from the Medical Service

(iv) All stores if any, required from the Veterinary Service

(c) The above lists will be followed by the actual documents, accommodation returns, requisitions, indents, telegrams, etc., made out as far as possible (numbers where necessary left blank) and only needing signature and date

Each requisition telegram etc., will be pinned inside a double sheet of paper bearing on its outside the subject and its number with reference to the list so that a fresh telegram or requisition may be brought up to date and substituted in the cover as required

They will contain not merely specimens but sufficient detail of the indent telegrams etc. ready for use

(d) A detailed list will show in detail in his scheme of transport including any civilian transport men required for mobilization (if these men do not live in the country) and animals etc. will be accommodated in the transport and forage will be provided. In addition to accommodation, water supply, cooking, washing and latrine arrangement will be provided for the troops

(e) A list of the men and articles having personal effects of the troops will be prepared and kept

- V.—Supplies.
VI.—Transport.
VII.—Accommodation.
VIII.—Medical arrangements.
IX.—Veterinary arrangements.
X.—Barrack Stores.
XI.—Camp equipment, etc.
XII.—Civil assistance.
XIII.—Disposal of property left behind.
XIV.—Movements.
XV.—Details.
XVI.—Interior economy and routine.
etc. etc.

Diary.

4. The diary is to be divided so as to show the duties that are to be carried out on each successive day, giving the time when ever possible, and the individual responsible for carrying them out.

Day of mobilization.....

Time Hours	Duties in order in which they should take place	Officer, W. O. or X C. O. responsible

It must be remembered that the first day, which will appear on the diary will be the date of receipt of the order to mobilize the next day, normally, being the first day of mobilization.

The date of the first day of mobilization will, however, be specified in the order to mobilize.

Appendices

The Appendices are to contain the complete detail for all in the form of table time tables, lists, requisitions, indents, telegram, draft unit orders, etc., for each day :—

(a) Unit orders will be prepared for each day of mobilization in skeleton, so that they only require to be filled up with dates, hours, names, etc

(b) In addition to a copy of War Equipment Tables, India (which will ultimately be incorporated in Field Service Manuals) there will be lists showing —

(i) All articles which are required to be drawn from I A O C on mobilization

(ii) All supplies required from the I A S C

(iii) All stores if any, required from the Medical Services.

(iv) All stores, if any, required from the Veterinary Service

(c) The above lists will be followed by the actual documents, accommodation returns requisitions, indent, telegrams, etc, made out as far as possible (numbers where necessary left blank) and only needing signature and date

Each requisition, telegram etc., will be pinned inside a double sheet of foolscap bearing on its outside the subject and its number with reference to the list so that a fresh telegram or requisition may be brought up to date and substituted in the cover as required

The list will contain not merely specimens but sufficient number of the indent, telegrams, etc ready for use

(d) A Commanding Officer will show in detail in his scheme how his men, including any civilian tradesmen required during mobilization (if these men do not live near barracks) and animals, etc, will be accommodated and how work shops and forges will be provided. The necessary addition to accommodation, water supply cooking washing and latrine arrangements will be shown in the scheme

(e) A list of civilian trade men and artificers living near the quarter of the troops will be prepared and kept

up to date. Such a list should be of assistance to commanding officers in making the arrangements referred to in para. 11, Mobilization Regulations, India (Provisional), 1924.

-) The schemes will show how government property will be returned to store or be handed over to the Military Engineer Service, etc., whether by the unit before departure or by the O. C. Depot or details after the unit has left.

The scheme will show how regimental property and funds are to be disposed of—

(a) in the case of general mobilization;

(b) in the case of partial mobilization.

- As regards mess property, the arrangements for messing officers after the mess is closed must be considered.

- All private property not disposed of will be handed over to the O. C. Depot or Details who will dispose of it in accordance with arrangements made in peace, details of which will be given in the mobilization scheme of the unit.

A table showing the disposal of all regimental property on mobilization will be prepared so that only details require to be filled in [see para 10 (ii), Mobilization Regulations, India (Provisional), 1924].

Similarly this table will contain details as regards the various government and private funds referred to in para. 10 (iii), Mobilization Regulations, India (Provisional), 1924.

The headings of this table will be :—

1 Corps of Signals—Foreign Service Reliefs I A.O. 262.

It is estimated that some 780 other ranks of the Indian Corps of Signals now serving in India, will be due for relief during the Trooping Season, 1925-26 360 during the Trooping Season, 1926-27, 1370 during the Trooping Season, 1927-28. This personnel can be divided into three categories, as follows—

- (i) Tour expired but not due for discharge or transfer to reserve, before the Trooping Season, 1926-27
- (ii) Tour expired and due for discharge or transfer to reserve, before Trooping Season, 1926-27
- (iii) Due for discharge or transfer to reserve before Trooping Season, 1926-27, but not having served a full tour in India

The Army Council have decided that it will be necessary to resort to the retention of personnel in India for an extra year, as the provision of a draft of some 780 other ranks from Signal units at home would cause a very considerable disorganization and loss of efficiency to such units which are not yet adjusted to peace establishment. At the same time it is felt that a change over of approximately 1 per cent of the whole of the British portion of the Indian Signal Corps would have an ill effect on the efficiency of Indian Signal units.

The Army Council have, therefore, given approval for the retention for an extra year of 50 per cent of the 780 other ranks due for relief in 1925-26, and of similar retention of all other ranks due for

I.A.O. 262, relief in 1926-27 and 1927-28, in order that the 30th Mar. resulting reliefs may be approximately as follows:—

1. 1925..	1925-26	390.
	1926-27	390.
	1927-28	360.
	1928-29	370.

With reference to this retention, it is essential that men held under Section 87 of Army Act should be sent home in time for their discharge or transfer to reserve to be carried out before the expiration of their extra year of Colour Service.

As regards the retention of the 50 per cent. of the 780 other ranks in 1925-26, the selection of personnel will be made on the following principles:—

- (a) All personnel tour expired but *not* due for discharge or transfer to reserve, before following trooping season, will be held in India for an additional year.
- (b) Of those due for discharge or transfer to reserve, before following trooping season, as many volunteers as possible should be obtained to serve for the extra year.
- (c) The difference between 390 and the numbers obtained by (a) and (b) to be obtained by holding personnel, whose periods of extra Colour Service will be shortest.

Necessary arrangements to give effect to the above instructions, will be made by the Commandant, Signal Training Centre and Depot, Jubbulpore, in communication with Officers Commanding Indian Signal units, headquarters of Brigades, Districts and Commands, and Officer-in-charge R. Signals. Records, as may be necessary, the Adjutant General in India being kept informed of the position from time to time.

As regards the 390 other ranks to be repatriated during Trooping Season, 1925-26 repatriation should, as far as possible, be delayed until after 1st January 1926, having due regard to the shipping situation, and to the dates such personnel may be due for discharge or transfer to reserve.

Insert the following sub-para. at the end :—

2. The necessary correction will appear in the July Appendix to India Army Orders, 1925.

I.A.O. 278 Invaliding—Indian Army.—Instances have occurred where later Medical Boards, when examining an individual for the purpose of assessment or re-assessment of disability pension, have recorded, in regard to the origin of a disability, an entirely different opinion to that held by the original Invaliding Board

/ 3970
DLS
A/31203
1 G

The original Invaliding Board is undoubtedly the most competent authority to decide whether an individual's disability was, or was not, attributable to military service, and a contrary opinion recorded by a subsequent Medical Board confuses issues considerably.

Later Medical Boards assembled to assess the degree of disability of Indian ranks under paras 612-621, P. & A. Regs. Part II, will confine their remarks therefore to :—

(a) whether the individual is still suffering from the disability on account of which he was invalided or from its effects.

- (n) whether the disability on account of which **I.A.O. 278.**
the individual was invalided has increased **31st Mar.**
or decreased, and the present degree of **1925**
disablement on that account

Later Medical Boards will not record opinions in regard to the origin of such disabilities when original Invaliding Boards have recorded a definite opinion on the point

Non compliance with these orders may be the means of depriving an individual of a pension to which he is entitled under rule

ANNEXURE TO INDIA ARMY ORDER No 270 of 1925.

ARMY COUNCIL INSTRUCTION No 738 of 1924.

738—Use of Portable secondary Batteries in hot climates

1 Reports have been received from several sources of the failure of portable secondary batteries in hot climates. While climatic conditions may be responsible for some failures, it is probable that in some cases failure has been due to lack of care in carrying out the initial charging of the batteries.

2. The life and performance of a secondary battery depend very largely upon the manner in which the first charge is carried out, and it is essential that the makers' instructions on the label should be implicitly followed.

3 Particular attention should be paid to the following points—

- (a) Electrolyte of the correct specific gravity must be used. The instruction label usually gives the specific gravity at a temperature of 60° F. If the actual temperature varies from 60° F a correction must be applied to the hydrometer reading. This may be obtained from the table shown in the Appendix.
- (b) The gas-spill devices must be replaced after the cells have been filled up and must not be removed during charging.
- (c) The temperature of the cells (electrolyte) must be taken at frequent intervals and must not be allowed to rise above 100° F. A fan situated not less than 5 feet from the batteries may be usefully employed to keep the temperature down, or the cells may be placed in a trough containing running or ice water.

Should the temperature continue to rise in spite of these precautions, the rate of charge must be reduced. It may even be necessary to stop the charge altogether for a short time, but except in an emergency the charge should be continuous, and should never be stopped before the negative plates are gassing.

- (d) If the rate of charge is reduced it will, of course, be necessary to prolong the charge, which should not in any case be considered as completed until all plates are gassing freely, and voltages and specific gravities have remained constant for several hours.

Note.—An officer who furnishes certificate D must bear in mind the extreme importance of it. He will not content himself with merely answering the questions asked in it, but will endeavour to report fully and clearly on the candidate's suitability in all respects for the responsible duties of the staff. Both the officer's strong and weak points should be described. In the selection of an officer for nomination to the Staff College this certificate is carefully considered and carries great weight. If an officer, while at the Staff College, proves himself clearly unsuited for staff employment, this fact will be noted by the Army Council as showing a want of judgment and capacity in the officer or officers who recommended him.

ANNEXURE TO INDIA ARMY ORDER No. 326 of 1925.

WAR OFFICE CIRCULAR LETTER No. 93/3618 (F-2-M.), DATED THE
7TH MARCH 1925.

I am directed to inform you that subsequent to the transfer of administrative powers in Southern Ireland to the Irish Free State Government in 1922 a reciprocal arrangement has been in operation by which Unemployment Insurance contributions paid in Great Britain and Northern Ireland were recognised in the Irish Free State and taken into consideration in the payment of benefit, and similarly, contributions paid in the Irish Free State were recognised in Great Britain and Northern Ireland. Consequently soldiers on discharge or transfer to the Reserve who went to reside in the Irish Free State were able to draw unemployment benefit by virtue of the contributions credited to them on discharge or transfer under Section 41 of the Unemployment Insurance Act, 1920.

These reciprocal arrangements have now been terminated and in determining claims to benefit the Irish Free State are now prepared to take into account only such contributions paid outside the Irish Free State as were paid on or before 1st July, 1923. As a result the soldiers who, on discharge or transfer to the Reserve now go to reside in the Irish Free State cannot draw benefit by virtue of the credit of contributions while residing in that State. Contributions are available for benefit only in

as and when the claimant is of unemployment benefit on a claim in respect of unemployment occurring in the Irish Free State will depend upon the applicant's ability to satisfy the conditions in force there irrespective of the credit of contributions on discharge or transfer.

It has accordingly been decided to treat such soldiers in future in the same way as soldiers discharged abroad, vide para. 7 (c) of A. O. 195 of 1922, as amended by A. O. 465 of 1921, and Form U.I.A.-3/XS will not be completed and forwarded to the Ministry of Labour until the soldier resumes residence in Great Britain or Northern Ireland. His position as regards benefit should be made clear to such a soldier on his discharge or transfer to the Reserve by the O. C. Unit and he should be instructed, in the event of his becoming domiciled in Great Britain or Northern Ireland to apply to the Officer in charge Records for Form U.I.A.-3/XS to be submitted in respect of him.

ANNEXURE TO INDIA ARMY ORDER No. 545 of 1925.

H.C. General (3951) (A. G.-3).

THE WAR OFFICE,
LONDON, S. W.-1,

CONFIDENTIAL

4th March, 1925.

Sir,

I am commanded by the Army Council to say that in some instances of summary disposal under Section 47 of the Army Act, where the case has been disposed of without oral hearing after the accused has consented thereto in writing it is found that the relevant copies of Army Form B-120, forwarded to this department in accordance with paragraph 1791 of the King's Regulations, are prepared in a manner leaving it uncertain whether the provisions of the Section have been complied with in regard to prior written consent before disposal. This lack of clearness has led to considerable correspondence.

I am to say that in future, in cases of summary disposal under the Section quoted, the names of all witnesses are to be entered in column 6 of the original Army Form B-120 (and consequently in the copies), whether they give the evidence or not; and if any part of the evidence consists of exhibits, whether documentary or otherwise, the name of the witness producing them is to be entered without mention of the exhibits as such. In cases where, by written consent of the accused, the evidence, or any part of it, is not given verbally, an entry is to be made in the "Remarks" column of Army Form B-120 to the following purport:—

Summary)
Abstract) read by consent (Written consent attached).

A copy of the written consent is to be annexed to each copy of Army Form B-120 forwarded to the War Office in accordance with the Regulation above quoted; and the contents of this letter are to be brought to the notice of all authorities whose duty it may be to prepare the Army Form in question.

2 Until further instructions, the period of limited extension of army service in lieu of transfer to the reserve is fixed at 3 years.

3 Extensions of service are always subject to the soldier being medically fit, efficient and of good character.

4 A substantive non commissioned officer has the right on completion of his period of army service or of any period of extension of army service to extend his army service in lieu of transfer to the reserve either (a) for the total period of service for which he is liable under his enrolment or (b) for the limited period fixed in para 2 above.

I.A.O. 379. Instructions for the carrying capacity and speed of Heavy Motor Vans in India when used for passenger carrying purposes.—Use of Heavy Motor Van.—Army Council Instruction No. 116 of 1923 on the use of Heavy Motor Vans is republished below

2. The instructions contained therein will be strictly followed in India:—

ARMY COUNCIL INSTRUCTION NO. 116 OF 1923.

Use of Heavy Motor Vans.—1. When used for passenger carrying purposes, the load of a heavy motor van, 15 cwt., will be limited to ten persons, including the driver. This load will be reduced to eight when the vehicle is required to carry out journeys off metalled roads, e.g., on military or artillery ranges.

2. Unit commanders having heavy motor vans on charge will be responsible for ensuring that the number of passengers carried is not in excess of that laid down in para. 1 and also that the speed of such vehicles is reduced to 8 m. p. h. on all cross-country journeys.

57/Vehicles/238 (Q. M. G.-3).

I.A.O. 380. Cleaning of Rifles, Short .22-inch R. F.—The reports of inspections carried out by Civil Chief Master Armourers show that units are not giving sufficient attention to the care and cleaning of .22-inch rifles.

2. The attention of all concerned is drawn to the instructions contained in I. A. O. No. 363 of 1923 the contents of which are republished as para. 7, Sec. 38, Chap. II, Small Arms Training, Vol. I. 1924, and will be strictly complied with.

3. On conclusion of firing, rifles will be cleaned without delay, and C. Os. will further ensure that immediately after such cleaning they are inspected by an officer. Miniature rifles will be treated with the same care as service rifles.

4. It is pointed out that loss of accuracy in .22-inch rifles is almost invariably due to neglect and lack of care in cleaning.

Preparation of Hospital Stoppage rolls (I. A. F. I.A.O. 381. A-55) in triplicate—In all cases where hospital stoppages have to be effected from officers and others dieted in Military hospitals, the Hospital stoppage rolls (I. A. F. A-55) will be prepared by the Officer Commanding the hospital in triplicate, the original being submitted to the Unit Accountant through the Officer Commanding of the unit or formation to which the individual concerned belongs, the duplicate to the Hospital Accountant for submission to the Audit Office with the Provision Account of the month concerned, the triplicate being retained in the hospital as an office record.

The National Rifle Association:—Owing to the increased cost of running their Meetings at Bisley and reconstructions necessary there, the National Rifle Association have found it necessary to appeal for funds.

2. Since the days of its inauguration in 1860, the Association has been the means of drawing together in friendly rivalry, teams and individual competitors from all parts of the Empire thus fostering and encouraging rifle shooting. The high standard of marksmanship, which was such a feature of the regular army in the early days of the Great War, was due in no small measure to the encouragement which was given to rifle shooting by the National Rifle Association. In addition, the Association trained several thousand instructors for the New Armies, and also provided from amongst its members large numbers of experienced marksmen for the Army.

3. It would be a matter of great regret if the Association were compelled to restrict its activities through lack of funds. It is therefore hoped that units and individuals of the army in India will show their appreciation of the good work done by the Association by sending donations, however small in answer to the appeal which is strongly supported by H. R. H. The Prince of Wales.

Donations should be sent to:—

The Secretary, N. R. A.,

Bisley Camp, Brookwood, Surrey.

L.A.O. 447. Travelling Allowance—Auxiliary Force, India.—
29th May 1925. The charges for conveyance allowance or warrants issued for movements of Auxiliary Force units to and from training camps may be compiled to the ordinary Auxiliary Force travelling grant, the training camp being viewed as the ordinary place of training or instruction under paragraph 172, Regulations for the Auxiliary Force, India, 1931.

L.A.O. 448 Conveyance of Arms and Ammunitions by rail—
 2041 The following instructions will be observed when
 Q-2-A consignments of arms and ammunition are despatched by the Military Department :—

2 As regards despatches of arms—

Consignments of machine guns (including automatic rifles) and arms are of two kinds :—

- (a) Large consignments in full van loads
- (b) Small consignments, i.e., less than a full van load.

In the case of (b) the special precaution to be taken is the despatch of such consignments by passenger train. Railways deal with such consignments under special rules and the guard taking over a consignment is required to give a receipt to the relieved guard for particular packages. Normally the usual intimation by post to the consignee of the despatch of the consignment is all that is necessary, but in cases in which the consignor considers it advisable, this intimation may be sent by telegram.

In the case of (a) the consignor will arrange in communication with the railway for the despatch of the consignment in special van loads, each van being secured, locked and sealed. The securing, locking and sealing will be carried out in the presence of a responsible representative of the consignor by the railway authorities who will supply the locks and seals. Such vans will be attached to passenger trains and railways have undertaken to arrange (i) that these vans are forwarded whenever possible from junctions by the first connecting

passenger train, and (ii) should this be impossible the wagon number, they will actually despatch for the information of the consignor who will thus be kept informed and enabled to watch the progress of the consignment

I A O. 448

29th May

1925

The keys will be retained by the railway authorities and handed by them at destination to a responsible military authority who will open the truck in the presence of the railway officer from whom he received the keys

The military authorities will receive from the railway authorities a receipt showing the details of each consignment as there will be opportunity for the Railway to verify the contents of the van while loading. Said to contain "receipts should not be accepted After the railway has granted the receipt the responsibility of the despatching officer ceases

3 Rules and restrictions regarding the carriage of Ammunition and Explosives are contained in the "Red Pamphlet"— Rules and rates for the conveyance of Explosives and other dangerous goods by rail

4 In the event of disturbances being apprehended on a scale likely to endanger large consignments, military or civil, in transit, G O's C Districts will immediately, where necessary, take measures in communication with the local railway and military authorities to escort or stop vans, which are in transit in or to the disturbed area Unless otherwise ordered, escorts will proceed through to destination

Command Headquarters will prepare, in consultation with the railway authorities, a system by which the earliest possible notification of the location of all consignments on rail in their areas will be notified to District and local commanders, on receipt of instructions for the scheme to be put into force

In cases in which vans are stopped or escorts are provided, a telegraphic report will be sent by District Headquarters concerned to its Command Headquarters and Army Headquarters, giving the

I.A.O. 448. nature of the consignment and its destination to enable further orders to be issued where necessary. If the consignment is for a destination in its Command area, Command Headquarters will issue the necessary instructions as to its disposal and the extent to which it should be escorted. If the consignment is for some destination outside the Command area, Army Headquarters will issue the necessary instructions.

5 Nothing in these instructions is intended to supersede the precautions which are at present in vogue for the protection of arms and ammunition at localities on the frontier, or to prevent arms being despatched in special vans, if such action is considered necessary for reasons of security by the despatching officer.

6 India Army Order No 629 of 1923 is hereby cancelled

I.A.O. 449. Passages—Railway—Stores intended for the Overseas Rest Camp, Karachi, and consigned to Karachi, will be consigned to Karachi Cantonment Station, North-Western Railway, and not to Karachi City Station.

2 Full wagons will be consigned to the Overseas Rest Camp, Karachi.

I.A.O. 450. Transport—Training—With reference to paragraph 315, Army Regulations, India, Volume II, the syllabus of the course referred to, which formerly appeared as Appendix VII of the old edition of Army Regulations, India, Volume II, has been revised and is published as an Annexure to this Order.

The revised syllabus will be incorporated in the next edition of the pamphlet "Courses of Instruction, India."

ANNEXURE TO INDIA ARMY ORDER No 446 OF 1925

COPY OF GOVERNMENT OF INDIA FINANCE DEPARTMENT, LETTER
No F 159 C S R 124, DATED SIMLA THE 14TH APRIL, 1925

SUBJECT — *Travelling allowance of Civil Officers who are members
of the Auxiliary Force*

SIR,

I am directed to refer to your letter No 788/E 227 II, dated the 11th July 1924 enquiring whether the orders contained in Mr Hignell letter No 567 E B, dated the 10th April 1919, on the subject of the grant of travelling allowance to civil officers for journeys undertaken partly in connection with their training under the Indian Defence Force Regulations and partly in connection with their civil duties should be considered as applicable to similar cases falling under the Auxiliary Force Act

2 In reply I am to say that the local Governments who were consulted in the matter have no objection to travelling allowance under civil rule being granted to members of the Auxiliary Force in circumstances analogous to those referred to in the orders of 1919 and to the charge on this account being met from Provincial Revenue. The same course may, at the discretion of the Governor in Council be adopted in disposing of cases which may arise in the Central Provinces

3 I am to add that the Government of India have decided to apply the orders of 1919 in the case of their own officers who are members of the Auxiliary Force in the circumstances described therein

I have the honour to be,

SIR

Your most obedient servant,

(Sd) P R RAU,

Under Secretary to the Government of India.

Practical examination.

Merapi near Djohjakarta, Central Java Has been an active volcano for centuries and still is.

Gedeh South-East of Duitenzorg. A lofty Distant Volcano

Of the former Gikungoeng, and Papandayan in the Prianger Regencies are the most famous. Each has had an awful eruption over 1,000 years ago, and the traces thereof remain to this day. Both accessible without much difficulty. The volcanic phenomena on the first named, though not made rich in by Tourist Agencies are extraordinary to a degree. The ruins near Djohjakarta like the Borobudur and Brambanan Temples are well worth a visit but have been "heavily rained."

Sumatra is far less opened up than Java. Its chief attraction for a tourist from Malaya lies in the Hill Station of Padang, at an elevation of 4,500 feet. It is easily reached from Singapore and the Dutch Port of Belawan Deli and Medan. The latter is 77 kilometres distant from the latter town. There are two hotels in Bristagi with Tennis Courts and two indifferent Golf Courses. The climate is ideal and in the neighbourhood is good riding country. Good ponies of the Deli breed not unlike Burma ponies are easily obtained.

Batu.—Is chiefly famous for its Hindu Temples. There are no railways and a round trip of island has to be done in Motor Car.

Siam.—For any touring in Siam, Bangkok would have to be used as a jumping off place, in all probability.

It is easily reached via Pang and the Dutch Port of Belawan Deli and Medan. It is 77 kilometres distant from the latter town. There are two hotels in Bristag with Tennis Courts and two indifferent Golf Links. The climate is ideal and in the neighbourhood is good riding country. Good ponies of the Deli breed not unlike Burma ponies are easily obtained.

Bali—Is chiefly famous for its Hindu Temples. There are no railways and a round trip of island has to be done by Motor Car.

Siam—For any touring in Siam Bangkok would have to be used as a jumping off place, in all probability.

The States, for in all these well equipped occupy which is Civilized uses in all the fully be applied

3 Coasts—:ous small steamers ply between the various Ports particularly on the West Coast.

(B) Without the Peninsular.—The Countries easiest reached (outside Indian Limits) are—

1. The Dutch Indies (Particularly Sumatra and Java).
2. Siam.
3. Australia.
4. Indo-China, China and Japan.

Of these (1) and (2) are very easily reached

1. The Dutch Government are very keen on "booming" Java and Sumatra for Tourists and of late have extended their activities to the island of Bali immediately East of Java. Immigration formalities are negligible and the Customs authorities are most courteous towards British Tourists. A passport bearing the visa of a Dutch Consulate or consular agency is advisable.

Java is naturally far the most advanced possession in the way of civilization, and has an excellent railway system enabling one to visit nearly all the places of interest with ease and comfort, the hotels are excellent and travelling, if done leisurely, is not expensive—Brief "rushed" tours by motor car are to be avoided. Roads are severe on tyres and taking one's own car is hardly advisable. Bandoeng, Garoet and Djokjakarta are excellent centres but Tosari as a Hill Station is somewhat exaggerated—it is cramped, and the climate is marred by a prevalence of fog throughout about 9 months in the year. It probably owes a good deal of its reputation as a tourist resort to the propinquity of the much written about "Sand Sea" and "Bromo Volcano". The famous volcanoes of Java in many instances are dormant or extinct and do not come up to one's ideas of volcanoes based on Etna and Vesuvius. The majority are volcanic mountains, covered in forest which have at some period of their history been ruptured by internal forces entailing terrible loss of life. A few are regular "burning mountains" or have been so in the past. Of the latter the most famous are :—

Radeng in the Extreme East of the Island : Remote and unget-at-able. Still active.

Smerue South of Tosari. The highest mountain in Java. Rather Repote. Dormant.

and Southwards with Singapore and Johore (the Johore State Railway—Gemas—Johore Bahru, 120 miles) being leased to the F M S Railway. This Railway is Government owned elsewhere.

The F M S Government also owns the east coast line which, starting at Gemas (Johore) runs at present as far as Kuala Lipis the capital of Pahang. Branch lines connect the following ports on the west coast with the main line—

Malacca, Port Dickson, Port Swettenham, Telok Anson
Port Weld

It is possible to travel right through by rail from —

Singapore Bangkok (capital of Siam) 1,188 miles

Singapore Padang Besar (Siamee Frontier) 1,000 miles

Singapore Prai (opposite Penang) about 400 miles

A Section of Railway in Kelantan at present only 30 miles in extent between Tumpat and Tanah Merah also exists and this is being extended, it being intended to link up Kuala Lipis with Tanah Merah (155 miles)

Train service is good

2 Roads—In the F M S road communications are excellent and liberal—they decline in the Unfederated States and Straits Settlements in quantity and quality

The metalled roads are well graded and in excellent repair, admirably suited for motor traffic, of which there is a considerable amount

In 1921 there was the following mileage of roads communications in the F M S—

State	Metalled Cart Roads	Unmetalled Cart Roads	Bridle and Paths.
Perak	83½	91½	1,015
Selangor	663	105 (76 " gravelled")	115
Negeri Sembilan	421	■	206
Pahang	240 (approx)	1	1

There are numerous well equipped Rest Houses in all the States, permission to occupy which must naturally be applied for in advance from the Civil Authorities

3 *Coastal*.—Numerous small steamers ply between the various Ports particularly on the West Coast

(B) *Without the Peninsular*.—The Countries easiest reached (outside Indian Limits) are—

The telephone service is good and one can converse by means with Penang and Kuala Lumpur, and several other towns in the F. M. S., but as yet not with Singapore.

6. *Sports—Games*—Considerable enthusiasm is shown in games throughout the Protectorate, and, notwithstanding heavy rainfall, most games can be played throughout the year. Nearly every township and many of the larger villages, have their "Padang" (maidan) which is a recreation ground, and almost invariably rises to an Association Football pitch, if nothing else. Football is the game, and the natives prefer Association to Rugby. Rugby, Football and Hockey are played mainly by the European Communities, but all go in for cricket with enthusiasm notwithstanding the frequently difficult wicket and dead out fields, which are conducive to low scoring. The conditions under which cricket is played are strenuous and has to be used a lot by European bowlers, however fine the weather, to cope with the profuse perspiration play engenders.

There is keen competition between the various states, and in most cases, there is ample field for a good selection, as players are often willing to go 100 miles or so in order to participate in a Trial Game.

An Association Football League exists in Taiping and there is generally no difficulty in fixing up numerous friendly games between Battalion and Company teams and various European and Native Teams.

Polo—Is played in most of the larger towns, the stands are not high but the players are keen. Malay and Chinese gentlemen participate and His Highness the Sultan of Perak and entourage are keen patrons of the game, and also turn out. His Highness has a Polo Club under his direct patronage at the Capital, Kuala Kangsar.

Polo ponies are generally imported from India and cost \$550 to \$600. A cheap one may occasionally be picked up at race meetings having failed as a racing pony.

Racing—Penang, Ipoh (Perak), Kuala Lumpur (Selangor) and Singapore are the chief centres. However many of the smaller townships have their Race Course (There is one at Taiping) in which smaller meetings are indulged in by the civilian population, European, and otherwise are keen on the sport.

Boxing—Is much encouraged among the local schools, and by various associations. Frequently the Battalion is asked

5. *Banking and Postal.*—The Postal system for official correspondence is as follows:—

A regimental officer (usually the Adjutant) is franking officer, and all correspondence franked by him pass through the F. M. S. and Straits Settlements Post Offices without Postal labels. There are no "Service" Postage stamps and letters proceeding ex-F. M. S. and S. S. have to be stamped with ordinary Postage stamps. Mails to Europe are rather irregular, but Mail notices are put up in the Officers' Mess and Clubs; giving dates of sailings of mail steamers, and the hours and dates mails close at the Taiping Post Office.

Minimum rate of Postage for letters—

Within F. M. S. and S. S.	.. Cents 5
Ex-F. M. S. and S. S.	.. Cents 6

In the smaller villages, the Post Office is usually at the Nearest Railway Station.

Banking.—The following are the principal banks:—

- A. The Chartered Bank of India, Australia and China (Branches at Taiping, Ipoh and Singapore)
- B. The Mercantile Bank (Branch at Penang).
- C. The Anglo Chinese Bank (Branch at Penang).

The currency is in Dollars and cents, 1 dollar = approx. 2s. 4d. = 100 cents. Paper money is much used.

Currency notes of the following denomination exist etc. 10 \$1, \$5.00, \$10.00, \$50.00, \$100.00, \$1000.00.

The rate of exchange between Dollars and Rupees is constantly fluctuating, and is declining. R. 155 = \$100.00 may be taken as an average.

X.R.—The local Post Office will not return Payee's Receipts for sums remitted by Money Orders unless a fee of cents 10 is paid over and above commission.

Telephone and Telegraph.—The Telegraph service comes under the Postal Department, as does the telephone.

Telegraphic rates are as follows:—

- Cablegram to Europe per word \$1.23.
- Cablegram to India per word 60 cents.
- Cablegram to Burma (Official—Half Rate).
- Telegram Inland per word 5 cents.

Short Range—A serviceable 30 yards range has been constructed about 5 minutes march from barracks. The Firing platform is covered to admit of firing in wet weather and there is a shelter for waiting men also

(C) *Training and Field Firing Grounds*—

Owing to the provisions of the State of Perak Enactment No 12 of 1905 the acquisition of these is, unless taken in hand well in advance, liable to complication. The general nature of the country is also adverse to high military training, and the "Military Land" in the immediate neighbourhood of Taiping including an artillery range has been allowed to lapse and is now largely leased to Mining Companies. The Polo ground is available as a "Parade ground" officially, but is surrounded by a "Race Course and in part Golf Links.

In 1923 a field firing ground was acquired near Pusing (60 miles South East of Taiping on the Railway Branch Line) and an adjoining "Manoeuvre Area" proved rather a failure owing to its distance from the Camp Site and shortage of water. The field firing ground was safe and admitted of excellent exercises provided not more than one platoon at a time participated. The Camp Site accommodated 2 companies.

In the years 1924 and 1925 an excellent camp for three companies and Vickers Gun Section was established at Kroh in the extreme North of the State of Perak on the Siam Frontier. The camp has proved a great success, and resulted in great benefit to the unit from a training point of view.

(D) *Housing—Officers*

Very liberal—No house rent charged by the Government

4 *Medical*—Amongst the various non European communities, e.g., Chinese, Malays, Indians the most prevalent diseases are Tuberculosis, Malaria and Venereal. Cholera and Plague are almost unknown.

In Taiping during the year 1923 Malaria accounted for 33 per cent of admissions into the Regimental Hospital, Influenza 19 per cent, and Venereal Disease 10 per cent. Most of the malaria cases were imports from previous infection. Diseases of the enteric group and Diarrhoea are practically absent in the Battalion owing to the excellence of the Sanitation and conservancy in the lines and Barracks. There have been no cases of Infectious Diseases during the stay of the Battalion in Taiping up to the end of December 1924.

The barracks are mainly of bricks and wood, 2 storeyed, except in the married line, and in good repair. There is no overcrowding. Each barrack has its own Latrine, Cookhouse and Ablution Room.

Sanitation is excellent throughout the town, including the Barracks. There is a net work of concrete drains scrupulously cleansed daily, by the Civil Sanitary Board. Every building in Barracks and Lines, is surrounded by similar drains. The local Government also provide a roohe establishment for cutting grass and cleaning up generally. The conservancy system is "Removal"—Refuse being taken away by special scavenger motor lorries, and night-soil by a motor conservancy van.

In fact, so good is the construction of the lines and the conservancy system that from time to time detachment of British soldiers from the Battalion at Singapore have been quartered in one of the barracks, during Musketry practice, a procedure entailing a certain amount of discomfort and "closing up" of the Burmese troops, but productive of a very good spirit of "camaraderie" in a possibly unique situation, so far as peace conditions go. There are also excellent covered standings for the Battalion L. and V. 4. mules with saddlery and forage rooms hard by.

The battalion Hospital is located near the centre of the barracks.

There are no Bells of Arms, but a small armoury attached to an admirably equipped armourers' shop, and ample accommodation for Battalion Stores, Institutes, etc. There is also a large covered Gymnasium.

(B) Ranges—

The classification range is a station one, and has to be made available for use by the Police and Local Volunteers also. The range is a gallery one, accommodating 12 pairs of targets, with up-to-date fittings. It has recently been renovated and the firing points up to 600 yards realigned and adjusted. From 600 firing platforms can be provided in the way of and protection from rain. There is also an elaborate Trolley system for moving targets and the range can be used for individual Field Practices including Lewis and Vickers Guns. A trench system for Revolver Practice is also under construction on it.

The Straits Settlements are Crown Colonies; Penang Province Wellesley and Dindings being grouped together as one "settlement" or colony for administrative purposes.

The Chief Civil Officers in Penang and Malacca are styled "Resident Councillors".

Certain Overseas British possessions have been annexed as dependencies to the Straits Settlements since 1900, viz: Cocos or Keeling Islands, Christmas Island, and North Borneo (formerly Colony of Labuan, merged later into Brunei—N. Borneo)

2 *Climate*.—Dampness is the chief characteristic of the climate, and this is felt to a greater degree on the west of the Territory than in the east.

Seasonal Variation is very slight and it may be called perpetual summer throughout the year. The nights are never hot, and long spells of drought are unknown.

The cool nights militate against the eternal warm dampness, and to some extent save the climate from being entirely enervating. Exercise is however an absolute essential to keeping fit. Otherwise the climate is not unhealthy, and the local Government is very active in combating Malaria (see below). There are at present no hill stations worth calling such—Sanitaria exist on the Larut Hills (Perak), Fraser's Hill (Selangor Pahang border) and Penang Hill—there are also a few colonial resorts.

3 *Accommodation*.—The only military station at which regular Troops are quartered in the F. M. S. is Taiping (Perak), situated some 58 miles from Penang in the Larut plain, an extensive mining area now being re-developed.

One Infantry Battalion is accommodated in the Barracks built for the former "Malay States Guide".

(A) The Barracks are situated near the Government Offices in the north part of the town, within easy reach of the Railway Station and Post and Telegraph Office. They are built as detached bungalows in 2 squares, one entirely and one partially surrounding a grassed parade ground. These parade grounds are too small for exercising a Battalion as a whole, but admit of three football grounds. There are also two detached bungalows near the Transport Lines, excellently adapted for housing H. Q. Wing.

Beside the barracks, and clearly separated by a main road are spacious well-shaded Married Lines which can easily accommodate 100 families.

British Malaya consists of the following :—

- (1) Colonies—Singapore, Malacca, Province Wellesley, the Dindings, Penang.
- (2) The Federated States of Perak, Selangor, Negri Sembilan and Pahang.
- (3) The Unfederated States of Kelantan, Kedah, Perlis, Johore and Trengganu.

These all come within the Malaya Military Command as does the island of Labuan.

The Seat of the Federal Government and Federal Capital is Kuala Lumpur (Selangor State).

This Federation was resultant from a treaty signed by the rulers of the 4 States in question, who among other matters "undertook to give each other material assistance in men and money" the wealthier States assisting those needing help, and monies advanced for this being considered loans. They also undertook to raise and equip a force of Indian troops for service throughout the States, and to make available for the defence of the Straits Settlements in the event of Great Britain being at war with any foreign power. These troops became the Malay States Guides consisting of a Battalion of Infantry and a Pack Battery. They were disbanded on conclusion of the Great War and replaced by a battalion of Indian Infantry (Burma Rifles), the Federation paying for its maintenance whilst on such service.

In the Unfederated States the several Sultans are recognised as "Sovereign Rulers" under British Suzerainty. Each has accepted the advice of a British Civil Officer, who is much on the same footing as a Resident, but is responsible direct to His Excellency the High Commissioner. These officers are styled, with one exception, the British Advisor in Johore his designation "The General Advisor". The internal affairs of these States are controlled by State Councils.

The Unfederated States were formerly under the more or less nominal suzerainty of Siam, but the British Advisors were gradually accepted under treaties and agreements between Great Britain on the one hand and Siam and the several States on the other, lasting over the period 1909-1923.

The status of the "British Advisors", and "Residents" is much as that of the Residents in the larger Feudatory States in India.

interval between the date of posting the summons or notice and the date fixed for the hearing of the suit is to be not less than three months instead of not less than four months.

16 *Books and Stationery*—

(b) *Forms*.—One year's supply of Army forms Army Book Indian Army and other forms will be taken. Headquarters Malaya Command is empowered to indent direct on the Deputy Controller (Forms) 166 Dharmatala Street Calcutta, for any fresh supply necessary, in accordance with the rules laid down in I A F Z 2001 three months before the existing supply is exhausted. Stocks on hand when a relief takes place should be handed over to the relieving unit.

(c) *Stationery*.—One year's supply of stationery will be taken. Headquarters Malaya Command is empowered to indent direct on the Controller of Printing, Stationery and Stamps, 3 Church Lane Calcutta for any fresh supply necessary three months before the existing supply is exhausted.

British and Indian officers serving in the Federated Malay States are exempt from the payment of Indian income tax, *vide* India Army Order No. 528 of 1920. British officers are also exempt from the payment of house rent, but they are required to pay hire for the furniture supplied by the Federated Malay States Government.

The extract from Adjutant General's Circular 53-E. of the 25th February 1910, reproduced in the note to Section 122, I. A. A., applies to civil proceedings against soldiers serving in Taiping, with the exception that

7. *Carriers, Water-Bottle.*—These, as in the case I.A.O. 159. of braces, become, frayed at the edges and very little in the way of repairs can be done. If new parts are fitted the top band will be made slightly full to allow for shrinkage. 30th May 1925.

8. *Frogs.*—The loops on the front wear out quickly at the part where the nipple of the scabbard rests. When fitting new loops the top loop should be slightly larger than the bottom loop so as to allow the nipple of the scabbard to pass under.

9. *Haversacks.*—The back of the haversack wears out more quickly than the other parts owing to friction with the scabbard. As soon as small holes are noticed they will be neatly darned, as when once the yarn is worn away the small holes quickly become large ones. The same remarks apply to haversacks, O. S., through friction against the man's clothing. [See (4) for fitting new tabs, chapes and buckles].

10. *Loops, Dirk.*—New parts will be fitted when the edges become frayed.

11. *Packs.*—The back of the pack usually becomes worn through contact with the back belt buckles. The worn places will be neatly darned. [See (4) for fitting back tabs].

12. *Straps, Supporting.*—Same remarks as for braces.

13. *Sewing.*—If machines are available, they may be used, but if not, all sewing is to be done by hand with two needles. Sewing by the hookawl method is prohibited.

The thread used for the various parts is stated below.—

Attachments, Brace.—No. 18, 3-cord, linen.

Belts.—No. 18, 3-cord, linen.

Carriers, Cartridge.—No. 18, 3-cord, linen, excepting the flaps which should be sewn with No. 25.

459 **Instructions for carrying out repairs** **Web**
May **Equipment**—1 Articles of web equipment usually
 15. become unserviceable through friction. When the
 webbing has become frayed in or about the center
 of any part it can be neatly darned but where the
 edges are frayed a new part will be fitted.

2 When new fasteners, eyelets and rivets are
 fitted, the webbing will not be cut (punched) but
 parted with an awl.

3 *Attachments, Brace*—The 15" X 1" strap is
 the part that usually requires repair, it wears out
 quickly where it connects with the buckles of the
 waist belt and supporting straps and will be re-
 placed when necessary.

4 *Belts, Waist*—These are supplied in three sizes
 —large 56", medium 50", small 44", overall. When
 fitting new tabs with buckles (or with the belt-
 waist, special—chaps and buckles), care will be
 taken to fit them in the correct position and at the
 proper angle otherwise the position of the braces
 will be affected. To ensure getting the correct
 position the belts will be lightly marked with
 chalk at either side of the old tab or chape before
 it is removed. This also applies when fitting new
 back tabs to haversacks and packs and to back
 chaps and buckles of haversacks. O S

5 *Braces*—These usually become badly frayed on
 the edges and at the parts where fixed to the
 buckles and very little can be done when the edges
 are frayed. Practically the only repairs carried
 out are the replacement of tips. After these are
 fitted they will be tried through a buckle and if
 found too wide the sides will be tapped until they
 fit.

6 *Carriers, Cartridge*—These usually require a
 large percentage of fasteners and flaps. When new
 flaps are fitted sufficient length will be allowed for
 shrinkage. It is usual to allow from $\frac{1}{2}$ " to $\frac{3}{4}$ ", and
 as a guide the crown part of fastener will come
 about $\frac{3}{4}$ " below the base part when the pockets are
 filled with ammunition. See (2) for fitting f-
 teners.

Artillery Practice Camps, 1925-26.—The instructions laid down in Appendix "A" of the Proceedings of the Royal Artillery Conference, 1925, will be carried out by every mobile regular R. A. unit in India, before proceeding to Practice Camp. I.A.O. 455.

Schools—Equitation.—In some cases horses brought by British Officers to the Equitation School are not of sufficiently good stamp to be regarded as chargers. On the last Long Course some of the chargers brought were either lame on arrival, not up to the owner's weight, unsound or untrained. I.A.O. 456.

G.S.-M.T.-1.

Owing to the intensive nature of the work imposed, a really well trained, sound horse of good quality is required for the Equitation School course. The loss of time in tuition which an officer incurs through having an ill-trained or unsound animal is bound to affect adversely the standard of efficiency attained by the end of the course.

The Standing Orders for Indian units proceeding to Taiping (F.M.S.) are published as an Annexure to this Order. I.A.O. 457.

Documents—Proper identification of Indian military pensioners is only possible if the marks of identification recorded in descriptive rolls are accurately copied into descriptive registers. If located at a non military station they will be attached to the section formed at the nearest convenient military station

Army pay and allowances will be disbursed monthly by the O C "T" Coy, Bulbore in I A F A 33. Telegraph allowances will be disbursed locally by the Telegraph Department

(i) Individuals when preparing I. A. F. T.-1727 will state in the column of remarks the reasons why passages cannot be accepted at any time during the season. It must be understood that only reasons of a military nature, in the interests of the service, will be accepted for postponement of passages.

(ii) Families of entitled first class passengers are not entitled to private steamer passages during the non-trooping season. It is essential, therefore, in the interests of officers who will be proceeding home after the trooping season, that applications for entitled passages for families be received at Army Headquarters early in the trooping season. Otherwise there is a very great risk of such families being shut out of transport, owing to the congestion which invariably occurs at the end of a trooping season, which entails the retention of such families in India till the next trooping season. It is also essential that an individual who holds a lun on his passage should submit I. A. F. T.-1727 well in advance of the expiration of his lun.

- (iii) Applications for passages on behalf of parties —
 10 in number, moving between —
 Bombay and Karachi,
 Madras (and Calcutta) and Rangoon,
 Bombay (and Karachi) and Persian Gulf Port. —
 Basrah,
 Bombay (and Karachi) and Aden,

will be submitted by Districts, Independent Brigades or Command Headquarters, from which such parties are proceeding direct to the Embarkation Commandant, Karachi, in the case of the Northern and Western Command and to the Embarkation Commandant, Bombay, for the remainder of India and Burma

(iv) The Officer in charge L A S C Records, when submitting bulk requirements for passages (*vide* Appendix 'A') will show clearly the stations in India from which passages are required. This is necessary to enable correct apportionment of allotments being made between Bombay and Karachi

2	Individuals entitled to 3rd class and troop-deck accommodation excluding prisoners	Q M G in India	Bulk allotments to transporters will be made by Q M G in India to authorities concerned

4	Individuals of Iraq	P N T O, East Indies Bombay	P N T O, East Indies will obtain from Q M G in India whenever possible accommodation on transport for these individuals
5	Complete units	Q M G in India	

Notes.—

(i) When passages are allotted to payment furlough men, it must be understood that the unit concerned is responsible for the recovery of the passage money

(ii) On receipt of a bulk allotment, the authorities concerned will make detailed allotments to the troops under their command

(iii) Three weeks before the date of embarkation, the authorities concerned will submit to the Q M G in India on the form shown at Appendix 'B', the actual detail of allotments made. This will enable Milrail to make the necessary arrangements for collecting the details and for their de-patch by to the port. Copies of these detailed allotments are to be submitted to Embarkation Commandant, Bombay and O C Overseas Rest Karachi as the case may be.

L.A.O. 500. Any amendments or corrections which it may be necessary to make after submission of these detailed allotments will be telegraphed to the Q. M. G. in India, repeating to Embarkation Commandant and O. C. Overseas Rest Camp concerned.

13th June
1925.

(iv) The system of maintaining a pool at Deolali and Karachi Overseas Rest Camps with which to fill last moment vacancies will be discontinued. It is imperative therefore that when once bulk allotments are made, they are filled by authorities concerned.

(v) Messing charges are recoverable from sons over 16 years of age in all cases even when travelling as entitled passengers.

IV. General.

(i) All individuals proceeding to Great Britain or Colonies, at the public expense, and entitled to free passage to their intended place of residence must be supplied by the original despatching officer with the requisite authority on L. A. F. T.-1734

Embarkation staffs are responsible, that none of the above persons leave India without this certificate.

...cer will accordingly when sub-endorse on the remarks column when conveyance is admissible, and quote the authority.

(ii) The necessary staff for each transport will, as heretofore, be detailed under the orders of the Q. M. G. in India. The baggage officer will be required to report to the O. C., Overseas Rest Camp, Deolali or Karachi, two days before the sailing of the vessel.

(iii) The required number of conducting officers will be detailed by Q. M. G. in India as far as possible, from the entitled 1st class passengers proceeding by each transport. These officers will be actually detailed to drafts under the orders of the O. C., Overseas Rest Camp, Deolali and Karachi. In cases where the requisite numbers of conducting officers are not forthcoming from the entitled passengers, a selection will be made from the lists of applicants for indulgence passages, held by Embarkation Commandants. Owing to shortage of accommodation, this selection will normally fall on individuals not accompanied by families.

(iv) There are ten good sets of quarters in the married officers section at Deolali Overseas Rest Camp. The inclusive daily charge for food, accommodation, light, etc., is Rs. 3 per diem for adults and Rs. 2-8-0 for children.

Part II. Indulgence Passages.

The procedure with regard to applications for, and allotments of, indulgence passages, during the Trooping Season 1925-26, will be as follows:—

1. *Applications*—G. O. C-in-C. Commands, G. O. C. Burma District and Aden, will deal with all applications for indulgence passages received from individuals serving, or residing, in their respective commands.

Applications from the Duncting Staff, Staff College, Quetta, will be dealt with by Hqrs., Western Command.

Applications from students at the Staff College, Quetta, will be dealt with by the Command to which their units belong or to which they are posted at the conclusion of the course.

The G. O. C., Aden Brigade, will forward to Army Headquarters, all applications received from individuals serving, or residing, in his command.

Applications from individuals actually employed at Army Headquarters will be dealt with by the Q. M. G. in India, but applications from individuals belonging to services or departments, such as the Remount Department, Farms Department, etc., who, though directly responsible to the head of the department at Army Headquarters, are not actually employed at Army Headquarters, will be dealt with by the headquarters of the command or district in which the individual is serving. This also applies in the case of officers employed with Indian State Forces.

Individuals, and their families entitled to free passages under the new 12 per cent concession rules are not eligible for indulgence passages. Applications for indulgence passages to countries other than Great Britain will be submitted, through the usual channels, to the Q. V. G. in India for disposal.

I A O. 500
13th June
1925.

2 Priority Rolls—G. O. C. in C, Commands, and G. O. C., Burma District, will prepare and maintain priority rolls of all applicants for indulgence passage.

Separate rolls will be maintained for 1st, 2nd and 3rd class applicants.

These rolls will show—

- (i) The order of priority (vide A. R. I., Volume X, Appendix V) and the serial number of applicant. Strict adherence to the categories laid down in the serial and priority rolls must follow the order of the categories. Priority within any particular category is, however, a matter for G. O. C. in C to decide.
- (ii) Rank, surname and unit of applicant with details of family if any. The ages and sexes of children must be given.
- (iii) The address of the applicant.
- (iv) The category under which the applicant comes, vide A. R. I. Volume X, Appendix V.

A similar priority roll will be maintained at Army Headquarters. This roll will include applicants actually serving at Army Headquarters and applicants from Aden.

Instructions regarding the method of making out the priority rolls are shown on the reverse of the form in Appendix "C".

3 Submission of priority rolls—Duplicate copies of A. H. Quarter No. 1 in and Western Command priority rolls will be supplied to and maintained by the Embarkation Commandant Karachi. Duplicate copies of priority rolls for Eastern and Southern Command and Burma District will be supplied to and maintained by the Embarkation Commandant, Bombay.

4 Allocation—Any accommodation which may become available on transport sailing from Karachi will be reserved exclusively for applicants from Army Headquarters and the Northern and Western Commands. Similarly transports at Bombay will be reserved for applicants from Eastern and Southern Commands and Burma District.

In making allotments, the Embarkation Commandant concerned will give priority to those in the highest categories, irrespective of the actual list on which such applicants may be borne. For instance, a command which registers six applicants in a category 1 would if there were no applicants of this category on other lists receive six allotments before any allotment was made to another command.

I.A.O. 500. When the applicants at the top of Command lists are all of the same category, the Embarkation Commandant, Karachi, will allot available accommodation in rotation in as nearly as possible the following proportion:—

13th June
1925.

Northern Command	70 per cent.
Western Command	20 per cent.
Army Headquarters (including Aden)			10 per cent.

Similarly the Embarkation Commandant, Bombay, will allot in as nearly as possible the following proportion:—

Eastern Command	.	..	45 per cent.
Southern Command	.	..	50 per cent.
Burma District	.	..	5 per cent.

The last 5 indulgence allotments made to any particular vessel will, until 5 days of date of sailing in the case of Karachi and 3 days in the case of Bombay, be considered as provisional in case this accommodation is required urgently for entitled applicants. The Embarkation Commandant will ensure that applicants for indulgence passages allotted to fill this accommodation are informed that allotments must be considered as provisional till expiry of the time limits given above.

5. *Passages for Nurses accompanying families granted 1st class indulgence passages*—(Owing to the scarcity of 2nd class accommodation on transports nurses, as such, cannot be given 2nd Class indulgence passages to accompany families who are travelling as 1st Class indulgence passengers.

6. *Notification of allotment*—In the case of allotments to individuals in military employ, the notification of such allotments, with details of messing charges, etc., will be sent by the Embarkation Commandant concerned direct to the Officer Commanding the Unit or other formation to which the individual concerned belongs. This notification of allotment will not be repeated by the Embarkation Commandant, to the command or other superior formation, and will be repeated to the individual himself only if it should be known in the office of the Embarkation Commandant, that the individual is absent from his unit, i.e., on leave or on a course of instruction, etc. The individual's commanding officer will be responsible for notifying to the Embarkation Commandant, any change of address either of the unit or of the individual.

In the case of allotments to persons not in military employ, notification will be sent by the Embarkation Commandant, direct to the individual concerned. It is the duty of such individuals to keep the Embarkation Commandant concerned informed of their movements.

7. *Notifications of sailings*.—Immediately on the sailing of each transport, the Embarkation Commandant will post a list to each Commandant concerned showing:—

(i) Names of 1st, 2nd and 3rd class indulgence passengers who have proceeded by that transport. Details of

- (u) Names of 1st, 2nd or 3rd class applicants for indulgence passages who were refused, but did not accept. I.A.O. 500
13th June 1925.

Copies of such lists will be sent to the district or independent brigade area concerned. A H Q or the Command concerned will decide what action is to be taken in cases falling under (u) above but, pending the receipt of instructions, the Embarkation Commandant, will remove from the priority lists kept by him names of persons who refuse indulgence allotments.

■ *Removal of names from registers*—Applications to remove names from registers, and notifications of names having been removed, will be submitted through the channel followed by the original application. The individual or the individual's commanding officer is responsible that the Embarkation Commandant is informed at once if an applicant owing to having already made other arrangements or for any other reason, is unable to accept an allotment if offered.

9 *Last moment berths*—In the event of berths falling vacant at the last moment before the sailing of a transport, the Embarkation Commandant may in order to avoid the vessel sailing with empty berths allot any such berths to any registered applicants for indulgence passages who are present at the port of embarkation in preference to their position on the priority rolls. This procedure will only be adopted when there is not sufficient time to offer the accommodation to the applicant, whose name stands first on the priority rolls for allotment of passages.

10 *Intermediate ports*—Unless specially authorized by the Q M G, indulgence passages for individuals desirous of proceeding to Great Britain will not be granted to intermediate ports, such as Suez or Port Said.

11 *Returns*—G O C in C, Commands, and G O C, Burma District, will on the first of each month submit to the Q M G in India a return showing, by classes (i.e., 1st, 2nd and 3rd class)—

(i) Numbers of applicants for indulgence passages on their rolls

(ii) Numbers of applicants who, up to date, have been granted indulgence passages

12 *Proceeding to port of embarkation on chances of passages falling vacant*—Applicants for indulgence passages must not be encouraged to proceed to ports of embarkation in the hope that owing to berths falling vacant at the last moment they may receive an allotment of passage out of their turn.

By doing so it is true that they may obtain a passage, but it is more likely that they will not, and the heavy extra expense incurred while detained in places like Bombay, gives rise to discontent and complaints for which there is no remedy.

13 *Claims in connection with indulgence*
claims for indulgence passages must be made
that such passages are granted as an indulgence

14 Appl
and
not

I.A.O. 500. be claimed as a right. It follows that there is no question of **13th June** refunds of passage money being admissible on the ground that **1925.** indulgence passages were applied for, but not granted.

14. Selection of Officers for duty on board transports.—Additional officers may be required for draft conducting purposes on board transports proceeding to Great Britain.

Only officers, eligible under the regulations, will be selected. In this connection attention is drawn to A. R. I., Volume II, paragraph 593, which expressly forbids half pay or retired officers being placed on duty.

The requisite number of officers will be selected; by the Embarkation Commandant concerned from the list of applicants for indulgence passages which are held by him. In selecting names, he will adhere strictly to the order of priority in which the names of those eligible appear on these lists, subject to the restriction that, owing to lack of available accommodation, the selection will normally fall on officers who are not accompanied by families.

I.A.O. 500.
13th June
1923.

Instructions.

1. Form may be used in manuscript.
2. In the initial list the top applicant of each class will be numbered as No. 30, and to facilitate correspondence the individuals register number, as below, will be marked in red ink in large block letters on the form:—*e.g.*:—

$\frac{A}{43}$ For 1st class applicants.

$\frac{B}{64}$ For 2nd class applicants.

$\frac{C}{78}$ For 3rd class applicants.

3. It will then only be necessary in telegraphic correspondence to refer to the applicants as

$\frac{A}{43}$ $\frac{B}{64}$ or $\frac{C}{78}$ the letter being for the class of the applicant, and the figure denoting his order of registration.

1. All additions and alterations as they occur will be communicated by G. Os C., C-in-C. Commands, and A. H. Qrs., to the Embarkation Commandant concerned, who will ensure that duplicate copies of priority rolls are kept up to date

A.O. 5

The rank to be taken as a basis for consideration of extensions of service, re-engagement and continuance in the Service beyond 21 years of N.C.O.s, R.E. serving with Sapper and Miner units is to be their R.E. Corps rank.

R.E. Personnel serving with S and M units in India should, so far as extension of service be dealt with under para 231 amended by Army Order 225 in the Service beyond 21 years authorised for indefinite periods subject to the approval of the Head of the Department in India under which the soldier is serving.

As regards continuance of Warrant Office Sappers and Miners Roster (who are not in the R.E. Corps Roster) to complete 5 years should not be permitted, but in such case—

- (i) When the soldier has completed 5 years in the rank of W. O., Class I.
- (ii) When it has been decided that the soldier is to be remanded to his British unit for inefficiency, misconduct, etc,

It is considered that this procedure should avoid any possible misapprehension which might arise if continuance is allowed for a fixed period, and afterwards the soldier is remanded to his British unit for any reason.

Extension of men serving with the Sappers and Miners who elect for continuous service in India will not count against the quota referred to in para 231, K. R., as amended by A. O. 65/1924, but in the case of men who do not so elect, or who reach the last year of service without having an opportunity of electing the extension should count against the quota.

The Commandant, Sapper and Miner Corps concerned will be regarded as the "Head of the Department" of such Royal Engineer soldiers for the purpose of extension of service, etc.

I.A.O. 521. Furlough and Leave, Indian Army.—The following amendment to Army Regulations, India, Volume II, has been approved 19th June 1925. by the Government of India :—

A./33463

A.G.-11.

Para. 853.—Insert the following as the second para. :—

“ Indian ranks under orders for transfer to the Training Battalion for a tour of duty, who have not had furlough during the preceding furlough season, may be granted special furlough at the discretion of the C. O. The number of those granted this special furlough will be in addition to the normal percentage allowed. The percentage of free passages authorised will not be exceeded.”

I.A.O. 522. Rangefinders, Infantry (Barr and Stroud)—Testing of.—All range finding instruments on charge of Cavalry and Infantry will be tested once every six months under arrangement to be made by General Officers Commanding-in-Chief. A fully qualified officer will be selected to conduct the test. This officer will carefully inspect and adjust the rangefinder before the test

The test will be conducted under the supervision of the Brigade Machine Gun Officer.

2. The test must be carried out thoroughly and only under the most suitable weather conditions, i.e., clear light and as little mirage as possible.

3. The test will be carried out as follows :—

(a) Five easy range marks will be selected. One each to be within the following limits : 300—400, 600—1,000, 1,000—1,500, 1,500—2,000, 2,000—3,000, yards.

(b) The actual distance of these points will be ascertained from a 25-in. to one mile map, if available. Where no 25-in. maps are available, the points must be accurately fixed by triangulation. In every station area a testing ground will be laid out.

(c) The instruments under trial will first be adjusted for “Zero” on the rods in their wood cases, care being taken before doing so to ensure that the distance between the rods are correct and that the rods are not bent. A Zero setting will also be checked by the astigmatiser and the difference in readings from the un-astigmatised setting on the rods be noted.

(d) Ten readings will then be taken of each range point with each rangefinder under trial. A good instrument will register the distances within the following percentages —

300—400 yards	1 per cent
600—1 000 yards	1 per cent
1,000—1 500 yards	15 per cent
1,500—2 000 yards	2 per cent
2 000—3 000 yards	3 per cent

(e) Each instrument will be tested by at least two expert rangefinders. Each expert rangefinder will take the ten readings referred to in (d) above and the results will be recorded.

(f) Each expert rangefinder must agree with the "Zero" setting obtained on the rod before testing the instruments on the test points.

(g) After setting "Zero" the rangefinder will be checked again and made correct, if necessary, for halving adjustment.

4 The Officer in charge will close the scale window on the outside of the rangefinder whilst the expert rangefinder is making his coincidences.

5 Any instrument found defective will be reported to the Chief Ordnance Officer on whom dependent and to the Brigade and Unit concerned.

6 A record of the tests of the Barr and Stroud instruments on the charge of units will be entered on I A F O 1411, and, after being certified by the Brigade Machine Gun Officer, will be attached to and forwarded with A F B 192 M of the unit concerned. A copy will be kept with the unit, and will be returned with the instrument, when sent to the Mathematical Instrument Office for repair.

Cartridges S A Ball 303 inch Mark VII—Turnover of —

Until all ammunition of dates of manufacture prior to 1923 has been expended, no charger packed or wrapper packed ammunition of 1923 and later manufacture is to be fired from rifles and machine guns, nor to be issued from arsenals.

M G S "B"

2 District and Independent Brigade Area Commanders will make arrangements for ammunition to be exchanged between units if necessary.

3 This order does not apply to musketry competitions for which specially selected ammunition is provided, nor to schools of instruction which require wrapper packed ammunition, 1923 and later, for demonstrations.

I.A.O. 524. Equipment Mules—Training of.—As most units should now
10th June 1925. be competent to train their own mules, India Army Order
 No. 753 of 1923 is cancelled and the following substituted :—

43916
 Q-15.

“ Officers commanding units which have Equipment mules on their Establishment will be responsible for the training of remount mules issued to their units

If, however, a Brigade Commander considers that better training could be given by a mule transport company, he will arrange for such training to be carried out.

Mules sent to a mule transport company for training will be accompanied by their drivers.

Should there be no mule transport company in a Brigade Area, Brigade Commanders will apply to the District Commander for instructions.”

(a) the fact has been established that the contingency on which the application is based has arisen, or has become aggravated subsequent to the departure of the soldier for India

(i) *Only* a widow, or widower, who is in necessitous circumstances and is over 60 years of age

the soldier, either with or without children or, if with children, no child capable of earning.

(5) *Widower* with a child, or children, under 14 years of age and no near relative to look after them

2 Every application must be accompanied by a written verification of the facts relied on and must furnish sufficient information on the following matters :—

Army Number.

Rank.

Name in full.

Corps.

Date of enlistment.

Engagement on which serving.

Date of embarkation for India.

If application is submitted by a relative on the soldier's behalf.

Relationship of applicant to the soldier.

Whether applicant is capable of work.

Whether in receipt of any allowance from other sources, if so the amount should be stated.

3. Cases not falling under the headings given in paragraph 1, sub-paragraph (b) of this I. A. O. may be forwarded provided the circumstances disclose the existence of *extreme* compassionate grounds.

4. Attention is also invited to I. A. O. 250 of 1925, and in submitting recommendations consideration will be given to the following points :—

(1) as all applications from warrant and N. C. O., above the rank of sergeant, which cannot suitably be met by the grant of furlough or discharge, have to be referred for the consideration of the Army Council, delay must occur unless the grant of furlough, pending a decision on the case, is also applied for.

(2) as regards ranks of and below that of sergeant, cases will, where possible, be met by discharge or by the grant of furlough instead of by transfer to home establishment on compassionate grounds. Transfers are chiefly desirable where the soldier's wife dies in India leaving a young family and there is no suitable person at home in whose custody the children can be placed.

(3) as transfer to the home establishment is often of very little real benefit to a soldier as he may have to go to a station far from his home and may be in no better position to help his dependents than if he stayed abroad.

(4) as regards transfers "for the support of parents," it is considered that a soldier serving in India is in as good a position to contribute to the parents' support as he would be if serving at home.

2 For such units as Regulations for the Equipment of the
Army (India), Part 2, have been published it will be necessary
for the authorised proportions, vide the applicable regulations,
to be quoted on the indent

3 For the remaining units which have no Equipment Regu-
lations, expendable and consumable stock of I A O C supply
will be issued on an “as required” basis and the maximum
stock, vide paragraph 5 of this Order, will be shown in column 2
of I A I, 1/2091. If no maximum stock exists, the word,
“first issue” will be written in that column. Other stores,
e.g., those shown in Wordlich Section 7 of the Price Vocabulary
of Ordnance Stores, will only be issued in replacement of exist-
ing articles. Should it be necessary for certain articles to be
issued, other than in replacement of existing articles, to units
referred to in this paragraph, application will be made through
the Headquarters of the Command concerned, to Army Head-
quarters, for consideration

4 As provision of stores of I A O C supply for the repair
and maintenance of M T vehicles has had to be specially
made, it is necessary for indents formulated on Ordnance
Awards to be restricted to essential stores only, for at least
the first two months of the financial year 1925/1926.

5 The maximum stock for items held on the “as required”
basis, that may be held by units referred to in this Order, will
be as laid down in A R (I), Vol V, Part 4, paragraph 47 (a)
This maximum limit is not to be exceeded by any unit, except
as provided for in A R (I), Vol V, Part 4, pa 47 (d)

I.A.O. 533. Care of Lewis Machine Guns in Units.—It is laid down in S. A. T., Vol. I, Chapter III, Section 105, para. 7, that the gun will normally be stripped for cleaning purposes but, it has been ascertained that constant stripping causes damage to the guns. To try and obviate this, the instructions laid down in S. A. T., Vol. I, Section 105, will be held in abeyance till the 31st April 1926, and the following substituted:—

To avoid the damage which is caused to Lewis guns by constant stripping, only such stripping as is necessary to keep the guns in good working order, or to remedy stoppages during firing, is to be carried out.

The gas cylinder is to be cleaned *in situ*, i.e., without removing the body or the gas cylinder itself. The body and gas cylinder are only to be removed for monthly inspection by, or under the supervision of, the armourer, or to remedy a stoppage during firing when such stoppage necessitates their removal.

If it is found at the monthly inspection that the cleaning of the gas cylinder without taking it down has resulted in damage, the Armourer will at once bring it to the notice of the O. C., who will take action as laid down in para 73, E. R., Part I (India), as reconstructed by Amending Appendix No. 1, page 3 and Amending Appendix No 5, page 2.

2 To avoid the incultation of bad habits during preliminary training, D. P. guns will be stripped with the same care as is exercised when stripping service guns. The practice of exercising men in stripping down a gun and reassembling it as fast as possible is forbidden. In training all stripping is to be done for a specified purpose, i.e., to clean the working parts, to replace a broken part, etc.

3 Care of the gun is more important than speed.—When stripping a gun particular care will be taken that working parts are not placed where they will come in contact with dirt or grit.

Thereafter Officers Commanding Reservists will be authorised to call up and train reservists for the maximum periods laid down in Army Regulation, India Volume II, paragraph 170. This Act will come into force in India on the 31st July,
 1925

I.A.O. 558. Dress and Uniform.—Certain irregularities and matters of doubt in regard to the dress of both officers and men of the British Army have been brought to notice, and, with a view to checking the former and elucidating the latter, the following instructions are issued.

2. The attention of all concerned is directed to paragraphs 943 and 946, King's Regulations, 1923, which must be rigidly observed.

3. The optional provision at the expense of the individual and the wearing of a blue serge frock and trousers and forage cap of authorised pattern by warrant officers, non-commissioned officers and men may be recognised officially for use at military entertainments, dances, social gatherings, whist drives, etc. A description of these garments is given in the Annexure to this India Army Order. In Rifle Regiments the garments will be dark-green. In Highland and Scottish Regiments the skirts of the jacket will be rounded off in front for wear with kilts or trews.

(This dress will normally only be worn at entertainments, etc., in barracks, but on occasions when permission is given for it to be worn at entertainments outside barracks, the soldier will be provided with a pass endorsed to the effect that permission is given for blue uniform to be worn.)

(The orders in the above paragraph also apply to men of the India Unattached List.)

4. The wearing of hackles in caps is forbidden except in the case of the Black Watch, who have special permission to wear a red hackle in place of a badge, provided that no expense to the State is incurred.

5. The wearing of officers' patterns of Dress by regimental warrant officers is forbidden and the wearing of warrant officers', Class I, pattern Service Dress by regimental warrant officers, Class II, is also prohibited.

6. The wearing of the frock coat by bandmasters in lieu of the full dress tunic as now allowed under Home Clothing Regulations is approved. Such tunics as have already been issued, will be continued in wear until worn out. In this connection attention is directed to India Army Order No. 387 of 1923.

7. Provided that no expense to the public is incurred, all Rifle Regiments are permitted to wear in Service dress uniform their pre-war full dress chevron badges, and the King's Own chevrons on a white background may be worn as body lines by buglers, drummers and trumpeters. Regimental patches may be worn on the left side of the khaki helmet (Wolseley) provided :

(i) they do not exceed 3" X 2",

(ii) no expense to the State is incurred, and

(iii) they are only worn within Indian limits.

The wearing of non regulation titles, boots, caps, chevrons, I A O 558.
 plaited lines, etc., is forbidden, as is also the wearing of brown 1st July
 kid gloves by regimental warrant officers, Class II, all non- 1925
 commissioned officers and men N C Os and men belonging
 to bands of Dragoon Guards and Dragoon regiments may wear
 aiguillettes in place of bandoliers on ceremonial parades and
 when playing out or walking out, provided that no expense to
 the public is incurred

8 The wearing of blue serge jackets by officers is allowed
 by para 28, Dress Regulations, 1911 (as amended by Army
 Order No 279 of 1913), but in no circumstances will this jacket
 be worn on parade with troops

9 Officers may provide at their own expense the pattern of
 forage cap laid down in Dress Regulations for their unit
 Its use is restricted to wear with mess dress and the blue
 serge jacket referred to in paragraph 8 above In no circum-
 stances will it be worn with service dress uniform except by
 General Officers and substantive Colonels as laid down in Army
 Order No 539 of 1920, as amended by Army Order No 327
 of 1921

10 Officers of Highland and Scottish Regiments may provide
 at their own expense a Glengarry cap for wear with service
 dress except when other ranks are wearing the 'Tam o'-
 Shanter

Officers of Highland (Kilted) Regiments are permitted to
 wear at their own expense sporrans, regimental hose tops and
 garters, and officers of the Highland Light Infantry and

 articles on ceremonial parades

Equitation School Saugor—Objects of the Short Course—The I A O 560 Course is designed to show students in the short time available, the various methods taught at the School, and how the principles laid down in the Training Manuals are applied, thus bringing them up to date in their knowledge.

4th July
1925
1912
CS MT 1

It is, therefore suitable for —

1 Officers—

(a) Cavalry—(i) Majors or senior Captains who have attended in Equitation Course but who require refreshing and bringing up to date

or

(ii) Captains who, for a variety of reasons, have been unable to attend the Long Course and now are considered too senior or are not available, for the Long Course

(b) Artillery—Battery Commanders or Senior Captains—Objects as for above with the addition that the Course is designed so that it will help them to super-vise the work of their junior officers when the latter return to their units on the completion of the Long Course also to help them in their co-operation with Cavalry by showing them the various roles and methods of employment of that arm

It is not intended for junior officers of the Royal Artillery who should be sent to the Long Course

(c) Infantry Officers—Those officers who already have some proficiency in riding. Such officers will benefit by the instruction in the short time available so as to enable them later, to improve their riding in their own time also to assist other officers in their units in this respect. It is also intended that they should learn the methods of employment of Cavalry and Armoured Cars by means of schemes and lectures

2 British Warrant and V C Os—

(a) Cavalry—It is intended for senior ranks such as Squadron Sergeant Majors who require to be brought up to date or for senior sergeants who have never attended an equitation course and have rather passed the stage when they can be sent for the Long Course. Junior Sergeants should as far as possible, be sent on the Long Course

(b) Royal Artillery—It is intended for warrant officers, Sergeants, and Lance Sergeants who owing to their other duties, cannot be spared during the training season to attend the Long Course

Examination of officers for promotion Abolition of certificates under para 855 King's Regulations 1923—Army Council Instruction No 259 of 1923, is republished below for information.

Army Council Instruction No 259 of 1923

1 In order to remove restrictions on officers qualifying for examination for promotion to captain or major, the Army Council have decided to dispense with all certificates, including the riding certificate required from a C O and the necessary amendments to para 855 and Appendix X King's Regulations, 1923, will appear in due course. The only restriction imposed is that a lieutenant must have completed one year's service in that rank before attending an examination for promotion to the rank of captain.

In future therefore a lieutenant with at least one year's service in that rank or a captain may apply to attend the practical and written qualifying examinations pertaining to his rank as soon as he considers himself fit to do so.

2 The C O responsibility for the efficient instruction of his officers and their preparation for promotion will remain as prescribed in para 90 King's Regulations 1923.

3 It should be remembered that qualification by examination is only one of the factors upon which an officer's fitness for promotion is dependent—the other factor being a satisfactory confidential report—and that C Os will have to opportunity to include in the annual confidential reports on officers all the information hitherto required by para 855 King's Regulation, 1923, in the form of certificate.

Adjutant General in India

ANNEXURE to INDIA ARMY ORDER No. 606 of 1925.

Instructions for the despatch of Invalids and Insanes.

Invaliding Boards.

1. Three regular invaliding Medical Boards will be held not later than the 1st of September, November and January respectively. In the case of Burma these will be held not later than 15th August, October and December.

Emergency invaliding Medical Board may be held as required

To avoid congestion at the end of the troping season it is essential to board as many individuals as possible in September and November (August and October in the case of Burma). Any attempt to take account of climatic conditions with regard to the type of cases and the season of the year in England has been found to be valueless, the advantages being outweighed by the disadvantages. Officers should, therefore, clearly understand that, though a given case might preferably arrive in the English spring, the individual must give place to the general welfare. Keeping the bulk of the cases until the January Board defeats its own object, causes congestion and hardship at the end of the troping season, and may lead to the invalids having to remain in India for a hot weather until the next troping season begins.

Regulations regarding Invaliding.

2 In order to avoid unnecessary correspondence and delay, attention is directed to regulations and instructions noted below.* Special attention is drawn to paras 273 to 280 of Regulations for the Medical Services of the Army in India, for the guidance of members of Medical Boards in deciding whether to invalid a case or not.

CLASSIFICATION OF INVALIDS.

3 Invalids will be classified by Medical Boards as either—

"A"—requiring hospital accommodation, or

"B"—not requiring hospital accommodation.

The words "class A" or "class B" will in all cases be entered in large red letters on the upper right hand corner of the front page of the Board proceedings

Class "A" invalids will be provided with lying down accommodation by rail and cot accommodation on board ship.

* Regulations for the Medical Services of the Army in India, paras 232-300.

Army Regulations, India, Vol. II, para. 111.

Army Regulations, India, Vol. X, paras 12, 13, 14, 41, 71, 72, 83, 84, 97, 98, 99, 103 and Appendix X as amended by A. I. (I) No 921 of 1921 and A. I. (L) 447 of 1922

Army Regulations, India, Vol. XI, paras 72 [amended by A. I. (L) 925 of 1922] and 74

I. A. O. 500 of 1925

Documents of Invalids.

8. (a) *Medical documents.*—Medical Board proceedings (A.F.B.-179-A, A.F.B.-179-B, A.F.A.-2 and I.A.F.M.-1243) will be disposed of as laid down in para. 4 above.

All other medical documents (Medical History Sheets, transfer certificates, etc.) must invariably accompany the invalid for the information of the medical officers through whose hands the invalid passes and to ensure continuity of treatment; for this purpose notes should be made on the reverse of the transfer certificate.

NOTE.—All invalids (whether despatched for direct embarkation or to the British Station Hospital at Bombay, Karachi or Deolali) should be regarded as "TRANSFERS."

(b) *Regimental documents.*—Before invalids leave their stations, all military documents will be handed over to the medical authorities under sealed cover with the contents endorsed thereon, for the correctness of which the invalids' Commanding Officer will be responsible. Such military documents will accompany the man and, with his medical documents, will be handed over to the medical officer. Assistant Surgeon or other responsible person in charge of the sick and by him to the Deputy Assistant Director Medical Services, Embarkation for transmission to the officer in medical charge of the transport, who in turn will deliver them, for disposal, to the medical authorities of the hospital to which the man may proceed in England.

Particular attention is directed to this paragraph, as the instructions contained in it are apt to be overlooked.

Ports of Embarkation.

9 Invalids (except mental cases) from the Northern and Western Commands will normally be despatched from Karachi; those from the Eastern and Southern Commands and Burma District from Bombay. Class "A" invalids will be despatched as far as possible by the "Neyasa" which calls at Bombay early in October and March and at Karachi in January.

Mental cases.—As no accommodation exists at Karachi for mental cases, all mental cases will normally be sent to Deolali.

*Cases of tubercle of lung and cases of venereal disease** will be embarked at Bombay or Karachi, they will normally be allotted to those ships having suitable accommodation.

Accommodation prior to embarkation.

At Bombay.

10 Invalids for embarkation at Bombay are collected at Deolali, with the exception of those (from stations in the Southern Command) who can arrive at Bombay before 9-00 hours on the date of embarkation. Invalids ordered direct to Bombay for a specified date should report on that date and neither before nor after.

*Soldiers suffering from venereal disease when due for discharge or transfer to the Army Hospitals are not invalids and should as far as possible be despatched with their units or drafts.

(See D. M. S. Circular No. 19-N-8).

1st class passengers if they are willing to make private arrangements for accommodation in Bombay and if the despatching medical authorities concur, may proceed direct to Bombay, they should report to the Embarkation Commandant on the day prior to embarkation

NOTE.—Passengers, whether accompanied by their families or not, are ordered to Deolali for their own benefit as no accommodation exists for them in Bombay. If invalids and families arrive in Bombay before the date of embarkation the invalids only can be accommodated in hospital the non invalid members of the family are sent to Deolali unless they are prepared to make their own arrangements to stay in Bombay

At Karachi

11 Invalids for embarkation at Karachi will arrive at Karachi on the day prior to embarkation. This is necessitated by the inconvenient times of arrival of trains. Arrangements for their reception at the Cantonment Railway Station and for their accommodation will be made by the Embarkation Commandant, Karachi

Entries from Roll of Invalids

12 If in the opinion of the O C British Station Hospital, a man who has been invalided by a Medical Board shall have sufficiently recovered to render change to England unnecessary it will be obligatory on the part of such officer, after consultation to erase the man's name from the roll of invalids I A F (Medical) and report the same at once by telegram to the Q M G in India and the D M S in India

Alteration of Allotment

13 Alteration of allotment other than by the Q M G in India, is prohibited. Should however force of circumstances, such as an invalid becoming at the last moment unfit to travel, death, etc., render reference to the Q M G impracticable the A D M S concerned may alter the allotment informing the Q M G in India by telegram, repeating to the Embarkation Commandant concerned and to the D M S in India

Movement of Invalids

14 After having been invalided by a Medical Board, the movement of invalids from one station to another is prohibited except for the purpose of concentration prior to despatch to the port of embarkation. Should, however unforeseen circumstances render such movements unavoidable, a report with full particulars at once to be rendered to the Q M G in India and to the Embarkation Commandant concerned.

Report to Embarkation Commandants

15 A diary of all transports will be kept and in it will be noted any important point. At the end of the troopings season a report of the whole troopings season will be sent to the Director, Medical Services in India, in this report will be embodied any suggestions, etc., for the next troopings season

Dieting and Railway Accommodation—Responsibilities of General Officers Commanding, Medical and Supply Officers.

16. Provision will be made on all troop special trains of one entire second class carriage for men who may become ill on the journey.

Invalids should, as far as possible, also be sent in troop trains, but see below.

In the case of class "A" invalids, Officers Commanding Station Hospitals are responsible to the General Officer Commanding that proper accommodation is indentured for, suitable for the various invalids whom they are sending to the port of embarkation. Finding the provision of hospital trains, class "A" invalids should be sent by mail train.

Districts and Brigade Areas know which invalids are despatched will inform other District and Brigade Areas intervening between them and Bombay or Karachi that a party of sick is passing through and that they should instruct the medical and supply officers concerned to see if they can do anything for their comfort.

The O. C. British Station Hospital at the station of departure will inform O. C. British Station Hospitals at the scheduled halting places, by telegram, what cooked meals, ice, milk, etc., should be provided.

O. C. British Station Hospitals despatching invalids who require cooked diets at Samasata en route to Karachi will inform the O. C. British Station Hospital, Multan who will make arrangements through the Officer in Supplies, Multan, and the Supply and Transport authorities at Samasata for their supply.

On the despatch of any invalid officer, soldier or family by train, the O. C. British Station Hospital despatching the invalids will telegraph immediately to the Embarkation Commandant at Bombay or Karachi and, when necessary to the O. C. British Station Hospital at Deolali, the following information:—

- number of class "A" and class "B" invalids despatched,
- station, date and hour of arrival,
- ship by which sailing,
- whether helpless or otherwise.

e.g., "Reference seven invalids for Nevasa arrive Colaba eleven hours on third. Class A two, helpless one. Class B five".

In addition, the O. C. British Station Hospital will send, as early as possible before despatch of the invalids, a nominal roll of the invalids to the Embarkation Commandant at Bombay or Karachi, to enable him to check the numbers allotted to each ship; in this nominal roll class "A" and class "B" invalids will be grouped separately.

*Deputy Assistant Directors, Medical Services,
Embarkation.*

17 One D. A. D. M. S. Embarkation (R. A. M. C. Officer) will be stationed at Bombay, and one at Karachi. Their duties are detailed in Appendix 2.

22 Under the Paris Sanitary Convention, no person may embark unless previously passed by the D A D M S Embarkation, who, for the purpose of transports, is gifted as an Assistant Port Health Officer. The Bombay G R No 1265 P, dated 12th August 1908. Certificates for medical men, civil or military, are useless.

The D. A. D. M. S. Embarkation will be in attendance at the dock on the day of embarkation for this purpose.

After inspection passengers must embark at once, otherwise the inspection becomes void. Once a passenger has embarked he cannot leave the ship and re-embark without obtaining a pass from the D. A. D. M. S. Embarkation.

Invaliding of Families and Children of Soldiers.

23. Experience proves that there is always congestion with regard to women and children at the end of the trooping season. Whenever practicable, therefore, invalid women should be brought before the early boards in order to avoid subjecting them to the discomforts which must occur in crowded ships. This also applies to invalid married men.

24. The instructions contained on I. A. F. M.-1243, page 4, regarding disposal of board papers to the War Office or India Office must be strictly complied with; it should be noted that para. V is modified by these instructions.

Passages during Non-trooping Season and on Mail Steamers.

25. Special attention is drawn to A. R. I, Vol. X. paras. 12, 71 and 72 and A. I (I.) 921 of 1921. It should be realised that mail steamers are privately owned and that the Q. M. G. in India is in much the same position with regard to obtaining passages as a shipping agent and cannot order the Companies either to allot accommodation or to allot accommodation on a definite date.

It is further pointed out that private steamers are in many cases less suitable for carrying invalids than troopships are. This specially applies to cases requiring attendance, special treatment, etc., and should be taken into consideration by Medical Boards before recommending passages in private vessels.

Tubercle of Lung Cases.

26. Before accommodation can be arranged for an invalid suffering from tubercle of lung, a certificate as under, signed by a medical officer, must be given to the shipping company:—

"Certified that the other passengers on S.S. will not be injuriously affected owing to the presence on board of Captain a case of tubercle of the lungs."

Baggage.

27. All baggage except light cabin trunks or kit bags of invalids should be despatched to arrive at the dock by 10-00 hours on the day prior to embarkation.

Passengers arriving with their kit by tram on the afternoon prior to embarkation should send their luggage to the dock at once. If baggage is not at the dock on the day prior to embarkation, it is liable to be shut out. Special provision is however made for those passengers who arrive with their baggage on the day of embarkation. The baggage of all invalids is to be clearly marked as such, e.g., by Red label.

It is essential that invalids and families look after their own baggage as far as possible so as to obviate loss. It is pointed out that the simplest way for 1st and 2nd class passengers to do this is through agents.

Officers' families included

28 (a) British Service Officers' families when invalided by a Medical Board to the United Kingdom are not entitled to passages (vide Army Regulations, India Vol V, Appendix V) and their chances of being sent to England at Government expense depend on whether any non entitled passages are available. When a Medical Board considers it absolutely necessary for the preservation of life that the family or some member of it, should proceed to the United Kingdom forthwith, it is essential that the invalid be recommended for transfer to the United Kingdom under the provisions of A R 1, Vol V para 72.

(b) Indian Service Officers' families are only entitled to passages admissible under the private concessions except when the head of the family (a) invalided on account of disability due to field service

NOTE—With reference to husbands accompanying invalid families attention of Medical Boards is drawn to D M S in India's letter No 14207/1 (D M S), dated 26th/12th November 1920.

Families of Other Ranks Invalided

29 Should a Medical Board consider it essential that the husband should accompany the wife in the same cabin, the Board should definitely say so and the Officer in Charge should further apply to the Q M G in India for the whole family to be berthed in a second class cabin.

Cases of Venereal Disease

30 The provisions of D M S circular No 1925, dated 13th September 1922, will be carefully complied with. To allow of adequate arrangements being made for separate cases a nominal roll and the medical papers of venereal cases transferred to the United Kingdom for service reasons, (i.e. other than as invalid) will be sent under confidential cover to the D A D M S Embarkation to reach him three clear days before the date of embarkation.

Officers Commanding drafts should also be instructed to hand over such venereal cases to the D A D M S Embarkation immediately on arrival of the troop train at Bombay or Karachi.

31 A revised I A I (Medical) B is attached (Appendix I) and will be taken into consideration with respect to minor prescriptions used until the new I A I is published.

 prior to the despatch of the reservists kits to the
 training battalion. He will examine them to see
 that they are correct in all respects to prescribed
 scale. For personal clothing and necessaries taken
 over a cash payment will be made to the reservist.
 Both public and personal clothing and necessaries then
 become Government property and as such they are
 transferred from the Active Battalion to the Train-
 ing Battalion. Being Government property they must
 be accounted for, and struck off and brought on
 charge on issue and receipt Vouchers

Reservists' kits should not be accounted for in
 bulk as this will lead to complications in accounts,
 specially at the time of stocktaking and also at the
 end of the training of reservists when articles will

be returned to store. With reference to para. 6 of Army Instruction (India), No. 1 of 1924, serviceable articles of a reservist becoming non-effective, are to be retained for re-issue in replacement of the unserviceable clothing of another reservist when necessary. This would not be possible if reservists' kits are accounted for in bulk.

- (ii) *Pricing of.*—For purpose of adjustment all articles (public and personal clothing and necessaries) should be priced by the Active Battalion with reference to para. 9 (ii), Cost Account Instruction Vol. I. In the case of partworn but serviceable stores, the procedure laid down in para. 9 (3) *ibid* should be followed.

All the provisions come into operation within Great Britain and Ireland the Channel Islands and the Isle of Man from 3rd April 1925 and elsewhere from 31st July 1925.

2. For the purpose of abolishing death as a penalty for certain offences committed not on active service the following amendments shall be made in the Army Act :—

Sec. 8.

(1) In subsection (1) of section six, paragraphs (e), (f) and (j) shall be omitted ;

(2) In subsection (2) of section six, the following paragraphs shall be inserted after paragraph (b) ;

“ or

“ (c) Impedes the provost marshal or any assistant provost marshal or any officer or non-commissioned officer or other person legally exercising authority under or on behalf of the provost marshal, or, when called on, refuses to assist in the execution of his duty the provost marshal, assistant provost marshal, or any such officer, non-commissioned officer, or other person ; or

“ (d) Does violence to any person bringing provisions or supplies to the forces ; or commits any offence against the property or person of any inhabitant of or resident in the country in which he is serving ; or

“ (e) Irregularly detains or appropriates to his own corps, battalion, or detachment any provisions or supplies proceeding to the forces, contrary to any orders issued in that respect ; ”

Sec. 8.

(3) In subsection (1) of section eight after the words “ court martial ” there shall be inserted the words “ if he commits such offence on active service,” and after the word “ mentioned ” there shall be inserted the words “ and if he commits such offence not on active service he shall be liable to suffer penal servitude or such less punishment as is in this Act mentioned ” ;

Sec. 9

(4) In subsection (1) of section nine after the words “ court martial ” there shall be inserted the words “ if he commits such offence on active service,” and after the word “ mentioned ” there shall be inserted the word “ and if he commits such offence not on active service he shall be liable to suffer penal servitude or such less punishment as is in this Act mentioned.”

NOTE.—These amendments abolish the death penalty in peace for all military offences committed when not on active service except mutiny and sedition (Section 7, Army Act), i.e., they abolish the death penalty for offences described in Section 6 (1) (e), (f) and (j), and restrict its award under Sections 8 (1) and 9 (1) to cases where those offences are committed on active service.

Sec. 12.

3. The following amendments shall be made in section eighteen of the Army Act (which relates to disgraceful conduct) :—

(1) For the word “ soldier ” where that word first occurs there shall be substituted the words “ person subject to military law ” ;

- (2) The following paragraph shall be substituted for paragraph (2) —

(2) Wilfully maims or injures himself or any other person subject to military law, whether at the instance of that person or not with intent thereby to render himself or that person unfit for service, or causes himself to be maimed or injured by any person with intent thereby to render himself unfit for service, or?

- (3) In paragraph (c) first indented "contract" or of an effect there shall be substituted the words "person subject to military law"

ART.—The amendments extend Section 18 so as to render offense liable to conviction for the offences enumerated in that section which formerly applied only to offences committed by males.

(Consequent on these amendments, and pending the issue of amendments to the Rules of Procedure, the wording of charges laid under Section 18 of the Army Act, in respect of offences committed after 20th April, 1925 [or in places where the Act does not come into operation until 31st July, 1925, 30th July, 1925] should follow the wording of the Act as amended, and not the wording laid down in Appendix I, Rules of Procedure (page 53, Manual of Military Law, 1914), or the wording of Specimen Charge Sheet No 50 on page 669, Manual of Military Law, 1914, e.g., the words "a person subject to military law" should be substituted for "a comrade" or "an officer" in the statement of the offence in cases where charges are laid under paragraph (4) of this section. As regards offences committed before 30th April, 1925 [or in places where the Act does not come into operation until 31st July, 1925, 30th July, 1925] the old wording and forms should be followed.)

4. The following amendments shall be made in section forty-six of the Army Act (which relates to the power of a commanding officer) —

- (1) in paragraph (b) of subsection (2) the words "any other punishment" shall be substituted for the word "detention".

NOTE.—This amendment remedies a former anomaly in the Army Act, the effect of which was that a soldier summarily convicted of drunkenness could not be fined in addition to any other punishment, unless that punishment was detention.

- (11) the following paragraph shall be inserted after paragraph (d) of subsection (2) —

“and

(e) in addition to or without any other punishment may award such other minor punishment as he

fever

AND

55 15

by 1990.

NOTE.—This amendment makes clear that minor punishments are summary punishments. It does not alter a commanding officer's existing powers.

- (iii) in subsection (7) for the words "for any offence which" there shall be substituted the words "where the charge has been dismissed or the offence";

NOTE.—This amendment makes clear that a man cannot be tried by court martial on a charge which has been dismissed by his commanding officer.

- (iv) in subsection (8) after the words "forfeiture of" there shall be inserted the word "ordinary" and after the words "unless he awards" there shall be inserted "no other punishment than";

NOTE.—These are amendments to make the meaning of the subsection more clear.

- (v) the following subsection shall be substituted for subsection (9) :—

"(9) The power of dealing summarily with a case may be delegated by a commanding officer to any officer under his command in accordance with and subject to the King's Regulations :

"Provided that such officer shall not have power to inflict any punishment other than a minor punishment, or such fines for drunkenness as may be provided for by those Regulations"

NOTE.—In view of the fact that express provision is now made in the Army Act (*see ii above*) that a commanding officer may award minor punishments, it is necessary to make clear that the power of awarding minor punishments hitherto exercised by subordinate officers subject to the provisions of the King's Regulations is preserved, and this amendment has that effect.

Sec. 47.

5 The following amendments shall be made in section forty-seven of the Army Act (which relates to the power of dealing summarily with charges against officers and warrant officers) :—

- (1) In subsection (1) for the words "Also on active service the General or Air Officer Commanding-in-Chief in the Field," there shall be substituted the words "also in the case of a force on service beyond the seas the general or air officer commanding the force";
- (2) In subsection (5), for the words "for any offence which" there shall be substituted the words "where the charge has been dismissed or the offence".

NOTE.—(1) The object of this amendment is to give the officer commanding overseas (whether an officer of the Army or of the Royal Air Force) the same powers of dealing summarily with officers and warrant officers, as were formerly possessed by the General or Air Officer Commanding-in-Chief in the case of active service.

(2) A drafting amendment to make clear that where a charge dealt with summarily has been dismissed, the accused is not liable to be tried by court-martial

¶ In subsections (1) and (2) of section fifty-seven of the Army Act (which relates to commutation and remission of sentences), after the word "mentioned" there shall be inserted the words "or, if such punishment is cashing awarded for an offence under section sixteen of this Act, then for dismissal from His Majesty's service or such less punishment as is in this Act mentioned" Sec. 57.

NOTE.—This amendment enables the confirming and reviewing authorities to commute a sentence awarded for an offence under Section 16. Hitherto there has been no power under the Army Act to commute a sentence of cashiering under Section 16, as there is no less punishment to which an offender can be sentenced by a court martial under that section.

7 The proviso to subsection (1) of section seventy-one of the Army Act (which relates to military command) is hereby repealed Sec. 71.

NOTE.—The object of this amendment is to remove the previous limitation on His Majesty's power of making regulations as to command.

8—(1) The provisions of the Army Act relating to the impressment of carriages shall apply to all vehicles for carriage or haulage other than those specially constructed for use on rails and there shall be paid in respect of carriages and animals furnished in pursuance of the said provisions the rates of remuneration commonly recognised or generally prevailing in the district at the time of impressment, and if any difference arises respecting the amount payable the amount shall be such as may be fixed by a certificate of a county court judge having jurisdiction in any place in which the carriage was furnished or through which it travels Sections 112, 113, 115, 120 and 3rd and 6th Schedule.

(2) With a view to carrying this section into effect and making various other alteration in the provisions of the Army Act relating to the impressment of carriages, the sections of the Army Act specified in the Second Schedule to this Act shall be amended in the manner shown in the second column of that schedule.

SECOND SCHEDULE

Amendment of provisions as to Impressment of Carriages

How to be amended

Sec. 104, 112

At the end of the section the following subsection shall be inserted —

“(7) Where a carriage has one or more alternative bodies the carriage may be demanded with any one or more bodies, and where a carriage is used for haulage the carriage may be demanded with or without the vehicle ordinarily hauled.”

SECTION 113 .. The following subsections shall be substituted for sub-sections (1) to (4) :—

" (1) There shall be paid in respect of carriages and animals furnished in pursuance of the foregoing section of this Act the rates of payment commonly recognised or generally prevailing in the district at the time of impressment, and if any difference arises respecting the amount payable, the amount shall be such as may be fixed by a certificate of the county court judge having jurisdiction in any place in which the carriage or animal was furnished or through which it travelled.

" (2) For the purposes of fixing such amount the provisions set out in the Sixth Schedule to this Act shall have effect.

" (3) Where a sum has been paid or tendered by or on behalf of the Army Council under this section, that sum shall be deemed to be the amount due unless within three weeks of the date of the payment or tender an application is made to a county court judge for a certificate or formal notification is made to the Army Council that application for the certificate of a county court judge will be made in the event of a settlement not otherwise being arrived at. If such formal notification is made, the three weeks mentioned in this paragraph shall not be deemed to have commenced to run until the Army Council notifies the claimant that no further payment will be made beyond the amount tendered, except under a certificate of a county court judge.

" When formal notification is made to the Army Council, the sum already tendered may be accepted without prejudice to the right of applying to the county court judge.

" (4) The possessor of any carriage or animal at the time of impressment shall be deemed to be the owner for the purposes of the procedure of impressment where it is not otherwise declared at the time, and payment made to the possessor shall be deemed to be payment

to the owner. In the event of the property being vested in another person or persons the possessor shall notify all others interested in the property and adjust the amount received in due proportion. In the event of any difference arising the amounts shall be apportioned on a certain rate of a county court judge as aforesaid.

In subsection (2) the words "(including traction and other locomotives, whether propelled by steam, electricity or haulage)," shall be inserted.

In subsection (3) after specified in such order there shall be inserted notwithstanding that a receipt may be given by the manufacturer or the carrier at the time of purchase and at the end of the month the following shall be added —

"The animals or horses mentioned in the order shall not be deemed to have been furnished until proper delivery has been made to the place and at the time stated in the order."

The following provision shall be substituted for subsection (4) —

"(4) The sum to be paid for any article shall be deemed to have been tendered when a final receipt for the article along with the amount is handed to the owner or his representative but the property in a carriage or animal impressed shall be vested in the owner until such time as the carriage or animal has been duly furnished at the place and time stipulated."

In subsection (10) "or carriages" shall be inserted after "horses" wherever that word occurs, and "or carriage" shall be inserted after "horse."

90

The following paragraph shall be inserted after paragraph (40) —

"(40A) The expression 'carriage' means a vehicle for carriage or haulage other than one specially constructed for use on rails."

The Third Schedule shall be omitted

The following paragraph shall be substituted for paragraph 3 :—

"3. In the case of impressment for hire, the amount fixed by the certificate shall be such amount as appears to the county court judge to be a fair rate of hire for the class of article in the district in which it is impressed or over which it is required to work. In the case of a requisition for purchase the amount fixed by the certificate shall be such amount as appears to the county court judge to be the fair market value of the article requisitioned on the day on which it was required to be furnished as between a willing buyer and a willing seller. Where the owner of a carriage or horse has been required to deliver it at a distance from his premises the amount shall include such sum as the judge may consider reasonable to cover the cost of such delivery."

NOTE.—The powers of impressing carriages for the purposes of a route conferred by sections 112 and 113 of, and the Third Schedule to, the Army Act—

- (1) Do not apply to mechanically propelled transport ;
- (2) Provide for rates of payment in terms which are not applicable to modern means of transport.

This clause and the schedule referred to in it are intended to remedy these defects and to provide a means of settling the payments to be made in default of agreement by reference to a county court judge, in the same manner as is already provided for in the case of impressment under section 115, which provides for impressment of vehicles in times of emergency.

The schedule also makes certain minor alterations in the provisions as to impressment of carriages in order to meet difficulties which have arisen.

c. 137.

9. In paragraph (4) of section one hundred and thirty-seven of the Army Act (which relates to penal stoppages from the ordinary pay of officers) after the word "public" there shall be inserted the words "or regimental".

NOTE.—This amendment extends the power under the subsection so as to cover "regimental" as well as "public" property.

c. 138.

10. In subsection (1) of section one hundred and thirty-eight of the Army Act (which relates to penal stoppages from the ordinary pay of soldiers) for the word "imprisonment" there shall be substituted the word "penal servitude or imprisonment".

NOTE—The object of this amendment is to make clear that a deduction can be made from a soldier's pay for every day during which he is serving a sentence of penal servitude in like manner as when he is serving a sentence of imprisonment.

11 In section one hundred and sixty three of the Army Act (which relates to evidence), after paragraph (i) the following paragraph shall be inserted — Sec 163.

"(m) Where an officer or soldier has been apprehended and arrested taken to a police station in any place in any part of His Majesty's dominions or has on surrender been taken into custody at any such police station, then for the purpose of any proceedings against that officer or soldier, a certificate purporting to be signed by the police officer in charge of that police station, stating the fact, date and place of arrest or surrender, shall be evidence of the matters so stated."

NOTE—The effect of this amendment is that where a person subject to military law has been arrested or has surrendered and has been taken to a police station in His Majesty's dominions, a certificate purporting to be signed by the police officer in charge of that station may be used in subsequent proceedings as evidence of the fact, date and place of the arrest or surrender.

12—(1) In section one hundred and eighty three of the Army Act (which contains special provisions relating to officers) for the words 'where those words occur, and instructor Army Educational Corps,' Sec 183

(2) In paragraph (5) of section one hundred and ninety of the Army Act (which relates to the interpretation of terms in that Act) the words 'and includes an army schoolmaster when not a warrant officer' shall be omitted. Sec 190

NOTE—These amendments are consequent on the formation of the Army Educational Corps in substitution for the Corps of Army Schoolmasters, which has been disbanded.

13—(1) For paragraph (15) of section one hundred and ninety of the Army Act (which defines the expression "corps") the following paragraph shall be substituted — Sec, 190

"(15) The expression 'corps' means any such body of His Majesty's military forces as may from time to time be declared by Royal Warrant to be a corps for the purposes of this Act, or, however, that the Royal Marine forces in this Act referred to as the Royal Marines) shall be formed into a separate corps, and where a corps comprises units of the territorial army belonging to two

(2) Accordingly, the enactments hereinafter mentioned shall have effect subject to the following amendments :—

SECTION 83 OF THE ARMY ACT.

- (a) In section eighty-three of the Army Act, for references to "corps of the regular forces" there shall be substituted references to "corps".

SECTION 14, RESERVE FORCES ACT, 1882.

- (b) In subsection (2) of section fourteen of the Reserve Forces Act, 1882, for the reference to "corps of the regular forces" there shall be substituted a reference to "corps".

SECTION 7, TERRITORIAL AND RESERVE FORCES ACT, 1907.

- (c) In subsection (2) of section seven of the Territorial and Reserve Forces Act, 1907, the words "and for the formation of such regiments, battalions or other military bodies into corps, either alone or jointly with any other part of His Majesty's forces" shall be repealed.

SECTION 33, TERRITORIAL AND RESERVE FORCES ACT, 1907.

- (d) In section thirty-three of the Territorial and Reserve Forces Act, 1907, the words "and for the formation of such regiments, battalions or other military bodies into corps, either alone or jointly with any other part of His Majesty's forces." and the word "such" wherever it occurs, shall be repealed.

NOTE.—These amendments simplify the definition of the expression "corps" for the purposes of the Army Act and make consequential amendments in Acts relating to the reserve forces and Territorial Army, so that there may be a uniform procedure, *viz.*, Royal Warrant, for establishing corps in all cases.

14. Copies of the Army Act printed in accordance with the provisions of section eight of the Army (Annual) Act, 1885, shall be printed with such alterations in cross headings as the Clerk of the Parliaments may certify to be necessary or expedient in consequence of amendments made in the Army Act.

INDIA ARMY ORDERS

Reliefs—I A Instructions and Notes for Indian Army I.A O. 652.
Units detailed for duty in Waziristan District.—1 Unit 28th July 1925
 proceeding to the Waziristan District must be prepared for conditions much more akin to field service than to the peace conditions prevailing in India. Although nominally at peace, troops in Waziristan are always serving under conditions which do not permit active service precautions being relaxed for a moment. Peace regulations for such things as accounting, clothing, rations, leave, etc. are in force throughout the District while in the matter of accommodation except at D. I. Khan and Banna the majority of the troops are living under canvas. At such places as Razmak Razam and Dandil, however, buildings are being constructed, but some considerable time will elapse before all troops serving in Waziristan are housed.

- 2 (a) Infantry units detailed for Waziristan District will, about 3 months before leaving their station, send a small party to be attached to the unit which they are to relieve, in order to learn protective and other duties which their unit will have to undertake on arrival in the District. Tactical Advance Party

(b) This party will normally consist of —

- The Officer in Command or his next senior officer,
- 1 other British Officer,
- 2 Platoon Commanders,
- 4 Non Commissioned Officers

(c) The duration of the attachment will be settled by the Commander of the District or Independent Brigade in which the relieving unit is serving, in consultation with the General Officer Commanding, Waziristan District and will not exceed six weeks.

(d) Dates will be decided upon between the Commanding Officers concerned.

(e) On conclusion of the attachment the party will return to their unit and disseminate the information gained.

(f) Units detailed to proceed to Waziristan will apply to their Brigade Headquarters, during the hot weather preceding the relief, for an officer with frontier experience to instruct the unit in frontier work, should the services of such an officer be available and considered necessary.

Special for
Artillery Units.

3. (a) Detached sections are often employed.

Battery Staff must be easily divisible into sections with Signallers, Q. M. S. Vet., and shoeing establishments and their equipment in each section.

(b) Equipment tables do not allow sufficient stores for detached sections.

Extra equipment required will be handed over on arrival at the Station.

(c) Two signalling yakduns are required.

Signallers must be highly trained and 50 per cent. able to ride

(d) Lewis Gunners. One B. O. and two B. O. Rs. to have had training in Lewis Guns.

(e) Range finders. Proficiency in the use of Barr and Stroud range-finder is important.

(f) Useful notes on Artillery generally are given in "Report by the I. G. of Communications and Directors of Services, Waziristan District, 1919-1920", printed by Government Central Press, Simla. This is out of print and should be taken over from the relieved unit.

4. Signalling:—

(a) A qualified signalling Officer is essential.

He should have done a course lately at the Army Signal School. This also applies to regimental assistant instructors.

(b) Units to be up to the full establishment of signallers laid down, with classes to replace casualties. Fifty Signallers should be worked up to.

(c) Prior to arrival in Waziristan District units should concentrate on:—

(i) Perfect accuracy in sending and receiving messages at 8 w. p.m.

(ii) Plenty of transmitting work by visual

(iii) Line laying across country, finding line faults and making joints.

(iv) Chapters 8 and II Signal Training, Part I India 1920, to be paid special attention to.

If opportunity offers an officer should be trained in use of Searchlights.

5. (a) Physical fitness and Hill work:—

Essential to bring the man up really fit, as the work is arduous and tiring.

Vigilance and alertness suffer at once when the men are tired and slackness in this respect will inevitably lead to disaster.

Special for
Infantry.

Special for
British
Infantry.

Hill climbing and descending at speed are essential. If the Battalion is still in the hills when warned for the Frontier this training should be practiced very hard. It takes the men and officers some time to find their feet on the steep and rocky hill, and the preliminary training they can get the easier it will be found on first arrival. Speed in all ranks is very important, with full equipment and S. A. A.

(b) Semaphore Signalling —

Every officer and man in the ranks should know semaphore signalling and be able, at least, to read and send a simple message at slow speed.

It is invaluable for intercommunication across valleys, up to junctions, between junctions, etc., etc., and its operation is made far more efficient by its use.

6 (1) (a) In marching up the L. of C. —

General

The route is picketted by permanent pickets and the road protected by road and convoy protection troops detached from each post or camp, and a battalion moves as part of the "convoy". This does not mean that the battalion can either do without its own protection or that it should march in a massed column of fours. Road protection troops cannot prevent enemy sniping. A very useful march formation is column of route with fairly big intervals between platoons and companies, for instance, 100 paces between companies and 50 paces between platoons. In the event of sniping occurring the battalion should break at once into a series of small columns (e.g., section) on a wide front, maintaining the same distances and above all keeping clear of the road itself if it is possible to do so. The sniper always has the road or track carefully ranged.

(b) In Infantry battalions one officer is to be in charge of all animals of the unit and given opportunity to train scribes and drivers on the lines indicated in "Notes on Horse Management in the Field".

(B) Muckety —

Quick and accurate shooting at short ranges is important. Visual training in picking up targets quickly necessary.

(F) Training in use of Rifle Grenades:—

(G) Range Finders:—

Personnel should be trained in the use of these instruments which are very valuable in frontier fighting where it is extremely difficult to estimate ranges and the strike of the bullet can seldom be seen.

(H) Co-operation with Aircraft:—

All Infantry Battalions coming to Waziristan District should bring Equipment for co-operation with aircraft in accordance with A. I. (I) 672 of 1923

(I) Searchlights:—

16" or 20" Searchlights are part of the equipment of certain Posts in Waziristan. These are on charge of and are operated by Infantry.

(J) All signalling equipment authorized to be brought to Waziristan under I. A. Os. 672 and 1040 of 1924, should be complete in every respect and all unserviceable articles replaced before departure for the District.

This party will take over from the S S O at Bannu or Tank special winter clothing issues under Army Instructions (India) No 680 of 1923 and 104 of 1924. This extra clothing will be obtained in accordance with India Army Order No 417 of 1925 Advance Party

District Order No 358 of 1924 is republished as Appendix III

18. There is no accommodation in Waziristan District for families either of British Officers or of British and Indian Ranks except in the case of units that are definitely ordered to Dera Ismail Khan or Bannu. At both these places the accommodation available is limited Accommodation

(b) Although all units in Waziristan District are clothed on Peace Scales of Clothing and come under the ordinary Peace rules of Clothing procedure, it has been decided that owing to lack of good storage

accommodation in the District, units will maintain and demand *one* instead of the *three* months supply of Clothing authorised in para. 5 of Clothing Regulations, India.

Heavy Baggage

- (c) Units arriving in Waziristan should not bring all their heavy baggage with them on account of the very limited amount of accommodation that can be provided for storage at all stations in the District except Bannu. See para. 35.

Transport

20. Railheads are at Manzai and Bannu. The normal form of transport is Pack mules & A. T. Carts. (See Appendix II).

Units proceeding beyond Bannu will normally move with full equipment and field service scale of baggage.

Mules are used for carrying baggage, water, rations, etc., to permanent piquets

Equipment

21. (a) Boots—

A good shoemaker's shop is essential. Troops on the march on duty on the L. of C. have to cross streams continually. Boots must be kept thoroughly repaired and lubed. All boots will be nailed. Boot repair materials will be brought up.

British and Indian Other Ranks receive special boot allowance—value of 14 pairs per year, *vide* A. I. (I) No. 3-S of 1925.

(b) Repairs—

Vide Peace Establishments issued under the authority of A. I. (I.) 655 of 1923. Infantry units are allowed one armourer havildar, two asstt. armourers and three boot-makers on monthly rates of e. d. pay. The object of this measure is to make the unit self-contained as regards repairs of its own equipment. Articles capable of repair regimentally returned to Ordnance for replacement will accordingly in the absence of special reasons, either be re-issued to the unit or the value of the new articles debited. It is therefore desirable that the unit should thoroughly overhaul all equipment before leaving for Waziristan.

(c) Pakhals—

Will be soldered where leaking, and put in good order before proceeding to Waziristan. Rough crates are used in Waziristan District and are desirable to avoid too rapid deterioration which may mean a charge against the unit. The crates are best made which have a frame of $\frac{3}{4}$ inch body, the also suppo

(d) *Chargers*—

Units coming into Waziristan will not bring chargers with them

(e) *Bicycles*—

Men in first line 80 rounds S A A per man

10 Lewis Guns—40 rounds S A A per gun

4 Vickers Guns 5000 rounds S A A per gun

4 table of 50

- These Battalions will on arrival at their destination take over the balance of their mobile echelon of ammunition from the Battalion they relieve

The relieved Battalion will march down to Bannu with ammunition as detailed above and will hand it into Post Stores, Bannu, before their departure by train with the exception of the 20 rounds pouch ammunition per man which they will take with them out of the District. If moving by road to Kohat special orders will issue

- (b) Units of other branches of the service will similarly march up from Bannu to their destination on the Tochi Line with a corresponding amount of ammunition, (i.e., that carried on the man or with the gun), vide tables VIII and IX, War Establishment (India) 1923

- (c) Units proceeding on relief to the South Waziristan Line, i.e., Tank, Manzar, will proceed to their destination with their 20 rounds pouch ammunition per man only

Relieved units will depart with a similar amount

23 *General*—

- (c) Full F S Equipment with S A A is worn. The haversack may be worn on the shoulders. The bayonet scabbard is tucked under the waist belt at the back to get it out of the way of the legs when at hill work. The pack is a very useful article to bring

up for storage of extra kit allowed. It should not be carried on the man beyond the railhead, but included in the kit. If well laid in rows, packs firmly tied up in blankets make very good camel loads. Officers should have web equipment converted to Officers' pattern so as to be equipped as much like the men as possible.

(d) Articles of clothing for officers can be obtained from the Army Canteen Board (India), Razmak.

No 2 Group—Infantry at Razami	■ Battalions

No 4 Group—Infantry at Manzar	3 Battalions *

(4) As far as No 1 and 2 groups are concerned, units once posted to these stations will remain there the whole 2 years

*With detachment of 1 company at Khirgi

†With detachments of 1 company each at D I Khan Mari Indus

(5) In regard to No. 3 group, incoming units spend their first year at Bannu and their 2nd year either at Idak or Dandil.

Officers
Baggage

35. (i) Attention is invited to para. 19 (c) regarding policy for Indian Infantry reliefs in Waziristan, and to A. I. (I.) No. 1187 of 1924.

(ii) At present accommodation in Posts (except Bannu) is hardly sufficient for the storage of the peace and mobilization equipment, which units must have with them, consequently there is no accommodation available for the storage of baggage of units surplus to this, except at Bannu. At Bannu storage for the surplus heavy baggage of two Infantry Battalions can be made available.

(iii) Units proceeding to the 7th and 9th Brigades at Razmak and Gardai respectively will remain at those places for two years and should take with them as little regimental and private baggage as possible.

(iv) Units proceeding to the 8th Brigade will remain at Bannu for one year and then proceed for a second year to Idak or Dandil. These units may take their heavy baggage (Mess equipment, etc.), complete as for a peace move in India, as accommodation in which to store their surplus baggage during the second year can be allotted in Bannu when they move to Idak or Dandil.

(v) Units proceeding to the 10th Brigade will remain at Tank for one year and Manzai for the second year or at Manzai for two years. In neither of these two places is there accommodation for the storage of surplus heavy baggage.

Rank and file (British and Indian) ..	1
Public Followers ..	1
Private Followers ..	1
British Infantry Battalion	520
Indian Pioneer Battalion	460

(7m) It is not intended that the scale of baggage suggested above should in any way affect the free allowance of stores etc., shown in A R I, Volume A. The cost of any excess weight will be borne by the unit.

(1r) Officers are advised to take only kit for games, grey flannel trousers blazer, etc., but, except in Bannu, store suits are not necessary.

(2r) Officers having shot guns are advised to take them, but the shooting suffers many restrictions on account of safety. There is a little fishing in the area but it is poor, fish run small and restrictions are the same as for the shooting.

(3r) As much kit as possible for regimental games should be taken.

36 O C Post will arrange that units marching in are met by an Officer (or an N C O with written instructions) sufficiently far from the post to ensure the unit taking the best route to camp.

37 O C Post will at once telegraph to Brigade Headquarters—

- (b) Approximate strength
- (c) Hour of arrival

38 O C Post will inform O C unit of the arrangements for—

41. On arrival at a post O. C. unit will hand in to O. C. Post I. A. F. T. 1708 (approximate strength of marching in).

42. Units will find their own working parties

43. If M. T. is provided one man will travel on each lorry with a British Officer in command of the baggage party in the leading lorry.

This Officer is responsible that the lorries are unloaded with utmost despatch as they have to return for supply convoy duty.

44. Convoys and parties of "details" will march under the usual arrangement but in rear of units (with their transport) marching with relief.

45. O C Post will detail an I. O. or N. C. O to accompany Unit Headquarters to the next post so as to point out out piquets and commonly known topographical features enroute.

In making promotions from non-commissioned rank to Indian officer, therefore, due regard should be had for Indian officer drafts expected to join, so as to obviate an unnecessary surplus of junior Indian officers (see Appendix D, Note 2, especially as regards modifications in the case of the Q M G's services).

In the absence of reports on men due for promotion, promotions will be carried out by seniority on the roster having regard to the requirements of class composition.

"For details of the officers authorized to carry out substantive promotions and of the rosters on which such promotions are based, see Appendix D of these regulations."

(a) In units which mobilize outside the theatre of operations but are intended to move into the theatre of operations, the unit accountants will take the following steps :—

(i) Close current pay lists, officers excepted, up to and inclusive of the day before the first day of mobilization.

(ii) Bring the men on to the war system of pay and accounts and open fresh pay lists from the first day of mobilization. Owing to the introduction of the war system of clothing [see para. 38-A. (c), (i)], clothing allowance will no longer be applicable.

During the period of mobilization prior to departure from peace stations, men will be paid by advances as on field service. These advances will not, however, be entered in the men's pay books (A H 64 or 64-M and I A F K 1157).

Reinforcement Camps and Rest Camps

A—REINFORCEMENT CAMPS

138 Reinforcement camps are formed on mobilization at places conveniently accessible to the theatre of operations. In the organization for overseas campaigns they form part of the base depôts referred to in Sec 47, F S R, Vol I Location.

139 A reinforcement camp comprises a headquarters and the necessary number of British and Indian sections. Details of the establishment are given in War Establishments, India. The personnel forming the permanent establishment are provided under the orders of the A G. The nucleus of the reinforcement drafts held in these camps is formed in the first instance from the first reinforcements of those units for which they are ordered to be provided (see para 136). Subsequently, as the machinery for the provision of reinforcing drafts commences to operate reinforcement camps maintain a fixed percentage, normally 5 per cent of the war establishment of all units of arms and services dependant upon them. There are, however certain services and categories of technical personnel for which a fixed proportion will not be maintained when the campaign is on or beyond the Indian frontier. In these cases drafts are ordered up from depôts to reinforcement camps as required. Organization and Command.

For purposes of general administration reinforcement camps are under the orders of G H Q. For purposes of despatch of drafts they are under the orders of G H Q, 2nd Echelon, without whose orders no drafts will proceed to the front. For purposes of local administration they are under the orders of the commander of the area or sub-area in which located.

While awaiting despatch to the front, from a reinforcement camp drafts of services and technical personnel will be employed to the fullest possible extent under the orders of the local heads of services concerned. Non technical personnel will, subject to the requirements of guards and duties, carry out training under the supervision of their own officers and N C O's.

140 The main duties of reinforcement camps are — Duties.

- (a) to receive drafts from depôts, or in the case of overseas campaigns from the country of origin,
- (b) to receive from hospitals and convalescent depôts in the theatre of operations all personnel discharged as fit,
- (c) to maintain in immediate readiness for despatch reinforcements for mobilized units dependent on them,

(d) to arrange through the local representative of the Q. M. G.'s Branch of the Staff for the early despatch of reinforcements upon receipt of orders from G. H. Q., 2nd Echelon,

(e) to ensure that all ranks are properly clothed and equipped when despatched to units (see para. 76),

(f) to ensure that all ranks have been adequately protected by vaccination and inoculation, in accordance with the orders in force, before despatch to units. Personnel not so protected will not be despatched to units except in cases of extreme urgency and with the sanction of the army commander concerned,

(g) to notify by telegram to all concerned the despatch and probable date and hour of arrival of reinforcements, so that adequate arrangements may be made for their reception

Stock of
clothing, etc.

141 A reserve stock of clothing, necessities and personal equipment, sufficient for 5 per cent. of the normal strength of the reinforcement camp will be maintained at all times. When the location of a reinforcement camp can be foreseen the provision of this stock will be arranged for in the mobilization scheme.

Despatch of
drafts

142. Drafts will be despatched from reinforcement camps to their destinations in charge of draft conducting officers or N. C. Os, who will accompany drafts either direct to units or, if road, river or railhead rest camps (see para. 143), have been formed, as far as the rest camp. On arrival in the army area drafts will come under the orders of the army concerned. Draft conducting officers will be given triplicate nominal rolls (on I. A. F. F-960 31) of their drafts and will hand these over with the draft, to the Q. C. unit or rest camp receiving the draft who will dispose of the rolls as directed on the form (see para. 157).

B.—REST CAMPS.

Location.

143. Rest camps are formed on mobilization, or, as operations develop, at important rail-heads, river-heads and road-heads on the lines of communication.

Organization
and Command.

144 A rest camp comprises a headquarters with the necessary number of British and Indian sections. Details of the establishment are given in War Establishments, India.

The personnel constituting the permanent establishment are provided under the orders of the A. G.

Rest camps are administered under the orders of the army to which allotted, through the commander of the area or sub-area in which located.

Duties.

145. The main functions of rest camps are :—

(a) to accommodate and administer drafts and individuals temporarily detained while in transit up or down the lines of communication,

- (b) to notify arrivals and departures to the authorities despatching and receiving such drafts and individuals,
- (c) to report to G H Q, 2nd Echelon normal arrivals and departures and in addition any casualties occurring to personnel temporarily detained in the rest camp or which having occurred in transit, are notified to the G C Rest Camp on the arrival of a draft

(—OVERSEAS REST CAMPS)

146 Overseas rest camps if not already existing in peace, are formed when mobilization is required in the vicinity of sea ports (in India) Location.

147 An overseas rest camp comprises a headquarters and the necessary number of British, Indian and British Family sections. Any extra personnel required on mobilization to expand or to form the permanent staff are provided under the orders of the A G Organization and Command.

For purposes of general administration, overseas rest camps are under the orders of the Q M G and the accommodation in such camps is at the sole disposal of the Movement Control Staff at the port.

Immediately after arrival from overseas, drafts will be placed by the Q M G at the disposal of the A G. Disposal orders will then be issued by the A G or D A G, 2nd Echelon and the necessary movement facilities provided by the Movement Control Staff. No other authority is permitted to direct the disposal of such drafts.

For purposes of local administration, overseas rest camps are under the orders of the commander of the area in which located.

148. The main functions of overseas rest camps are — D

- (a) to accommodate personnel and animals awaiting embarkation from India for an overseas destination,
- (b) to accommodate personnel and animals arriving in India from overseas pending their subsequent disposal,
- (c) to work in the closest conjunction with the Movement Control Staff at the port in order to ensure the expeditious embarkation and disembarkation of personnel and animals

SECTION XVI.

Depôts and Indian Record Offices.

Location.

149. For detail of the depôts and Indian record offices of mobilized units, see Appendix C of these regulations. Any modifications required by special circumstances will be notified by A. H. Q. in India on mobilization.

Organization.

150. In certain services the depôt and the Indian record office are separate establishments in different places. In all arms, the depôt includes the Indian record office. The distinctive nature of the duties that devolve respectively on depôts and Indian record offices on and after mobilization will, however, always necessitate the organization of the permanent administrative establishment in separate branches for the proper discharge of the divergent duties of training on the one hand, and pay and record work on the other.

The organization and establishment of depôts and Indian record offices are given in War Establishments, India (under preparation).

Expansion.

151. War Establishments, India, provide for the expansion of certain depôts on a sliding scale to cope with increasing drafts under training.

All promotions to complete to initial war establishment (see para. 65) and all promotions automatically admissible by increases of N. C. Os. authorized under a sliding scale in War Establishments, India, will be made by the O. C., Depôt. Promotions which are consequent upon a change of organization such as the formation of additional training companies or batteries, or the reorganization of a training battalion as a training brigade, will not, however, be made until the sanction of A. H. Q. in India has been given to the change of organization.

Command.

152. For purposes of general administration depôts and Indian record offices are under the orders of A. H. Q. in India. For purposes of local administration they are under the orders of the commander of the area in which located.

Orders for the despatch of reinforcing drafts for mobilized units of a field force will be issued by the A. G. in India for overseas campaigns and by G. H. Q., 2nd Echelon (if formed) for campaigns on or beyond the Indian frontier.

Drafts for unmobilized or internal security units will be provided under normal peace time procedure, in direct communication between the unit and the O. C., Depôt. Should the O. C., Depot, anticipate difficulty in meeting all demands he will refer direct to the A. G. for orders as to priority of demands (see also para. 55).

Depôt and Indian record office personnel are not available for station guards and duties nor, except as provided in para. 168 (a), for internal security duty. In cases of urgent military

necessity, however, local commanders are authorized on their own responsibility to contravene this reporting their action to A. H. Q. in India through the usual channels

153 The functions of depôts include the following where ^{Duties of} Depôts applicable —

- (i) To receive and dispose of all men proceeding on leave from the theatre of war and to arrange for their return to their units on the expiry of their leave
- (j) To ensure that orders as to inoculation and vaccination are carried out in anticipation of demands for drafts, so as to obviate delay in their despatch
- (k) To store the heavy baggage of units and individuals as required
- (l) To take charge of and operate the regimental funds of mobilized units as instructed by C. Os concerned on mobilization
- (m) To maintain, in conjunction with the attached personnel of the Military Accounts Department, the individual accounts of all personnel (except King's Commissioned Officers) who are being paid under the field service system of payment

- (n) To pay out the family remittances of the personnel mentioned in (m) above, except for British Troops for whom this is done through the Officer-in-charge Records in the United Kingdom.

passettes showing names of fathers and names and addresses of next of kin of the deceased

- (d) To carry out permanent promotions in mobilized units in so far as is laid down in para 66

155 O C units of a field force are forbidden to address demands for personnel to Reinforcement Camps or depots. These demands must be made to G H Q, 2nd Echelon, and should specify any particular class, individuals or specialists required. Information of this nature will be forwarded by G H Q, 2nd Echelon to depots concerned (through A H Q in India in the case of overseas campaigns). Composition of drafts.

In the absence of special instructions the composition of drafts will be left to the decision of the O C depot.

Any appreciable divergence between the composition of a draft sent and that ordered will be reported by the O C depot to the demanding authority (see para 152).

156 All drafts despatched from depots will be equipped and clothed up to the scale applicable, i.e., if for a unit of a field force to F S scale if for internal security or other unit to the scale in force for that unit. Equipment and rationing of drafts.

All ranks armed with a rifle or pistol will be given pouch ammunition before departure.

Rations for the journey and for the day after arrival at the destination will be issued before departure.

157 The following documents will be handed over to the senior officer or N C O in charge every reinforcing draft for a field army unit — Documents sent with drafts.

Indian ranks, A B 64 M and I A F F 957 B

Class I followers, A B 64 M and I A F F 957 C

Private followers, I A F K 1157 and I A F F 957 C

On arrival at a reinforcement camp the documents referred to in (a) and (b) of this paragraph will be disposed of as follows :—

Nominal Roll will be checked by the O. C. Reinforcement Camp and any casualties that have occurred since the draft left the depôt noted thereon on all three copies. One copy will be sent to G. H. Q., 2nd Echelon for publication in Part II Orders. Second copy will be returned to the depôt and the third copy will be retained by the Reinforcement Camp for record.

A. F. B-199-A, A. F. B-103 and I. A. F. F-959 will be forwarded by the O. C., Reinforcement Camp to G. H. Q., 2nd Echelon with one copy of the nominal roll above mentioned.

A. F. B-122 and A. F. B-122-M will be retained at the Reinforcement Camp and subsequently despatched with the individuals concerned to their units in the field.

When drafts are despatched to an overseas field force from India, they will normally pass through an additional organization, namely the "Overseas Rest Camp" (In India) which serves the port of embarkation concerned. In such cases the O. C., Overseas Rest Camp will verify the nominal rolls and amend them if casualties have occurred, reporting such casualties to the O. C. depôt.

In no case will the documents mentioned in (b) of this paragraph be sent overseas without the individuals to whom they refer.

158 On despatching a draft, the O. C., Depôt will telegraph to the receiving organization, namely to the unit, Reinforcement Camp or Overseas Rest Camp in India, giving the scheduled hour of arrival and the strength of the draft. This telegram will be repeated to the demanding authority (see para. 152) with a reference to the order for the despatch of the draft.

Should a draft have to be despatched partially equipped or unprotected by vaccination and inoculation, the O. C., Depôt will telegraph to the receiving organization sufficient information to enable the latter to arrange to remedy the defects on arrival of the draft.

C., Depot will telegraph numbers to be moved, date of readiness to move, and destination. De-patch of drafts.

162 Followers and technical depots will be formed on mobilization to provide pools of followers and of certain categories of technical personnel for mobilized units. They resemble other depots in that they are responsible for receiving, enrolling and equipping personnel recruited by R O's. They differ from other depots in that after de-patch of individuals or drafts the records of the personnel of the draft are transferred to the Indian record office of the arm or service for which the drafts are destined and their pay accounts to the corresponding depot. The personnel of the drafts are then finally struck off the books of the followers or technical depot. Followers and Technical depots.

Drafts de-patched in accordance with demands as in para 162, will normally be de-patched direct to the appropriate reinforcement camp or for an overseas campaign to the port of embarkation or overseas rest camp in India as ordered. I.A.O. 656 Allotment of Vacancies at Army Schools of Instruction :-

18940
G.S.M.T.A.

In supersession of all previous orders, the following system will be adopted for the allotment of vacancies at schools of instruction, with effect from courses held during 1926.

1 *Method of allotting vacancies from above.*—Vacancies for all courses for the following year will be notified simultaneously in I. A. O. from A. H. Q. by 1st September.

A. H. Q. will allot vacancies in proportion to the number of troops in each Command, Burma District and Aden Bde. A. H. Q. will keep a small reserve to meet urgent demands from Commands for additional vacancies. On receipt of the I. A. O. Commands and Burma District will sub-allot on a similar basis in time to reach Districts (or the next formation) by 1st October.

2 *Method of applying for vacancies from below.*—Units will submit returns on 1st September, through brigades and areas, showing the number of vacancies required to maintain the establishments laid down in Table A of General Instructions, Courses of Instruction (India), 1924. The return will reach district headquarters by 1st October.

3 *Allotment by Districts.*—On receipt of the return from areas and brigades, districts will allot vacancies for the whole of the following year in accordance with the allotment they have received from commands. Brigade and area commanders are responsible that in their re-allotment within their command the needs of units which are short of instruction are given prior consideration. Each unit should know by 1st November the number of vacancies it will get for all courses in the following year.

4 *Exceptions to the general rule.*—The following will be exceptions to the above general rule :-

(a) *Royal Tank Corps School.*—The commandant of the school will allot vacancies to armoured car companies direct.

(b) *Senior Officers' School.*—It is considered that the proper proportion of officers at each course should be :-

5 British Service.

5 Cavalry.

2 Royal Engineers.

3 Royal Artillery

1 Army Educational Corps.

5 Royal or Indian Army Service Corps

11 Infantry

I A O. 650

4th Aug,
1925

Commands will submit to A H Q by 1st September a list showing, in order of priority, the officers they wish to send to the school during the following year. A H Q will then allot the vacancies by name, keeping as far as possible to the proportion of arms detailed above.

6 *Surrender of vacancies*—Vacancies may only be surrendered at the direction of the area or brigade commander, as follows—

- (a) 15 Os of Indian units for any school.
- (b) The remainder for any school other than the Small Arms School, Equitation School, and Indian Wing Army School of Education.

Vacancies so surrendered will be re-allotted by the district as early as possible and the school and command informed.

6 *Units moving in relief*—Units due to move on relief during the ensuing cold weather will submit their return by 1st September to their area or brigade headquarters, who, after checking, will pass it direct to the area or brigade into which the unit is moving by 15th September.

In the case of units coming in on exercise A H Q will ascertain what vacancies they will require and will inform the brigade into which they are moving by 1st September.

7 *Schools* will not enter into any correspondence with formations other than commands, districts and independent brigades on the subject of vacancies.

They will be responsible for keeping A H Q informed from time to time as to how units stand with regard to Table A, Courses of Instruction (India) 1924, and for informing A H Q if, at any course, vacancies have been surrendered and not refilled.

8 In urgent cases, applications for special vacancies may be made, through the usual channels to A H Q. Such applications should be very sparingly made.

9 The I A O regarding dates of courses for the ensuing year will be published from A H Q by 1st August.

10 Table B, Courses of Instruction (India), 1924, is hereby cancelled.

11 The number of officers and N C Os who have been trained at the Army School of Education to be maintained in units will be published as an Amendment to Table "A" in due course.

Small Arms Training Volume II—Amendment—Training of Extra regimentally employed Personnel—the addition for India to Small Arms Training Volume II, Section I, para 11 "Exemptions" is cancelled and the following substituted —

I A O 665.
7th Aug
1925
133-7/II
Q S, M, I L.

"In ha—Every soldier, irrespective of how employed, is required to be proficient in the use of the rifle and to fire the rifle course prescribed for his branch of the service. Personnel who are returnable to regimental duty after a period of extra-regimental employment will fire annually the course laid down for their branch of the service. Other personnel (e.g., I U L, I A O C, I A O C, I arms, etc.) will fire Table T as an annual course of musketry.

"In cases where, owing to the nature of employment, distance from the range etc., to fire the complete course is inconvenient, a modified course of range or field practices may be fired under the orders of the brigade commander. Practices must, however, be carried out in strict accordance with the regulations, and the officer superintending the practices will certify its completion or non-completion to the brigade commander, giving reasons in the event of non-completion."

The submission of an annual report to A H Q on the training of the above personnel will be discontinued.

Training—Signalling—Reference A R (I), Vol II, para 309. As a temporary measure, until the standard of education in Indian units is improved, the number of men to be trained in semaphore in Indian Cavalry, Mobile Artillery, Infantry and Pioneers units may be reduced to not less than 10 per cent.

Abolition of the grading of I A S Corps Officers—Government of India, Army Department, letter No 61041 (Q M G 5), dated the 23rd July 1925 is republished below

2 The classification of I A S E Officers referred to in para 2 thereof, for purposes of pay, will continue to be notified in India Army Orders, on the recommendation of the G Os C in Chief, etc., as heretofore

3 Para 6, A R (I), Vol V, will be cancelled in due course

I.A.O. 668. Copy of letter No. 61044 (Q-5), dated Simla, the 23rd July 1925, from the Army Department, to the Q. M. G. in India
7th Aug. 1925

Before the introduction of the revised rates of pay sanctioned in Army Instruction (India) No. 1-S, dated the 7th March 1925, officers of the Indian Army Service Corps received staff pay under paragraph 25 (i) (b) of Pay and Allowance Regulations (India), Part I, according to grades which were determined by length of Army Service [See paragraph 6 of Army Regulations (India), Volume V]. Under the revised rates an officer's emoluments including Departmental Corps Pay depend generally on the rank held or the length of service in a given rank, and are no longer regulated by the grading laid down in paragraph 6 of Army Regulations (India), Volume V. In the circumstances no useful purpose is now served by grading Indian Army Service Corps officers for purposes of pay. The Government of India have therefore decided to abolish the grading of Indian Army Service Corps officers into six different classes. The abolition of the grades is, however, not intended to affect adversely such promotion in departmental seniority as the officers would have been otherwise entitled to under the old system of grade-promotions.

2. Officers who are eligible for, and have elected to continue to receive, the old rates of pay as provided for in Army Instruction (India) No. 1-S, dated the 7th March 1925, will continue to count service towards staff pay as admissible under the existing rules contained in paragraphs 25 (i) (b) of Pay and Allowance Regulations (India), Part I, and paragraph 6 of Army Regulations (India), Volume V. Such officers will no longer be "graded" in the Indian Army Service Corps but will be "classified" in the usual way in India Army Orders.

I.A.O. 669. Explosions and Accidents.—Explosions and accidents are not, in all cases, being reported to Army Headquarters as required by para. 272-A of Army Regulations (India), Vol II. Attention is drawn to the importance of reporting all such occurrences immediately so that proper investigation may be made.

I.A.O. 670. Pistols, Webley—Missfires in—Cases of missfires when using the "double action" of the pistol Webley have recently been reported. The following steps will be taken to obviate this.

Unit Armourers will ensure that the protrusion and shape of striker is correct, that the cap is struck fairly in the centre and that the .052 slip is rejected between the cylinder and shield. The main spring will be adjusted to require a pull of 15-18 lbs. on the trigger to cock and fire the revolver by "double action"; in testing for weight of spring as detailed in Instructions for Armourers India, a weight of over 4½ lbs. may be accepted.

The trigger pull, using the single action, will be adjusted to be between 6 and 8 lbs. by stoning the bends; in doing this the greatest care must be exercised.

"Instructions for Armourers India" will be amended in due course.

2. The Meeting was the second Championships Meeting, held by the Army Sport Central Board (India), and the first held under the new arrangements whereby a championship in boxing for British troops, and wrestling for Indian troops is held yearly, combined with football hockey, and athletics in rotation

3 The A S C B (India) is of the opinion that all things considered, the Meeting was sporting and the financial point of the number of entries and measures, it is hoped that more money will be available in the future for the assistance of teams entering

4 The profits of the Meeting were devoted entirely to assisting teams to defray their travelling expenses

The refund to British teams was arranged so, that no team, whatever the distance travelled, was more than approximately Rs 500 out of pocket

Two British teams present at the Meeting were stationed at Rawalpindi and no expenditure for travelling was incurred

Half the expenses of three other British teams were refunded by Northern Command since they had originally travelled to Rawalpindi to participate in the Northern Command Tourna-
ment

Sir,

I am directed to inform you that with effect from the 1st April 1926, the grants for expenditure under Part B—Auxiliary and Territorial Forces of the Army will be administered and controlled under the following rules—

(i) You will be the administrative authority at Army Headquarters responsible for the control of this expenditure

(ii) The Budget Estimates of expenditure for the Auxiliary Force and the Territorial Force will be prepared on India Army Form Aux 7 and India Army Form I T F 4 respectively and the estimates for the Staff at Army Headquarters Headquarters of Commands and of Districts on India Army Form A 211 in detail of detailed heads of account and with reference to the rules in paragraphs 26 and 27 Army Regulations, India, Volume III, by the authorities shown in column 3 of the Appendix to this letter. In the case of all appointments and fixed charges for which provision is made in the Budget, the number and date of the order sanctioning the appointment or charge should be quoted in India Army Form—Aux 7, India Army Form—I T F 4 and India Army Form A 211. The estimates for units of the Auxiliary and Territorial Forces will be forwarded to the General Officer Commanding the District or Independent Brigade so as to reach him on the 1st October of each year and he will prepare a total Budget Estimate for the District or Brigade for each of the Forces and forward the Estimates together with those for the Staff at Headquarters of Districts, to the Controller of Military Accounts concerned, so as to reach him not later than the 10th October

(iii) The Controller will record on the Estimates any corrections he may consider necessary with reference to sanctions of competent authorities or progress of expenditure giving full reasons in support of all corrections, and transmit them to the General Officer Commanding in Chief of the Command* to reach him not later than 20th October. The General Officer Commanding-in-Chief of the Command will forward the Estimates, after scrutiny and with suggestions for any changes to reach you not later the 1st November of each year

* In the case of the Burma Independent District the estimates will be direct to you.

(iv) You will also receive by the same date the estimates for the "Staff at Army Headquarters" and the "Staffs at Headquarters of Commands", checked respectively by the Military Accountant General, Pay Section, and by the Controllers of Military Accounts of the Commands, through whom they will be submitted.

(v) You will consolidate the Budget Estimates for each of the sub-heads, "Staff at Headquarters of Commands", "Staff at Headquarters of Districts", "Auxiliary Force" and "Territorial Force" and forward to the Financial Adviser, Military Finance, not later than the 15th November of each year, a consolidated budget estimate of requirements for all India under each of those sub-heads and under "Staff at Army Headquarters" distributed by Accounts Districts, as anticipated by you, together with the local estimates and a list of alterations made by you therein under the several minor heads. Subject to any observations by the Financial Adviser, Military Finance, and the orders of His Excellency the Commander-in-Chief, the consolidated budget will form the basis of the budget grants for the ensuing year.

(vi) The grants made in the sanctioned Budget Estimate under each of the sub-heads shown in column 1 of the Appendix to this letter, fix the limit within which authorised expenditure may be incurred without previous reference to Government. Any expenditure which cannot be met from the sanctioned provision will require the sanction of the Government of India, to whatever cause it may be due.

(vii) The authorities specified in column 2 of the Appendix will be responsible for watching carefully the progress of expenditure against the budget grant under each minor head and for securing reappropriations or additional grants, wherever the sanctioned grant is likely to be exceeded. To enable them to exercise this check the Military Accountant General (Pay Section) and the Controller of Military Accounts concerned will arrange to furnish them with monthly statements of actual expenditure not later than the 62nd day following the end of each month.

(viii) The powers of reappropriations of General Officers Commanding Districts and the General Officer Commanding the Allahabad Independent Brigade, are those laid down in Army Instruction (India) No. 368 of 1923, and they should be exercised in consultation with the Controller of Military Accounts.

(ix) General Officers Commanding-in-Chief may, with the concurrence of the Controller concerned, sanction reappropriations within the minor heads of the sub-head "Staff at Headquarters of Commands". They will also exercise the powers of reappropriation in regard to Auxiliary and Territorial Forces, sanctioned in Army Instruction (India) No. 368 of 1923, as well as similar powers under the sub-head "Staff at Headquarters of Districts," which are hereby conferred on them.

(21) Savings due to non-expenditure of provision for a specific measure or to an error in the estimates cannot be reappropriated without the sanction of the Government of India

(22) Reappropriations when made by you, will in each case, be intimated to the Controller of Military Accounts by the Financial Adviser, Military Finance

1925.

Copy of War Office letter No. 19/Gen No. 7907 (A.G.-Sb), dated the 11th July 1925.

In continuation of War Office letter of above number, dated 8th September, 1924, I am commanded by the Army Council to forward to you the attached copy of an Army Order issued with Army Orders for June 1925 (see Army Order 229 of 1925), regarding the new Certificate of Service (A.F.B.-108).

2 In view of the importance of this Certificate to the ex-soldier in his efforts to obtain civil employment, the Council request that instructions may be issued to ensure compliance with the regulations contained in the attached Army Order, regarding the preparation and despatch of this Certificate to the United Kingdom in the case of soldiers coming home for transfer to the reserve and discharge.

3. I am to say, with reference to para. *391 (G) King's Regulations (as amended by the attached Army Order), that in view of the lack of time, instructions have been given to Officers *i.e.* Records to obtain and despatch to units serving abroad, including India, a sufficient quantity of Certificates of Service to meet the requirements of soldiers coming home for transfer to the reserve and discharge during the forthcoming trooping season. For succeeding trooping seasons the provisions of para 391 (G) King's Regulations will be complied with.

4 I am to add that Officers *i.e.* Records have also been instructed that when despatching to units abroad the Certificate of Service they will also send a sufficient supply of the Army Orders containing the amendments to King's Regulations referred to in paragraph 1 above, to permit of a distribution down to Company, Battery, Squadron, etc., Commanders.

5. As regards Army Form B.-108-B. (*i.e.*, the Certificate which covers the period of mobilization), I am to say that instructions will be issued later regarding their storage. In the meantime, indents should not be submitted for any supplies.

6 As regards the Employment Sheet (A.F.B.-2066) it is intended that the headings of the sheet now in use should be revised to correspond with those on pages 3 and 4 of the Certificate of Service, except that a column for the soldier's "Rank" will be added to the Employment Sheet.

*394-G. O. C. units serving at home will indent upon the Army Forms Depot for quantities of A. F. B.-108 and B.-108-B, as required. O. C. units serving abroad will, on 1st April in each year, notify their requirements for the ensuing trooping season to the officer *i.e.* records, who will check these indents, apply for the requisite supplies to the Army Forms Depot and transmit them to O. C. units abroad.

7 To facilitate the amending of the existing Employment Sheets, slips containing the revised headings are being printed on gummed paper and supplies will be forwarded to units overseas abroad (including India) by Officers of the Record. The present unused stock of Employment Sheets should not be wasted but should be amended by affixing a revised heading slip.

8 In due course the Employment Sheet will be reprinted on paper green in colour and the revised headings will appear thereon.

PEOPLING THE EMPIRE**EMPIRE COMMUNITY SETTLEMENT****TO THE EDITOR OF THE TIMES**

Sir—We the undersigned are much interested in the ideas and proposals set forth recently in your columns by letters from Sir Roland Bourne, and commented upon favourably in your leading article of September 12, 1924. We desire publicly to express the opinion that the idea of the Empire Community Settlement scheme in its general conception has our full approval. We think that it is very worth while attempting to give effect to the idea.

We are of the opinion that it will be necessary to form a special organization with its headquarters in London, and that this organization should be styled the Empire Community Settlement Committee. We think that this committee should be so constituted as to command the confidence and respect of the general public in all the Dominions.

Though it is highly important that there should be represented on this Committee, in an advisory capacity, responsible and well informed representatives of all such portions of the Empire as are likely to be suitable for the special purpose of the Empire Community Settlement scheme, we think it important

that the development and direction of the scheme should be in the hands of experienced persons who have neither any personal or private interest to serve by the successful operation of the scheme nor even any close personal or official association with any particular portion of the Empire.

We do not attempt to express an opinion as to whether the detailed proposals as advanced by the originator to give the scheme practical effect are entirely feasible in their financial and other material aspects. On those points the responsible committee whose formation we recommend above will have to satisfy itself, after the most careful investigation and scrutiny by persons best qualified to judge. We do, however, advise that, before attempting to give practical effect to the scheme, the Empire Community Settlement Committee should, as a preliminary step, make inquiries and satisfy itself in such manner as may seem to it best, on two fundamental points :—

(1) As to the extent and distribution of the demand for such a scheme by retired members of the professional classes with small fixed incomes.

(2) As to the feasibility of supplying that demand in such a way that no call is made on the public Exchequer of Great Britain for moneys to finance Empire Community Garden Settlements in any Dominion or Colony, but so that all funds required for the purpose are provided from within such of the Dominions or Colonies as are attracted in their own material interest by the proposition and desire to secure the establishment in their territory of one or more Empire Community Garden Settlements.

We are of opinion that, if the results of a thorough investigation of these two points are satisfactory, persons who apply to become settlers and are finally accepted should on application, and again upon final acceptance, be required to make some contribution towards the organization and administrative expenses of the London committee. A further contribution towards meeting those expenses might then well be made from the British Exchequer as a grant from the funds voted by Parliament under the provisions of the Empire Settlement Act, 1922, for the purpose of carrying out the policy of a more effective distribution of the white population of the Empire.

REPORT OF
THE EMPIRE COMMUNITY SETTLEMENT COMMITTEE.
Part I.—Introductory

The Empire Community Settlement Committee has been formed on a non-party and undenominational basis for facilitating the settlement in the Dominions or other parts of the Empire of communities or groups of persons possessing small or moderate fixed incomes, without requiring the expenditure of capital on their part. This general idea has received much encouragement and support on the part of eminent and responsible people and of "The Times" and other influential papers. (1)

E. C. S. Committee's purpose and project.

This statement is issued by the Committee for the preliminary purpose of ascertaining the nature and extent of the demand for a scheme of this nature existing among the persons who might become settlers.

The Committee recognises the difficulty of ascertaining the views of the unorganized and widely scattered body of people to whom they must appeal, and must ask for the assistance of all concerned for this purpose.

The Committee must, in the first place, have the best possible evidence that there is a great, genuine and widespread demand for such a scheme from those for whose benefit it is designed.

The Committee has considered the evidence which has been placed before it as to the practicability of a scheme of this nature, the general and widespread interest it has aroused and the criticisms it has evoked. (2)

Evidence considered.

The Committee is impressed by the consideration of the power that is exercisable by a number of fixed incomes working in co-operation and is determined to ascertain the extent of the demand for a scheme on the lines suggested, and to explore the possibility of framing the scheme to satisfy the demand. (3)

Co operation.

The Committee thinks it right to point out that, however great and insistent the demand may be, the scheme probably cannot be carried out on a large scale from the very outset. It may have to begin with a very few Community Settlements, perhaps only one or two, established in such countries and places and under such conditions as offer the very best possible chances of complete success. (4)

Small beginnings

(5)

the successful establishment
 the E.C.S. Committee should
 as many more as the demand
 modifications and adaptations

as may be judged necessary to suit the varying conditions of locality which the public favours and the several requirements of the public, which the E.C.S. Committee deems it practicable to fulfil.

(6)

Committee's
appeal to the
public.

Time and consideration will be necessary before any scheme can be fully developed. The E.C.S. Committee, therefore, in its endeavours to set Empire Community Settlement afoot, appeals, in the first place, for the interest and confidence of the public, and in the second place, for their patience and goodwill. Without evidence of that interest and confidence the Committee can hardly hope to achieve a great measure of success. With it the Committee becomes a representative of a community which has much to offer. But even on a large scale, the patience and goodwill because, though the Committee is determined not to let the grass grow under its feet, it is nevertheless necessary to work deliberately and build the system up step by step if practical success and great results are to be secured.

Part II.—General Principles.

(7)

General
principle.

Before giving a general outline of a scheme, the general principles on which the outline is based must be stated.

(8)

Class of persons
to be provided
for

As regards the class of persons for whom the scheme is intended, the Committee does not wish to attempt an exact description. The possession of small fixed (i.e., assured) incomes (from £250 to £800 and over) is essential.

Capital is not necessary but is, of course, no bar. On the contrary, it will greatly assist, even if it be quite small, in permanent settlement under conditions which promise material addition to the fixed income and good provision for children.

The Committee has mainly in view such persons as retired officers of the fighting services, civil servants, professional men, etc., doctors, engineers, etc., responsible persons in the banking, commercial and industrial world; but there may be many others to whom the scheme would appeal.

Again as regards age,—there need be no maximum or minimum age. Probably at the two extremes there would be few really suitable cases for the E.C.S. system. Generally speaking, the bulk of people to whom E.C.S. is likely to appeal are those who, having reached middle age or being "young at sixty", have retired from their professions or businesses, but for young people with fixed incomes, so far as they are available, the scheme should often open up better chances for the future than they will find at home.

As to married condition, it must be clearly understood that the Committee regards the most important feature of E.C.S. as the opportunity it will give to make the best provision within the restrictions of a small income for the children's education and careers. The Committee desires therefore to secure these facilities for a large proportion of people with children who have got to be educated and launched in the world. Nevertheless there is

and will probably be in increasing degree room for single men and women or for married people who are childless or whose children are grown up and independent

In considering the conditions which an Empire Community Settlement must fulfil, the Committee has come to the conclusion that Community Settlements can only, at first, be established with success in those parts of the Empire where—

(9)

Locality of
Community
Settlements.

(a) the climate—

(i) is healthy and genial

(ii) admits of an open air life and

(iii) does not necessitate expensive types of building,

(b) there are good and diverse facilities for general education and cultural training

(c) there are good scope for competent young men and women to receive their education to earn their livelihood whether in the learned professions, commerce and industry or agriculture with a capital or influential connection and establish permanent homes for themselves and their children

The Committee has accepted and wishes to lay considerable emphasis on a general principle which I will mention clearly understood. The Community Settlement scheme it proposes is in its essence a residential not an agricultural scheme

(10)

Agriculture not
essential
feature

Hitherto all or most migration schemes postulate land settlement for the purpose of agricultural work which an income can be made sufficient at all events for the livelihood of the settlers of good returns from the investment

The Committee does not think it probable that this will be, among the class of persons for whom the scheme is designed, a large proportion who will have the means, experience, aptitude or inclination to embark upon agricultural operations on a scale which can be called farming proper

The Committee is not, therefore, at present recommending the idea that it is essential for the settlers to be agriculturists

The Committee thinks, however, it will be important to arrange the best possible facilities for the settlers to require in their Community Settlements some knowledge of small husbandry. From it they can derive much interest, healthy occupation and, indeed, great pleasure. Moreover they can thereby add directly a little to their livelihood in case or, at all events, make those incomes go further in other directions by lessening the cost of living

The Committee wishes to encourage these facilities by the means of the small husbandry diligently, thereby laying the foundation for the children, at all events, to become agriculturists proper and practice agriculture later on as a remunerative means of livelihood

The Committee hopes, however, that persons having some capital and the intention of becoming agriculturists proper, will avail themselves of a Community Settlement scheme, in order to acquire a practical experience of agriculture under local conditions in the most economical and pleasant manner possible, without their spending capital while so doing.

(11)

Provision for
"trying out"
before permanent
settlement.

The Committee attaches particular importance to giving people from the British Isles, especially people who have reached middle age, opportunity for "trying out" a Dominion or Colony for a reasonable period; that is to say a period which must be amply sufficient to allow them not only to assimilate a new environment, acquire experience of local conditions and learn new methods which will fit them for permanent settlement, but also to make deliberately their arrangements for permanent settlement.

Undoubtedly the necessity for uprooting themselves almost irrevocably from their old home ties and associations has deterred all but a very few people of middle age from engaging under land settlement schemes hitherto open to them. For this reason the Committee thinks that the introduction of a new feature in land settlement, that is, a preliminary period of leasehold tenure without the necessity of any permanent commitment, is most desirable.

At the same time, the main object being to establish permanent settlement, either purely residential or suitable for small husbandry, it is essential to make provision whereby all E. C. Settlers, from the outset, are secured in an option, exercisable at any time, however early, during the period of their lease, to purchase a permanent settlement with house and land at stated prices, payable by instalments out of income.

The Committee does not wish, however, to exclude from consideration the possibility of developing Schemes which would not include leasehold tenure, but which would provide special facilities, by way of a residential hostel for instance, for intending settlers to make themselves thoroughly familiar with local conditions on the spot before committing themselves to any form of permanent settlement.

(12)

Committee's
status as agent.

There is one other general consideration to which the Committee attaches no little importance. The Committee will regard itself and hopes to be regarded as the agent and representative of the people for whose benefit Community Settlement is designed, and will have no other interests than theirs.

It follows then that the Committee does not intend, by acquiring and holding land or interests in land and landed properties to be leased or sold to E. C. Settlers, to put itself into other relations with settlers; such as those of landlord and tenant or vendor and purchaser.

Whether it will prove possible, in practice, to maintain this principle, remains to be seen, but the Committee will not depart from it unless for very urgent reasons, and then only to safeguard the interests of the E. C. Settler.

Part III—The Outline Scheme

The Committee thinks that no good purpose will be served by attempting to portray a practicable Community Settlement in more than a very general outline. To do so would involve selecting as an example a particular portion of the Empire, and even perhaps a particular locality in the portion so selected. Even then the estimate of many of the details could not be accurately ascertained. Most of them would be in the nature of estimates based on various assumptions by the Committee. (13)

Reasons for giving outline only.

The Committee, moreover, is strongly impressed by the enormous task that it would be able to state definite plans which it would be feasible to carry out in exactly similar detail in the different parts of the Empire, or even in any one of them within the same Dominion or Colony.

In putting forward his ideas and proposals, by letters in "The Times" and in two printed memoranda "Suggestions" and "Notes", Sir Roland Bourne has thought fit—the Committee thinks rightly so—to give, by way of illustration, a number of definite details both in fact—figures and by means of a pictorial diagram, as to their practical application in South Africa, a country he knows well. He has based these on his personal experience of the conditions at the Pretoria Country Club, and of South African settlement schemes actually in working.

The Committee considers, however, it would be unwise to present that particular plan even as a rough basis for all Community Settlements which might be established in any part of the Empire. Nor does such a course seem at all necessary.

For the present the Committee's purpose will be served if it sets forth the main features which it is of opinion should govern any Settlement scheme.

Not until the Committee has obtained evidence (by means of direct enquiries addressed to it as set forth at paragraph 16 hereof), that there is a large demand for a scheme, based on the outline here presented, in any particular Dominion or Colony, and has been able to ascertain whether that demand can be met by landed and financial interests in that Dominion or Colony, will it be possible to give people who make these enquiries full and detailed particulars.

Having in mind the considerations and general principles set forth in the foregoing paragraphs, the Committee gives the following outline of the features of a Settlement, but the Committee does not guarantee that all of these features will or need be included, or included only in a modified form or that other features will not be included. (14)

The features in outline

(a) Communities of 50 to 75 households on leasehold tenure, with provision for a much larger number, say 150 or 200, to be settled gradually on permanent holdings in the immediate neighbourhood.

Settle
tenure

(b) Each settler to have the following rights:—

- (i) a lease of separate dwelling accommodation and a small holding for a fixed period not exceeding 5 years, with the privileges and amenities of a Club, at a fixed rent and subscription.
- (ii) an option at any time, within that fixed period, of purchasing a small freehold plot in the immediate vicinity with a separate house (to be built for him) on fixed terms providing for payment over a period of years by instalments not necessitating capital outlay; the purchasers continuing to be members of the Club.

Settlers will be liable only to agree to pay their rent and club subscriptions for the five years' lease, and a small limited fee towards the administrative expenses of the Committee. If they take up a freehold plot they will then become liable to pay the fixed annual instalments for purchase of land and erection of house.

(c) Living accommodation to be separate for each household in inexpensive but comfortable buildings suitable to the country and climate; rental to include plain essential furniture, bedding, light, services, etc.

Club facilities

(d) A Club House with a spacious dining room, providing full necessary meals at an inclusive charge per month. Social facilities through the Club for outdoor recreation and sport, e.g., lawn tennis, croquet, golf.

The social affairs of the Club to be regulated by an elected Committee of members.

small husbandry, etc.

(e) During the period of leasehold tenure, each household would have to rent a small holding on which small husbandry of various suitable kinds, e.g., poultry, dairying, apiary, market gardening, horticulture, etc., can be practised under the superintendence of a very carefully selected and well qualified Agricultural Superintendent. Payment for the services of this Superintendent included in the rent; he would undertake all heavy work necessary, e.g., ploughing, harrowing, for payment, and would also provide seeds, implements, etc., and other services against payment at low rates.

(f) Common grazing grounds, stables, garage accommodation, etc., against payment at low rates.

educational, etc.

(g) A school house and well qualified teacher for primary education—free of charge to the extent that primary education is given at the expense of public funds in any particular Dominion or Colony.

(h) Separate recreation and playgrounds for children.

(i) Where possible, access as day scholars to schools, colleges and universities for secondary and higher education.

N.B.—Generally speaking, it will be more feasible and, perhaps, cheaper, to arrange for secondary and higher education to be boarded.

(j) Services of a qualified medical man, at fixed rates for ^{Provision for illness.} I. C. Settlers, either on the spot or within easy call, to be available, also special accommodation for serious illnesses and qualified nursing.

The Committee thinks it may prove quite feasible to provide ⁽¹⁵⁾ under the Scheme, in some part of the Empire, for a family ^{Range of incomes necessary.} of a man, his wife and one child, with an income of not less than £250.

Fixed incomes of £500 a year and over should suffice in almost any part of the Empire for a man, his wife and two children. For people with incomes of £500 a year and children, it will hardly be possible to provide for any but a very moderate standard of comfort, certainly no luxury, from £250 to £750 a very fair standard of comfort but no luxury should be possible. At £800 upwards a high standard of comfort and even some degree of luxury should be quite feasible.

The Committee will regard it as its duty to endeavour, in the first place, to meet the requirements of those with the lower rates of fixed income, especially those who have children to educate.

Part IV—Procedure

The Committee has now set forth its outline scheme and has touched upon many of the points which may arise out of it. There remains to be made a most important statement, to show the Committee proposes to set about giving practical effect to the scheme it has outlined. ⁽¹⁶⁾ ^{Enquiries to be made by potential settlers}

As stated in the introductory part of this report, it is necessary in the first place, for the Committee to obtain a very fairly accurate idea of the extent of the demand there is for the scheme.

To ascertain this the Committee invites enquiry from all who are interested in the idea, of all small fixed incomes and are prepared to consider if possible whether immediately or within a year, the next financial year, subject to being satisfied with the exact terms and conditions which the Committee may be in a position to formulate.

The Committee must know if such individuals have a preference for any one or more particular part of the Empire, or if there is any particular part of the Empire which would in no case attract them.

For this purpose the Committee invites brief enquiries stating needed facts particulars and hopes they will be made so as to reach the Committee in London not later than the 15th July, 1925 though enquiries received at any subsequent date will also be of value.

To this report a form of enquiry is annexed, and the Committee will be prepared to supply on application any quantity of these forms, but a letter written on the same lines will serve the purpose equally well.

(17)

Subsequent
arrangements.

(a) When sufficient numbers of the enquiries have been received to give the Committee a fairly accurate idea of people's wishes and requirements, but not earlier than the 30th June, 1925, the Committee will proceed to ascertain how the demand can be supplied. This investigation is likely to take not less than six months.

(b) If the Committee is successful and, at the conclusion of the investigation, is in a position to proceed with the establishment of one or more Community Settlements, all those who have enquired for particulars will be given full detailed information as to the locality and conditions of Settlements for which the Committee has been able to make definite arrangements: e.g., the locality of the settlement, the actual sums to be paid by way of rent and subscriptions to the Club (which will cover board lodging, rent of agricultural holding and recreations) the exact terms and conditions upon which adjacent permanent plots with houses can be acquired, educational facilities and cost of education, the climate, social conditions, etc.

(c) With this detailed information will be sent an application form and an invitation to complete and return it accompanied by a registration fee, not exceeding £1. The completion of the application form will not bind an applicant to become a settler or incur any obligation.

(d) When the applicant is advised by the Committee that the application is approved and there is a vacancy in a Settlement, he will be required to enter into a contract binding him to conform with the rules of the Committee (these will be set forth), the regulations for the Settlement, and to pay regularly for a term of years the rent and subscriptions due to the Company with which the Committee has contracted to establish and maintain the Settlement. A solid financial guarantee for such payment, of a nature satisfactory to the Committee, will also have to be furnished.

(e) The settler's contract will include a provision whereby if, for any reason, he wishes to leave the Settlement before the expiry of the rental period, he will be relieved of the liability from and after the date on which the Committee can replace him and put another settler in actual residence. Possibly a settler will, in certain circumstances, be required to pay a small percentage of the unexpired portion of the rental and subscriptions due.

(f) Before an "accepted" settler actually embarks he will have to pay a further contribution towards the administrative expenses of the Committee—probably 1 per cent. of his declared fixed income, and in this 1 per cent. the registration fee may be included.

Conclusion.

(18)
The Imperial
Aspect.

The Committee has, so far, dealt in this report solely with the material aspects of Empire Community Settlement, and has presented its views and proposals from the purely practical point of view of the material interests of individuals. It would give an entirely false impression of the Committee's sense of its aims and obligations, were not allusion made,

however brief, to the Committee's conviction of the great value to the Empire as a whole of a system of Empire Community Settlement, if such a system can be firmly established on some such lines as are indicated in this report

"If here there is no union the people perish"

As has been seen, the men and women to whom this scheme will appeal are, in great part, of the Services—the Navy, the Army, the Civil Services, local and Imperial. We all know the "magnificent spirit" of the fighting services, but the same devotion to duty, though not always so clearly recognized, characterizes the Civil Services, whether in Great Britain itself, in the Britains overseas, or in the countries under British protection. In all alike, when a man's active service is done, the spirit in which it was done is too often dimmed up and, like water which is not flowing in natural channels, turns either stagnant or destructive.

Empire Community Settlement will give this unspent energy a fresh outlet, and make it more than ever a fertilizing force. Southern sunshine, the spirit of new environment, will stimulate impersonal hopes and ambitions for the future of his children and his race which years and cares may have dimmed for the man himself.

That unconscious reference and looking to the Mother Country for a standard which is characteristic of the Dominions will stimulate the newcomer to live up to the high level of her best traditions, while the experiences and outlook of his neighbours, the old inhabitants, will open to him a door into hitherto unknown regions and broaden his sympathies.

Thus there will come on both sides a more real understanding of the common weal of the British Empire, a better sense of the true community of Empire for the highest purposes. On that must follow such a quickening of the spirit, such a growth of sympathy between and among all the widely scattered branches of the British race, kindred races of European origin and native races within the Empire, that every corner of the World will feel the inspiration and be touched as a blossom with the new life of Spring.

2. Confirming and reviewing authorities will deal with the proceedings of Courts-Martial as promptly as is possible. Proceedings will as a rule be despatched to the Deputy or Assistant Judge Advocate General not later than the day after promulgation or, in the case of an acquittal in a trial under the Army Act, the day after they have been seen by the Officer who

would have been a confirming officer had the result been conviction. Proceedings reported on by the Deputy or Assistant Judge Advocate General before being dealt with, or proceedings under the Army Act the result of which was acquittal, or under the Indian Army Act the result of which was a confirmed acquittal may be retained for the shortest time necessary to the institution of inquiry into or disposal of, collateral matters. In other cases the Deputy or Assistant Judge Advocate General will if the proceedings are required back, be asked to return them after review to the officer requiring them. Whenever possible the return of proceedings is to be avoided. This can usually be done by taking extracts from the proceedings before transmitting them to the Deputy or Assistant Judge Advocate General.

I A O. 771.
5th Sep.
1925.

3 The report to the Judge Advocate General in India will be made immediately it is known that a soldier who has been tried by a Court Martial is to be sent to the United Kingdom within three months of the date of promulgation of the sentence or, where there is acquittal, of the date of acquittal.

Judicial—When the proceedings of a Court Martial disclose a breach of King's or other Regulations on the part of individuals other than the accused (e.g., that money had been placed in the custody of the accused contrary to regulation) or where allegations as to irregularities, or statements as to the mental condition (or fitness for service) of the accused, have been made, either in mitigation of punishment or otherwise in the proceedings, enquiry will invariably be made into the matter and such action as appears necessary taken.

I A O. 772.
A/34668
A O. 8.

2 In such cases a certificate stating that action has been, or is being, taken to enquire into and deal with the matter will invariably be attached to the proceedings by one of the following officers—

The Confirming officer, or

The officer who would have dealt with the proceedings, had confirmation been required, or

The superior officer to whom the matter may have been submitted in cases in which either of the above officers is not competent to take action.

3 Where the confirming officer or officer who would have dealt with the proceedings had confirmation been required is not competent to deal with the matter himself (e.g., where such officer is the Officer Commanding a Station and the action required would be interference in a Brigade matter), he will, in transmitting the proceedings to the Officer Commanding unit for promulgation, attach a memorandum addressed to the Deputy or Assistant Judge Advocate General of the Command, requesting him to transmit the proceedings, after review, to the Officer Commanding the Brigade or other specified superior authority having power to deal with the matter and this officer will attach the necessary certificate.

I.A.O. 772. 4. The transmission of proceedings is not to be unnecessarily delayed for the purposes of inquiry into such collateral matters. 5th Sep. 1925. Where necessary, extracts will be made from the proceedings and the latter promptly transmitted to the proper officer of the Judge Advocate General's Department.

5. Where proceedings which disclose irregularities or allegations that appear to require investigation are received by Deputy or Assistant Judge Advocates General without either the certificate mentioned in para. 2 above, or the memorandum referred to in para. 3 above having been attached, these officers will submit the proceedings to the General Officer Commanding-in-Chief of the Command. The General Officer Commanding-in-Chief will either take such extracts as he may require and attach the certificate to the proceedings, or, if the matter does not appear to require investigation, will attach a note to that effect; in either case returning the proceedings promptly to the Deputy or Assistant Judge Advocate General.

6. Army Regulations, India, Volume II, will be amended in due course.

I.A.O. 773. Officers.—Extract from War Office letter No. 33-India-867 (M.S.-1), dated the 25th November 1922, regarding the conditions of appointment of British Service officers as military Aides-de-Camp (permanent and extra) on the personal staff of Governors and Chief Commissioners in India, is re-published below.

Extract from War Office letter No. 33-India-867 (M.S.-1), dated 25th November 1922, to the Under Secretary of State for India.

The Army Council regret that they are unable to agree that British Service officers holding appointments as Aides-de-Camp to Governor, Lieutenant-Governors and Chief Commissioners should be placed on an equal footing with officers of the Indian Army in the matter of their service while Aides-de-Camp counting as if the holder of the appointment was at ordinary military duty.

At present British Service officers holding such appointments within the established number of Aides-de-Camp laid down by regulation are classified under Article 92 (b) of the Royal Warrant, which means that these officers are allowed to count their service towards pension and promotion provided they return to the Army for 3 years after their appointment. Officers holding the appointments mentioned above—Governors, Lieutenant-Governors and Chief Commissioners under the provisions of Article 92 (c) of the Royal Warrant—cannot count their service as such count towards pension or promotion.

The Council do not wish to alter these rules, which determine the status of Aide-de-Camp and Extra Aide-de-Camp respectively, not only in India but in the Colonies, but they would raise no objection if the Secretary of State for India in Council saw fit to increase by one Aide-de-Camp the number provided by regulation for the above mentioned Governors, etc. In that event a British Service officer now an Extra Aide-de-Camp (class 'C', Article 92, Pay Warrant), might be brought within the establishment and thus automatically reckon subsequent service under the terms of class 'B', Article 92. Similarly, the possibility of making future appointments under the terms of class 'B' would be merited.

I A.O. 773
5th Sep
1925.

The Council would be glad if the Secretary of State for India would make the above mentioned rules known to the Government of India, so that a Governor may be fully aware of the consequences to a British Service officer when he offers him an appointment as Aide-de-Camp or Extra Aide-de-Camp on his Staff.

1 With reference to Chapter X, Educational Training 1923, the final competitive examination, conducted by the War Office, for entrance to the Model School, Aldershot, has now been held. In future years a pupil teacher to be eligible for appointment to that school must have passed the preliminary examination for the Board of Education certificate (or some other examination accepted by the Board of Education in lieu thereof), and have completed two years training in an Army School.

2 Chapter X, Educational Training 1923, is now under revision. Meanwhile pupil teachers who will have completed the required service as such, and who desire to be considered for admission to the Model School in 1926, will present themselves at the preliminary examination for the teacher's certificate which will take place in December 1925 (see A C I 457 of 1924) unless they have already qualified.

3 The normal number of vacancies at the school each year is 16. A selection will be made from qualified pupil teachers who are recommended in accordance with the conditions which will be laid down in the new Chapter X Educational Training.

I.A.O. 789. Language Examinations—Results.—The results of examinations held under the provisions of the 'Indian Regulations relating to the study of Foreign and Indian Languages, 1922' and Army Instructions (India) Nos. 508 of 1923 and 1047 of 1924, are published as an Annexure to this Order.

In the Annexure to India Army Order No. 502 of 1925, para 3, for "Jemadar Maufuz Ali, I. A. S. C." read "Jemadar Mahfuz Ali, I. A. S. C."

I.A.O. 780. Board of Education Teachers' Certificate Examination—Army Council Instruction No. 394 of 1925 is republished below.

19410
G.S.M.T.-2

Army Council Instruction No. 394 of 1925.

1. The Board of Education will hold a certificate examination for acting teachers for the last time in November 1926. All uncertificated Army Schoolmistresses are advised to present themselves for this examination as there will be no further opportunity for them to become certificated by means of these examinations. After November 1926, attendance at a recognised training college will be the only means by which the Board of Education Teachers' Certificate can be obtained.

2 No examination will be held in 1925.

I.A.O. 781. Correspondence—Telegrams—The following abbreviated telegraphic address has been registered and will be brought into use with effect from the 25th August 1925.—

Indian Signal Corps.

The class composition of the following units as shown in India Army Order No. 846 of 1924 is amended as follows:—

"A"
"B"
"C"
"D" } Signal Troops

"D" Divisional Signals

For Rajputana Rajputs

Punjabi Musalmans.

For ½ P. M.'s and ½ Rajputana Rajputs.

½ P. M.'s and ½ Dogras.

"G" Divisional Signals ..

For ½ P. M.'s and ½ Dogras
read

2 The above change in class composition renders a large number of Rajputana Rajputs an unauthorized class in Indian Signal Units. All men of this class, as well as of all other classes rendered unauthorized under India Army Order No 846 of 1924 and still serving in the Indian Signal Corps are hereby permitted at the direction of their Commanding Officers with the concurrence of the local commander, and in consultation with the Commandant, Signal Training Centre and Depot, Jubbulpore, to take their discharge if they wish to do so, irrespective of the fact that they may not have completed the period of their original engagement. *It is emphasized that necessary will however, not be admitted to maintain their discharge under this order.*

I A O 792
12th Sep
1925

3 The above order offers a favourable opportunity to other units of the Indian Army of obtaining trained signallers on transfer if and when their services can be spared, and Officers Commanding Units are advised to get into touch with the Commandant, Signal Training Centre and Depot, Jubbulpore, with a view to obtaining such transfers where possible.

4 In addition to Rajputana Rajput men of the following unauthorized classes are serving in the Indian Signal Corps —

Hindustani Musalmans
Maharattas
Gurkhas
Garhwahs
Rajputs
Jats
Ahirs
Gujars

ANNEXURE No 1 to INDIA ARMY ORDER No. 798 of 1925.

1. The following revised procedure for the issue of Training Manuals in English has been taken into use :—

- (a) When a Training Manual is ready for issue, an I. A. O. will be published announcing this fact and stating on which scale it will be distributed.
- (b) Manager, Central Publication Branch, Calcutta, will be informed before issue of the I. A. O. of the number of copies of this manual to be sent to all concerned. No indents in the first instance will be rendered.
- (c) Supplementary indents will be forwarded to the Chief of the General Staff, Army Headquarters, through proper channel.

The Brigade, District and Command Headquarters should carefully scrutinise indents received from units for various publications after the initial issue has been completed.

It is considered that once the initial supply is made and provided books are used carefully, it should be unnecessary to submit supplementary indents except in exceptional cases.

- (d) Indents for manuals on payment can at any time be submitted direct by units to the Manager, Central Publication Branch, Calcutta.

2. The statement published in Annexure 2 shows the number of English Training Manuals which will be supplied to units. The numbers will of course vary in accordance with the scale of issue authorised.

INDIA ARMY ORDERS.

Accounts—In supersession of the instructions issued in I A O 829. India Army Order No 789 of 1924 as amended by subsequent I A O's the following rules will be observed in regard to the payment and the issue of last pay certificates of drafts and details of British troops proceeding to the United Kingdom or a Colonial station on transfer to a unit serving there or for discharge or transfer to the Army Reserve

22nd Sep
1925
A/3541o
A.G 3

These rules will not however apply to soldiers of the India Unattached List, Annexure H details the procedure to be observed in respect of Regimental soldiers granted furlough

2 It is essential that every regimental soldier in India be attached to a unit for pay and discipline, no matter how employed. In the event of any soldier arriving in the Overseas Rest Camp, Deolali or Karachi, not borne on the strength of a British Unit in India, full particulars of the case will be reported by wire to the Adjutant General in India, such personnel being attached for pay to the permanent establishment of that camp. This does not apply to details, etc, *ex Iraq* or from any station beyond Indian limits

3 All drafts and details inclusive of regimental furlough details proceeding to the United Kingdom or a Colonial station with the exception of those ordered to embark direct from the stations of Bombay and Karachi, in regard to whom see Annexure G, will normally pass through the Overseas Rest Camp, Deolali or Karachi. Under exceptional circumstances orders may be given for troops from stations other than the above to embark direct, these cases will also be dealt with under Annexure G. Under normal arrangements, units will be informed, at least 10 clear days before the date of sailing of a transport, of the number of passages allotted to them, the name of the transport and the probable date of sailing. Small numbers of extra men will also be ordered to Overseas Rest Camps without orders being passed for them to sail by any particular transport. These men will be allotted to transports by the Officer Commanding, Overseas Rest Camp. Special instructions in respect of these men are given in Annexure A

4 In cases in which the date of embarkation of a soldier is altered, the following procedure will be observed —

- (a) If the alteration takes place before the soldier leaves his unit, documents already issued will be cancelled and the fact of such cancellation will be intimated to the Officers to whom they were issued. Fresh documents will be prepared when the soldier eventually does leave the unit
- (b) If the soldier has left the unit but has not reached the Overseas Rest Camp, the Officer Commanding the hospital or other unit *en route* in which the soldier is detailed will at once communicate the fact to the

soldier's unit and the Officer Commanding, Overseas Rest Camp concerned. The Officer Commanding the soldier's unit and the Officer Commanding, Overseas Rest Camp will be informed of the date on which the soldier eventually resumes his journey to the Rest Camp and fresh documents will be issued from this latter date. On fresh documents being issued the original documents should be cancelled as prescribed in paragraph 4 (a).

5 No change is made in the existing orders in respect of complete units leaving India except as provided for in India Army Order No. 181 of 1923.

6. Further complete detailed orders in respect of each officer concerned are given in the attached appendices.

7. A F.O. 1809-G. (modified for India) is under revision. Immediately on receipt of this India Army Order formations will submit indents for copies of the revised form to the 2nd Deputy Controller of Printing, Stationery, and Stamps (Forms Store), 166, Dharamtala Street, Calcutta. The envelopes containing the indents, and the indents, must be marked "Immediate" in block letters in red ink. Arrangements have been made for prompt compliance with indents. This form must be kept separate and not placed with other documents.

All obsolete A F's O.-1809-G. will be destroyed and no locally printed forms should be used.

J. S. SHEA, *Lieut.-General,*

Adjutant General in India.

ANNEXURE "A" TO INDIA ARMY ORDER No 829 of 1925

Instructions for Officers Commanding Units except as regards regimental furlough details

1 On receipt of orders for a draft to proceed to the Overseas Rest Camp for embarkation on a particular transport, the Officer Commanding unit will publish in Part I Orders the names of the soldiers leaving India by that transport and the date on which they are due to embark. Copies of these orders will be furnished immediately to (1) the Unit Accountant, (2) the Deputy Assistant Controller of Military Accounts, Overseas Rest Camp, Deolali, or the Controller of Military Accounts, Sind Rajputana District, (3) the Officer Commanding, Overseas Rest Camp, Deolali or Karachi, and (4) the Embarkation Commandant concerned. *It is of paramount importance that these instructions regarding the supply of copies of Part I Orders to the Officers mentioned above be strictly adhered to*

2 In accordance with paragraph 1112 of the King's Regulations for the Army, (1923 edition) the Embarkation Commandant concerned has to divide all passengers into four categories, viz. —

Category (1) Officers and accompanying families

Category (2) Other ranks and accompanying families

Category (3) Unaccompanied families

Category (4) Non entitled passengers other than indulgence passengers

As regards category (1) the information will be furnished to the Embarkation Commandant concerned by Army Headquarters

Category (2) Other ranks have to be grouped under 8 headings, vide paragraph 1101, King's Regulations for the Army (1923 edition) and it has to be stated whether or not public quarters are required on arrival in Great Britain. Great care must be exercised in collecting and compiling complete and accurate information in this respect for publication in Part I Orders

Category (3) Information concerning unaccompanied families of officers and warrant officers will be furnished to the Embarkation Commandant concerned by Army Headquarters. The information concerning the unaccompanied families of other ranks must also be published in Part I Orders

Category (4) Information required under this category will be furnished to the Embarkation Commandant concerned by Army Headquarters

3 Nominal Rolls of Soldiers referred to in paras 4 and 6, Section I, A C I-440 of 1922, reproduced as an Appendix to Special I. A. O 46 S of 1922, will be prepared in quadruplicate by the O C and despatched to the Embarkation Commandant concerned

4 Immediately on receipt of Part I Orders (see paragraph 1 above) the Unit Accountant will make up the accounts of the soldier to and for the date preceding that fixed for embarkation including pay and all special allowances due to, and all stoppages due by, him, but no voyage money will be credited to the soldier's account

Part II Orders subsequently issued will be checked by the Accountant with the Original Part I Orders and all discrepancies will be dealt with.

A. F. O.-1809-G. (modified for India) is now revised and this revised form will be issued in triplicate for each soldier whose name appears in the Part II Orders.

The list of triplicate A. Fs. O.-1809-G. so prepared will also be checked with the nominal rolls referred to in para. 3 above when it will be seen that no names have been omitted.

5. A. F. O.-1809-G will be prepared and despatched as follows :—

(a) The soldier's account will be calculated up to and for the date preceding that of embarkation. If the credit balance is in excess of Rs 100, the Unit Accountant will ascertain from the Company Commander whether the soldier wishes any part of this amount to be remitted to his destination by means of I. A. F. A.-602, but if his credit balance is less than Rs 100 the whole amount must be disbursed in India. The amount which it is desired to remit will be entered in the space provided in Part I (B) of A. F. O.-1809-G. and the remittance will be made by the Deputy Assistant Controller of Military Accounts, Deolali, or the Controller of Military Accounts, Karachi. No alterations in this amount will be allowed after the soldier has left his unit. The balance of the amount at the soldier's credit will be entered in the space provided for the purpose in A. F. O.-1809-G. for payment to the soldier while in the Rest Camp. This amount will be reduced to small dimensions by making payments to the soldier before he leaves his unit if he does not wish to remit.

Attention is drawn to the orders regarding the elimination of pies from Government accounts.

(b) The soldier must be paid at the Overseas Rest Camp two-thirds of his net pay from the date of leaving his unit to the date preceding embarkation if his account is in debt or if his credit balance is less than such two-thirds. This sum, two-thirds of the net pay, must, in these cases, be shown in the space provided for the purpose in A. F. O.-1809-G.

(c) All particulars in Part I of A. F. O.-1809-G. must be filled in carefully checked and signed by the Officer Commanding and the Unit Accountant. It will be understood that these details are required to enable the Overseas Rest Camp to issue the last pay, certificate and to make any necessary payments if the man's embarkation is delayed.

To facilitate checking and sorting of the documents by the O. C. Overseas Rest Camp, A. F. O. 1809-G. will be arranged by Officers Commanding Units in the same order as the names shown on the duplicate nominal rolls which accompany the drafts. These rolls should merely show the unit and numbers, ranks and names of the soldiers.

(d) The Officer Commanding will see that sums noted for the Overseas Rest Camp to arrange for payment or remittance to the United Kingdom are separately entered in the monthly pay list with an appropriate remark, and the Unit Accountant will accept debit for these amounts from Deputy Assistant Controller of Military Accounts, Deolali or the Controller of Military Accounts, Karachi.

NOTE—All details passing through the Overseas Rest Camp are required to pay messing charges of 3½ annas per diem, except Warrant Officers and Serjts, who have to pay 12 annas. If a soldier does not desire to receive any cash payment at the camp, a sufficient sum to cover his messing charges should be shown by the Unit as payable at the Camp. Soldiers in debt are entitled to two thirds of their net pay plus messing allowance from the date of leaving unit to date preceding embarkation. Sums sufficient to cover these charges should also be shown as payable at the Rest Camp.

- (e) A duplicate covering list of A F's O-1809 G as on the attached form will be prepared, only the first four columns being filled in by the Unit Accountant.

The above documents will be disposed of as follows —

The three copies of A F's O 1809 G together with the covering lists referred to in (e) above will be sent in a sealed envelope clearly specifying the contents, to the Officer Commanding, Overseas Rest Camp, in charge of the Officer in charge draft. In the case of details or small parties the forms will be sent by registered post, and will invariably be despatched before the men leave their unit.

No other document except the above should be placed in the same envelope.

- (f) When the probable date on which a draft or details will embark is not known A F's O 1809 G should be made up to the date preceding the sailing of the next transport, after the soldiers leave their unit. Any corrections found necessary afterwards should be made at the Rest Camps.

8 In the event of a telegram being received from the Officer Commanding, Overseas Rest Camp, stating that a man has arrived without A F O 1809 G, the Officer Commanding will at once notify the Officer Commanding Overseas Rest Camp by telegram the amount payable to the man at the Overseas Rest Camp for the period prior to embarkation (stating date of embarkation). He will ensure that three copies of A F O 1809 G are prepared as detailed above and forwarded at once to the Officer Commanding Overseas Rest Camp.

7 The only documents required to be prepared by Officers Commanding under this order, in respect of men proceeding to the Overseas Rest Camps, are as follows —

- (a) Quadruplicate nominal rolls, *vide* para 3 above
- (b) Duplicate nominal rolls, *vide* para 5 (c)
- (c) Triplicate A F's O 1809 G
- (d) Duplicate covering lists, *vide* para 5 (e)

8 If men are ordered to proceed from a unit for embarkation direct without passing through a Overseas Rest camp, they will be dealt with as laid down in Annexure G.

9 These rules do not apply to men proceeding out of India on furlough or to men who have taken their discharge in India.

10 In respect of extra men ordered to proceed to Overseas Rest Camps and whose passages will be allotted on their arrival in that Camp, the date of embarkation for the purpose of the preparation of A F O 1809 G will be assumed to be the date of sailing of the first available transport.

11 On no account will cash currency notes or cheques be sent to the unit to the Overseas Rest Camp in respect of the pay of any proceeding for embarkation.

12. For the *re* regarding furlough details, see A

During this probationary period men who are considered as unlikely ever to become efficient signal tradesmen or who mis conduct themselves may, at the discretion of the Commandant, Signal Training Centre and Depot, be reverted to their original unit, as soon as a vacancy exists pending which they will be borne on the establishment of the Indian Signal Corps and counted against the authorised establishment

4 On completion of the probationary period, men who show promise of training up to the necessary standard and who are recommended will be finally selected for permanent employment with the Indian Signal Corps and will, pending transfer to the Royal Corps of Signal be transferred to the non departmental section (signals) of the India Unattached List and will be subject to the rules which govern it (see A R I, Vol II Appendix XXVII and the instructions contained on I.A.F.U 1742)

(3) and (7) and page 44 paras (i) and (j)

3 Officers Commanding units will take steps to ensure that
all the above regulations are strictly complied with

Other Arms	Table T (India), Parts I and II

2 If it is impracticable to fire these courses owing to the lack
of range facilities or for other exceptional reasons, the course
may be modified or the trained soldiers course fired instead

L.A.O. 835. Holidays—Army Children's Schools.—With reference to 25th Sep. Chief of the General Staff's Circular Memorandum No. 13360/2-1925. M.T.-2, dated the 30th July 1924.

G.S.-M.T.-2

2. The present Christmas holiday in British Army Children's Schools of 28 days may, at the discretion of the General Officer Commanding Districts, be curtailed. The number of days by which it is curtailed may be added to either of the other holiday periods authorised, or be utilised to provide a school break during the hot weather. In no case will the total number of days holiday in the year be exceeded.

A.D. 836. Regimental Conferences—Indian Army.—Reference Army Instruction (India) No. 449 of 1924, and India Army Order Nos. 59 and 422 of 1925.

A./35512
A.G.-2

The annual regimental conference, 8th Punjab Regiment, will be held at Lahore on the 27th and 28th November 1925.

I.A.O. 837. Reports on Reserve Training 1925-26.—On completion of Reserve Training, 1925-26, Officers Commanding Reservists will compile reports on the form shown as an Appendix to this Order, and submit them, through the usual channel to Command or Independent District Headquarters.

A./35534
A.G.-2

Command Headquarters and Burma District Headquarters will compile reports on a similar form for :—

Indian Cavalry by Groups

Artillery as a whole.

Sappers and Miners as a whole.

Signals as a whole.

Infantry and Pioneers by regiments, and submit them to Army Headquarters.

I.A.O. 838. Soldiers Service I A—Enrolments—Indian Cavalry.—The attention of Officers Commanding Indian Cavalry Regiments is drawn to *Gazette of India*, Army Department Notification No. 1130 of 14th August 1925, making amendments to the Indian Army Act Rules in order to bring the procedure in regard to Cavalry enrolment into line with that of all other "Corps" of the Indian Army.

1/19823
A.G.-5.

2. Pending revision of Enrolment Form No. 1 (I.A.F.K. 1162) question 12 will be omitted since the "Corps" to be entered in question 10 is now the *group* for which the recruits are enrolled and not, as heretofore, the *regiment*. For example, the Officer Commanding the regiment, say, the 1st Duke of York's Own Skinner's Horse will, when he entails a recruit, enter in

answer to question 10 of the enrolment form "1st Group of I A O 832. Indian Cavalry" in tead of '1st Duke of York's Own Skinner's 25th Sep 1925 Horse"

3 The significance of the above amendments is that, whereas formerly a recruit was enrolled in a particular Cavalry regiment but was required to express his willingness to serve in any other regiment of the group if required to do so, he will in future be enrolled for the Cavalry group as a whole but will be entered on the books of the regiment which enrolled him until regularly transferred if such transfer is necessary

The change introduced by the Gazette notification in no way increases the liability of a cavalry soldier to be transferred to a regiment other than that in which he originally was enrolled, and each Commanding Officer of a regiment in the group will, as heretofore, enrol recruits for his own regiment only

2 The M E Services will however, be responsible for the supply of articles of peace furniture to depots and non field units. No provision of these articles will be made in peace unless specially laid down in the regulations—but they will be provided from the articles made available from barracks, etc., vacated on mobilization

3 The M E Service will be responsible for providing such articles of technical furniture as are their source of supply in peace and as are laid down in War Equipment Tables e.g., Thresh Disinfectors etc

2 Paragraph 109 A is supplementary to paragraph 108 and governs cases in which it is not obligatory to maintain one or more chargers or a conveyance but in which it is considered necessary from the point of view of efficiency and in the interests of the public service that such chargers or conveyance should be maintained for the discharge of an officer's public duties. Subject, therefore, to the prescribed conditions, a competent authority may, under paragraph 109 A, sanction conveyance of chargers, motor car, motor cycles or cycle up to the authorised limits if he is satisfied that the possession of the same is necessary from the point of view of efficiency and that it is in the interests of the public service that they should be maintained by the officer in the post he is proceeding to join

For journeys involving a move from one Command or Independent District to another the question as to whether the grant of conveyance in special cases under this rule should be authorised or not will be decided by the competent authority of the Command or Independent District to which the individual is proceeding

3 As a general rule conveyance, up to a maximum of two, is sanctioned for the number of chargers in respect of which an individual draws pay and forage allowance. A G O C-in-C of a Command or an Independent District Commander in exercising his powers as a competent authority can only issue a general order for movements within his own command, and if one is issued it should be based on the principles detailed above

4 In exercising his powers a competent authority should invariably consult the Controller of Military Accounts concerned and the latter should bring to notice any instances in which he considers that the sanction accorded by the competent authority is in contravention of the spirit of the rules

Consequent on the decision that fuzes No 101-E will not be fired at practice and in order to (a) effect a turnover of the No. 101-E fuzes on unit charge and (b) reduce the number of makes on charge, when issues are made of No. 109-E fuzes for practice, units will return to arsenal a similar number of No. 101-E fuzes of mixed lots and makes irrespective of age, care being taken not to break up large groups by one maker.

It is more important to reduce the number of small lots of different makes on unit charge than to get rid of the *oldest* lots, as most of the 101-E fuzes are approximately the same age, whereas, as there are many small lots of different makes on charge. Excluding a few odd lots, there are only 5 makes, viz.—R. L., N|P., F-3, F-7, and F-11.

2. The No. 101-E fuzes returned by units will be converted in arsenals to 109-E fuzes for the next seasons practice and arsenals will issue in replacement, fuzes of the same make as the largest group of any make remaining on charge of the unit, irrespective of lot number and date, subject to any fuzes of 1916 manufacture being retained for conversion to No 109-E

3. Arrangements will be made to exchange fuzes between units in the same brigade and then, if necessary, in the same district, assisted by the D A D O S of the district, with a view to each unit being left, if possible, with only one make of No. 101-E fuzes on charge

IAO 893 Forms—Certain units have obtained copies of A F B 103, 10th Octr 1925 Part II, from the Deputy Controller, Forms, Calcutta

3 The units concerned will return copies of this form direct to the Deputy Controller, Forms, Calcutta, who will after a period of two months from the date of this India Army Order report the non receipt of these forms, if any, to the Adjutant General in India

 A G 13 Army Order No 438 of 1920, referred to therein, was reproduced as an Annexure to India Army Order No 61 S, dated the 20th November 1920.

ARMY COUNCIL INSTRUCTION NO 443 OF 1925

National Health Insurance—Payment of Maternity Benefit to the Wives of Soldiers—Cases have been brought to notice in which payments of maternity benefit in respect of the commencement of the wives of soldiers who are members of approved societies, and are shown as such on A F O 1547 or A F O 1847 A, have been made by both the competent authority and the approved society.

2. With a view to avoiding such double payments of benefit in the future the attention of all concerned is directed to paragraph 14 of Army Order No 138 of 1920. The procedure set out in that paragraph should be strictly observed in all cases.

Invaliding—British Army.—Considerable misunderstanding and inconvenience is being caused in the case of families invalided to the United Kingdom owing to the failure of medical officers to appreciate the conditions under which medical treatment, particularly in hospital, can be afforded to women and children. I.A.O. 900.
15th Oct.
1925.
Z/2890
D.M.S.

Many instances occur in which invalid families are recommended for admission to hospital for operative or other treatment. This recommendation is recorded on the medical board proceedings and the patient is under the impression that the necessary arrangements for treatment will be made by the military medical authorities.

Women and children may only be afforded medical attendance under the conditions laid down in paragraph 46i, Regulations for the Medical Services of the Army and that admission to hospital is governed by paragraph 51i *et seq* of those regulations.

On arrival in the United Kingdom, women and children who are fit to travel proceed direct to their homes, which, in many cases, are not within the prescribed radius laid down in the above quoted regulations.

When women and children on the married quarters roll are invalided to the United Kingdom they should be informed that they must make their own arrangements for medical treatment unless the conditions prescribed in the above regulations are complied with.

[War Office letter No 24] General 8607 (A.M.D.-2), dated 24th August 1925]

PART IV—Explanations and orders to bring the new conditions of service into effect

3. The effect of these orders is to make the terms and conditions of service of the Indian Infantry and Pioneers (except Gurkha Groups and 4th Hazara Pioneers) generally applicable to all the remaining branches of the fighting service.

4. Copies of this India Army Order and of Army Instructions (India) Nos. 956, 958, 959, and 973 of 1925, are being issued separately to all units concerned.

J. S. SHEA, Lieut -Genl.,

Adjutant General in India

ANNEXURE TO INDIA ARMY ORDER No 947 OF 1925

Instructions and procedure relative to the new terms of service, applicable to Indian Cavalry, Royal Artillery (excluding those of the Indian Heavy Battery), Sappers and Miners and the Indian Signal Corps

PART I

1 Army Instruction (India) No 959 of '1925, has now altered the period of enrolment of soldiers of certain arms as follows:—

Arm	Minimum army service—years	Period of combined Army and Reserve service—years
Cavalry	7	15
Royal Artillery (Excluding Indian Heavy Battery)—		
Gunners	6	15
Drivers	5	15
Sappers and Miners (Excluding Burma Sappers and Miners)	7	15
Burma Sappers and Miners	5	15
Indian Signal Corps	8	15

From the above it will be seen that in future, on enrolment, a man renders himself liable for 15 years' combined army and reserve service, of which a compulsory minimum period will be spent in army service (i.e., with the colours).

2 Men now serving cannot be compelled to vary the terms of their original engagement. Every endeavour will, however, be made by commanding officers to induce men to undertake, voluntarily, the new conditions.

The procedure to be adopted in the case of men now serving on a four years' engagement and who are willing to accept the new conditions depends on the enrolment form on which they were enrolled.

Certain men now serving are eligible to accept the new terms at once. Others can only do so at the time of their transfer to the reserve. This is fully explained in Part III, paragraphs 2 and 3 respectively.

Alteration of
conditions of
service by men
now serving.

3 Under the new conditions of service and subject to his ^{Extension of} being medically fit for service a substantive non-commissioned ^{army service.} officer on completion of the period of army service for which he enrolled :—

- (a) has the right to extend to complete 15 years' army service, or,
- (b) subject to the approval of his commanding officer may be permitted to extend his army service for periods of 2 years at a time until he has completed 15 years' army service. On the expiration of any such period he will, if still a substantive N. C. O., retain the right to extend to complete 15 years' army service.

NOTE.—In cases where the army service is for an even number of years, men who complete 14 years' army service by the biennial extension of service may extend their service by 1 year to complete 15 years' army service.

A substantive non-commissioned officer (other than one originally enrolled on a four years' engagement, who has not varied his conditions as to discharge) who does not extend his army service is liable, on completion of his army service or of any period of limited extension of army service, to be transferred to the reserve as a private (i.e., as sower, gunner, driver, sapper or singalman as the case may be). If no vacancy exists in the reserve he will be discharged.

Subject to such restrictions as may be laid down, any other soldier may, at any time, when in the last year of his army service, whether original or extended period, be permitted by his commanding officer to extend his army service for 2 years until by successive extensions he is no longer liable to serve in the reserve. He will, however, be liable to be compulsorily transferred to the reserve at the conclusion of any such period provided he has not more than 13 years' service and a vacancy exists in the reserve.

A soldier of 13 years' service is not to be compelled to go to the reserve but may be transferred thereto voluntarily. Permission to extend army service is only to be given to soldiers who are of good character, efficient and medically fit for service abroad. The case of a soldier of 13 years' service who does not reach this standard but wishes to extend his army service will be referred to the brigade commander.

The period to be served in the reserve will be 15 years less the number of years already served in army service.

A soldier will not be permitted to extend his army service after being sent to India from abroad for transfer to the reserve.

4. A soldier, if medically fit for service, will be permitted to continue in army service beyond 15 years, subject, in the case of havildars and others ranking as such, to the veto of ^{Continuous} an officer having power under the I. A. Act of an O C a ^{army service} ^{beyond 15} ^{years.} Brigade, and in the case of other soldiers at the discretion of the commanding officer.

Discharge after
15 years army
service

5 A soldier who has continued in army service he will 15 years will have the right to be discharged within 3 months of the date of applying for discharge, provided that war is not imminent or existing and that the squadron, battery, company, establishment or unit to which he belongs is not 10 per cent below establishment.

A commanding officer is authorised at any time to discharge a soldier below the rank of havildar who has continued in army service beyond 15 years. Discharge will be earned under item (iii) (b) or (xiii) (b) of the table contained in the I A Act, Rule 13.

Transfer to the
reserve general

6 Men who have accepted the new terms and those enlisted in the future who are *unwilling* or, not having the right to do so, are not permitted to extend the period of their army service, shall be transferred to the reserve if a vacancy exists to complete the remaining period of their 15 years' engagement. If no vacancy exists in the reserve such men will be discharged under item (xiii) (c) of the table contained in the I A Act, Rule 13.

PART II

Terms and conditions of service for the reserves of Indian Cavalry, Royal Artillery (excluding the Indian Heavy Battery), Sappers and Miners and the Indian Signal Corps

1 The following revised terms and conditions for the above mentioned reserve are in supersession of those contained in India Army Order No 20 S of 1920 (as amended by India Army Orders Nos 493 and 36 S of 1920, etc, etc)

2 (a) **Organisation**—The reserve will consist of private soldiers only, non-commissioned officers will be admitted to the reserve only as privates.

(b) There will be two classes of the Reserve—Class "A" and Class "B".

(c) **Class "A"**—Comprises men who have completed the prescribed period of army service and a period of combined army and reserve service not exceeding the minimum prescribed period of army service by more than 3 years, except in the case of the Burma Sappers and Miners whose period of combined army and reserve service may exceed the minimum period of army service by 5 years. [In other words, no reservist can remain for more than 3 years (5 years in the case of the Burma Sappers and Miners) in Class "A", the period being regulated by the time he has spent in army service.]

(d) **Class "B"**—Comprises all reservists other than those serving in Class "A". See also Part II, para 12 and Part IV, para 7.

(e) The following table shows the minimum period of army service for each class of soldier, and the maximum period of

army and reserve service for each class of the reserve :—

Arm.	Minimum period of Army service—years.	MAXIMUM PERIOD OF COMBINED ARMY AND RESERVE SERVICE FOR EACH CLASS OF THE RESERVE.		REMARKS.
		Class A	Class B.

Drivers ..	5	8	15	
Sappers and Miners (Except Burma Sappers and Miners)	7	10	15	
Burma Sappers and Miners	5	10	15	
Indian Signal Corps	5	8	15	

(f) After completing a period of 15 years' combined army and reserve service, a reservist will be discharged.

(g) As a temporary measure, until men serving at present as Class I and Class II, reservists in the reserve, as hitherto constituted, have completed their term of service, such reservists will be included in Class "B" of the new reserve, but will continue to serve under the terms laid down in Special India Army Order No 20-S, dated the 26th March 1920. No more Class I and Class II, reservists will be admitted to the reserve of Indian Cavalry, Royal Artillery, Sappers and Miners and the Indian Signal Corps.

7 Establishments—Reserve establishments are as follows—

Arm	ESTABLISHMENT OF RESERVE			REMARKS.

4 Direct enrolment into the Reserve—Direct enrolment into the reserve will not be effected unless specifically authorized by Army Headquarters, i.e., the reserve will be completed only by transfers of men who are still serving, and when they have completed their prescribed minimum period of army service (engagement, vide Army Regulations, India, Volume II para 161 (b))

5 Conditions of transfer—Transfers to fill existing vacancies in the reserve are compulsory for men accepting the new terms, provided that the soldier thus transferred has completed his minimum period of army service as now prescribed and does not exercise the right, if he has it, of extending that service. Such transfers will be carried out by Officers Commanding units (vide Army Regulations, India, Volume II paragraph 162 (B))

6 Officer Commanding Reservists—Men who have been transferred to the reserve, at once come under the control of the Officer Commanding Reservists (vide Army Regulations, India, Volume II, paragraph 163), who will maintain the records at the Reserve Centre. Reservists cease to be directly connected with the units from which they were transferred to the reserve.

7 Pay will be issued in accordance with the rules in Part and Allowance Regulations, Part I.

8 Reservists' Documents—In each reservist's certificate the class of the reserve ("A" or "B") to which a man is transferred will be entered in the penultimate column "Date of transfer to the reserve" with the date of transfer thereto (e.g. Reserve, Class "A", 15th December 1925). Subsequent to a similar entry will be necessary when the man is transferred to Class "B".

The books and documents referred to in paragraph 1-3, Army Regulations, India, Volume II, will be maintained by the Officer Commanding Reservists. A separate form (India Army Form 1 1952) will be maintained for each reservist in order to facilitate the transfer of documents when necessary. The two blank columns under the heading "Date of transfer to the Reserve" are intended for the two Classes "A" and "B". Copies of the form are obtainable on order in the usual manner.

9 Allowances admissible to, and establishments of followers for, training formations of Indian cavalry, artillery, sappers and miners and Indian signal corps are as laid down in Army Instruction (India) No 710 of 1924, as amended by Army Instruction (India) No 956 of 1925 and as laid down in Army Instruction (India) No 946 of 1924.

10 Calling up for training—As far as can be seen from the governing factor in deciding on the number of reservists to be called up for training at one time will be range accommodation available, and it is anticipated that this may possibly limit numbers. Obviously Class "A" reservists should not be trained with Class "B", and Class "B" reservists should

preferably be trained with men of that class who have a similar amount of reserve service. It is suggested, therefore, that reservists be called up in batches, Class "B", if necessary, being sub-divided into senior and junior categories according to length of service in the reserve.

It is realised, however, that it may not always be possible to adhere closely to this arrangement because it is necessary to fix dates for training with special reference to the convenience and agricultural necessities of the men to be trained, and that these conditions vary with the different classes of reservists.

In view of the strenuous nature of the training, it will be advisable to carry out the training during the cold season, but it may not be possible in every case to do this.

11. Periods of training.—The maximum periods of training are given in the table below :—

Arm.	MAXIMUM PERIOD OF TRAINING.	
	Class "A".	Class "B".
INDIAN CAVALRY .	1 month annually .	1 month biennially.
ARTILLERY.		
Horse, field medium—		
Gunnery and drivers	1 month annually	1 month biennially.

Drivers .	1 month "	1 month "
Frontier Brigade—		
Gunnery .	2 months "	2 months "
Sappers and Miners	3 months "	2 months "
INDIAN SIGNAL CORPS ..	2 months "	3 months "

12. Transfer from Class "A" to Class "B" and vice versa.—Reservists of Class "A" who, during their training, show that they are below the standard of efficiency required of them may, at the discretion of the Officer Commanding Reservists, be relegated to Class "B" whilst their place in Class "A" may be taken by efficient reservists of Class "B", provided that they are eligible by the extent of their combined army and reserve service to serve in Class "A".

PART III

DOCUMENTS

1 Enrolment.—Subsequent to the issue of these instructions all recruits, other than trans-frontier personnel and the special classes enumerated in Army Regulations, India, Volume II paragraph 128 [as amended by Army Instruction (India) No 959 of 1925] will be required to accept the set of conditions headed "Enrolment for Army Service and Reserve Service" when the latter is a necessary condition in the last question of the enrolment form, which will be completed to show an engagement for not less than the compulsory minimum period of army service prescribed in Army Regulations, India, Volume II, paragraph 128 (as amended) and for a further period in reserve service sufficient to complete a total period of 15 years' combined army and reserve service.

Trans-frontier personnel and the special classes enumerated in Army Regulations, India, Volume II, paragraph 128, as amended by Army Instruction (India) No 959 of 1925 will be required to accept the set of conditions headed "Enrolment for Army Service only" in the last question of the enrolment form transfer to the reserve, where such exists, being voluntary. The enrolment form will be completed to show an engagement for the period of army service prescribed in Army Regulations, India, Volume II, paragraph 128, as amended.

2 Acceptance of new terms of service by men now serving.—Men enrolled on Form No 1, as prescribed by Army Department Notification No 119 of 1922 (I A F K 1162) will be invited to vary their conditions as to discharge. Those who are willing to do so will be required to sign the "Variation of Conditions as to discharge (Special)" added to the enrolment form by Army Department Notification No 1092 of 1924 and amended by Army Department Notification No 1129 of 1925. This "Variation" is being issued as a separate slip which is after signature, to be pasted on to page 2 of the enrolment form.

Men who have thus accepted the new conditions, will be transferred to the reserve, if required, on the completion of the minimum period of their army service. The transfer to the reserve of such men will be recorded in the second portion of the item headed "Transfer to the reserve" on page 2 of the form under the sub-heading "(2) For use when the transfer is in accordance with the condition of the person's enrolment."

Serving men enrolled on Form No 1 (I A F K 1162) in use for the year 1912 inclusive until superseded by that prescribed by Army Department Notification No 119 of 1922 or on Form No 1 A (I A F K 1162 A) if there are any such, cannot while in army service vary their conditions as to discharge so as to accept the new conditions of service, but they can transfer to the reserve under the new conditions as explained in the next paragraph.

3. Transfer to the reserve of men enrolled on the I. A. F. K-1162 in use from the year 1912, inclusive till towards the end of the year 1921 or on I. A. F. K-1162-A.—Men enrolled on either of the enrolment forms noted in the margin who have completed, or have more than the minimum period of army service now required will be invited to transfer to the

Form No. 1 as prescribed by Army Department Notification No 911 of 1911.

Form No 1-A as prescribed by Army Department Notification No 1122 of 1914

reserve to complete a period of fifteen years' service counting from the date of original enrolment. Non-commissioned officers who transfer to the reserve must do so as privates (i.e., as sowars, gunners, drivers, sappers or singalmen as the case may be)

Men so transferring to the reserve will sign the form of "Transfer to the reserve" added to those forms as form of transfer " (2) " by Army Department Notification No 1091 of 1923 and amended by Army Department Notification No 1128 of 1925. This form of transfer is being issued as a separate slip which is, after signature, to be pasted on to page 2 of the enrolment form

4. Soldiers transferred to the reserve under paragraph 3 above will be transferred in the class to which their length of service makes them eligible, see Part II, paragraph 2 (c) above.

PART IV

Explanations and orders regarding the new conditions of service

1. Attention is directed to the following orders regarding the change in the system of army and reserve service for Indian Cavalry, Royal Artillery (except the Indian Heavy Battery), Indian Sappers and Miners and the Indian Signal Corps :—

Army Instruction (India) No 959 of 1925—Period of enrolment, amendment to Army Regulations, India, Volume II, paragraph 128

Army Instruction (India) No 958 of 1925—New conditions of the reserves and their establishments

Army Instruction (India) No 973 of 1925—Reduction in establishment of Indian Cavalry regiments

2. These orders establish a new system of enrolment under which a recruit renders himself liable to serve for 15 years, that is for a certain minimum period in army service and, if required to do so, for a further period in the reserve sufficient to complete the 15 years. They provide for extensions of army service by non-commissioned officers and other efficient well-conducted men. The reduction in establishment is necessitated by the increased cost of the reserve

3. In consideration of this liability to long service, the pay of reservists has been improved and a pension and a system of invalid gratuities for reserve service has been introduced [vide Army Instruction (India) No. 958 of 1925]

Explanation of the new conditions of service

4 Explanations of the new conditions are given below

5 Every recruit in future will be enrolled for a minimum period of "Army Service", i.e., with the colours, and a maximum period of 15 years' combined army and reserve service [vide Army Instruction (India) No 959, dated the 20th October 1925]. It does not follow from this that every man is limited to a specified period of army service nor that he will necessarily spend a portion of his service in the reserve. This is dependent on the strengths of the reserve and several other factors which are described below —

Army Service

- (i) Substantive non commissioned officers who exercise their right to extend the period of their army service for the whole period of their enrolment will be required to sign the form extending such period to complete 15 years' army service

It is to be noted that if a substantive non commissioned officer is permitted to extend his period of army service for a specified shorter period [vide (ii) below] he will, after completion of such period, retain his right to extend the period of his army service for the whole period of his enrolment,

(ii) th

to sign the form of extension of army service extending such service for 2 years with the liability to serve in the reserve for the remainder of the total period of enrolment. Such extension of army service may be repeated, see also Note to Part I, para 3 (b),

- (iii) those non commissioned officers and men who do not extend their army service and for whom vacancies exist in the reserve will be transferred to the reserve, and
- (iv) those non commissioned officers and men who do not extend their army service and for whom vacancies do not exist in the reserve will be discharged, except when such discharge would reduce the strength of the squadron, battery, company, establishment or unit, below 10 per cent of establishment or when war is imminent or existing.

Reserve Service

6 The earliest date on which a man can join the reserve is that on which he completes his minimum prescribed period of Army Service. It will be observed from the table in Part II, Paragraph 2 above that the maximum time that a recruit can

remain in Class "A" of the reserve is 3 years (except in the case of the Burma Sappers and Miners)—e.g., for an artillery driver during his 6th, 7th and 8th years of combined army and reserve service and for a cavalry reservist during his 5th, 9th and 10th years. It follows, also, that an artillery gunner, who is not transferred to the reserve till he has completed 8 years' army service can only serve 1 year (his 9th year of combined army and reserve service) in Class "A" of the reserve.

7. But it does not follow that every man who is transferred to the reserve on completing his minimum army service must necessarily join Class "A" of the reserve, still less that he should necessarily remain 3 years in it. There is no contract to this effect. The only contract is that if a man is transferred to the reserve, he shall be allowed (with certain provisos as to efficiency and good conduct) to complete 15 years' combined army and reserve service, but no more.

8. In fact, should a vacancy occur in Class "B" which cannot be filled in any other way, a man who has completed his period of army service, may be compulsorily transferred to Class "B".

Further, in certain circumstances, there is no reason why a man of Class "B" should not be transferred by the Officer Commanding Reservists from that Class into Class "A" provided that his period of combined service renders him eligible for that class. Similarly, a man in Class "A" can be summarily transferred to Class "B" by the Officer Commanding Reservists if his standard of efficiency or conduct is considered to fall below that required of men of Class "A".

Instructions for giving effect to the new system.

9. The difficulty of introducing the new system lies in the fact that men now serving in army service cannot be compelled to accept the new conditions.

10. For some years to come (i.e., until men enrolled subsequent to the issue of this order have completed their minimum period of army service) the establishment of the new reserve can only be filled by men now serving who volunteer to take on the new terms and conditions of service.

11. An argument that might be employed to persuade men to undertake these variations of service is that, under the new rules, combined army and reserve service now counts towards pension and that normally all men who are well behaved, efficient as soldiers and physically fit, will be able to earn the pension or gratuity to which 15 years' combined army and reserve service entitles them.

12. In forming the new reserve now ordered, it is essential that Class "A" should be filled as soon as possible. If possible men should be selected of suitable periods of army service, so as to ensure that a regular turn over of one-third of the established strength of Class "A" should automatically enter from army service and leave this class for Class "B" every

year in succession. Thus for instance, on receipt orders, each officer, commanding in Indian cavalry will endeavour to fill his quota of 51 Class "A" by transferring to the reserve 51 men or 17 men of 7 and 8 years' army service, 17 men of between 8 and army service and 17 men of between 9 and 10 years'.

13 No more transfers to Class I and II of the old will be accepted. Existing reservists of these classes continue to serve under their present conditions of pay etc., and will be allowed to waste out gradually. For of convenience they will be nominally included in Class "B".

14 Army Regulations, India, Volume II, paragraphs are already applicable on general lines to the new re constituted. The few amendments necessary to make completely applicable will be issued in due course.

15 **Clothing** As laid down in Army Instruction No 1 of 1924.

16 **Disposal of arms and equipment**—(a) Arms and equipment rendered surplus by the transfer of men to the reserve will be returned to the nearest arsenal in communication with the C. O. O.

(b) Arms and equipment of reservists of the cavalry and infantry and the Indian corps of signals will be held in deposit by officers commanding reservists when sufficient accommodation has been provided [see Army Instruction (I) Nos 728 of 1924 and 275 of 1925 for scales of accommodation authorised].

(c) Arms and equipment of artillery reservists will be held in deposit at the various unit headquarters referred to in Army Order No 193 of 1924.

(d) Pending the provision of such accommodation the following arrangements will be made:—

Officers Commanding Reservists will submit to the nearest arsenals for the arms and equipment required for the increased number of reservists under their command. These arms and this equipment will be held in deposit in arsenals and issued for training as required.

18 Physical fitness—His Excellency the Commander in Chief impresses upon General Officers Commanding in Chief and all other officers concerned the utmost importance of ensuring that only men who are thoroughly fit physically and otherwise, are permitted to join and remain in the reserve. It must be impressed upon reservists that unless they keep themselves physically fit at all times they will not be allowed to remain in the reserve.

Revised Peace Establishment of Indian Cavalry

21 The reductions in peace establishments of Indian Cavalry regiments entailed by the orders contained in Army Instruction (India) No 973 of 1925, will be completed by 1st February, 1926

22 It is hoped however, that if officers commanding Indian Cavalry regiments succeed in inducing sufficient men to accept transfer to Class "A" of the reserve the necessity for the compulsory discharge of any man may be avoided

23 In this connection if possible, Class "A" of the reserve will be filled even if, by this means the actual strength of regiments is reduced below the establishments ordered in Army Instruction (India) No 973 of 1925

24 The men surplus to the reduced establishments will be discharged under item (xiii) of Rule 13 of the Indian Army Act. On discharge they are eligible only for the ordinary pensions and gratuities permissible under Pay and Allowance Regulations, Part II, paragraph 590 *et seq.*, and are not entitled for any mustering out concessions

In addition to the peace establishment authorised, Cavalry group centre regiments will maintain the following additional personnel for the care of reservists' kits, rifles and records —

- 1 3rd Grade Clerk
- 1 Assistant Armourer
- 2 Sowars (Store keepers)

I.A.O. 964. **Swimming Baths.**—Swimming baths in the lines of British troops may be taken into use subject to the following conditions :—

11th Nov.
1925.
4780
D.M.S.-5.

- (i) That the water is changed at least once a week.
- (ii) That ablution arrangements are available in connection with the swimming bath.
- (iii) That the swimming baths are roofed.
- (iv) That suitable provision is made for clothes to be hung up.
- (v) That the water in the bath is disinfected at regular intervals in accordance with the instructions given in para. 3 below.

2 The following measures will be adopted in all cases where swimming baths are taken into use :—

- (a) A copy of the rules governing the use of swimming baths will be posted up in each swimming bath
- (b) A non-commissioned officer will be in charge—to see that all the rules are strictly complied with and to superintend the cleaning of the swimming bath
- (c) A copy of the rules dealing with the restoration of the partially drowned (I. A. F. M.-1250) will be posted up in each swimming bath.
- (d) Particular care will be taken as to the disposal of dirty water.
- (e) Effective measures will be taken to clean the swimming baths when emptied.
- (f) Scum accumulated on top of the water will be removed frequently.
- (g) Men suffering, or who have recently suffered, from the following diseases will not be permitted to use the bath :—
 - (i) contagious or infectious disease.
 - (ii) minor surgical wounds, skin affections, boils, ulcers, etc.
 - (iii) malaria, middle ear disease, rheumatic fever and other rheumatic affections.
 - (iv) colitis and other bowel complaints.

3 Disinfection of water in Swimming Baths.—The following disinfectants may be used :—

- (a) Bleaching powder (stabilized) 3½ oz. per 1,000 gallons.
- (b) Copper sulphate (2/3 oz. per 1,000 gallons). This is of use in getting rid of algal growths in the water or on the walls of the bath.

In either case for use the powdered disinfectant will be placed in small muslin bags. These bags are then attached by a strong string—fishing line is best—to a long bamboo

pole and are pulled up and down the length of the bath by two men each holding one end of the pole and walling up and down the opposite sides of the bath. This necessary to secure complete solution and mixing of the disinfectant with the water, and, if bleaching powder is used to prevent the formation on the floor and sides of the bath of a slimy deposit of lime.

Disinfection will be done just after the bath has been closed for the day and when solution is nearly complete the bags will be sunk in the bath, by placing the pole across from side to side and left till the following morning when they are removed and cleaned in readiness for future use.

By carrying out disinfection in this way in the middle of the week, i.e. after the water has been in use for 3 or 4 days, it is possible to keep the bath in good condition for a week.

The capacity of the bath is generally known but in cases where the actual quantity of water to be disinfected has to be estimated this can be done by the following calculation —

Length in feet \times Breadth in feet \times Depth of water in feet \times 6.23 = total number of gallons

4 The O C Station, on the recommendation of the Senior Medical Officer, may close any swimming bath temporarily.

5 The cost of any works or repairs necessary to baths which it is proposed to reopen will form a charge against the Command or District grant for Military Engineer Services, but these will not be carried out until funds are definitely allotted.

Embarkation and Disembarkation of Officers — Lists of officers who embarked on H T "Nevasa" on 14th October at Bombay and disembarked on H T "Neuralia" and H T "City of Marseilles" at Karachi on 23rd and 28th October 1925, respectively are published as an Annexure to this Order.

Maintenance of Water Filtration Lorries (M. T.) for the Supply of Pure Water to the Troops — I A O No 747 of 1923 is reconstructed as follows —

1 The G O C in Chief of the Command will be responsible for the care and maintenance in working order of all water filtration lorries in the Command Area, and for the training of the necessary personnel.

2 Filtration lorries will be divided into two categories —

(a) Lorries which will not be utilised in Peace, but kept solely for use on Mobilization.

(b) Lorries to be used in Peace for instructional purposes and for use in standing camps, on manoeuvres,

I.A.O. 966. The number to be maintained for (a) and (b) will be as decided on from time to time by Army Headquarters.

11th Nov. 1925. 3. The O. C., M. T. Unit in whose charge the lorries are placed will be responsible :—

As regards lorries mentioned at (a) above—

- (i) That the plant which will be dismantled and stored, is tested before dismantling and is in proper working order.
- (ii) That the plant is inspected periodically, in store to ensure of its being in proper working order when required.
- (iii) That the chassis is maintained in working order as laid down in I. A. S. C. Circular Memorandum No 308, dated 26th March 1925

As regards (b) above—

- (i) That the lorries including the pumping and filtration units are at all times in efficient working order.
- (ii) That all necessary repairs are carried out with despatch.
- (iii) That indents are submitted to ensure that spare parts are available when required.
- (iv) That the R. A. S. C. drivers are thoroughly instructed in the working of the plant.

The A. D. M. S. of the District in which the lorries are located, is responsible :—

- (i) That the R. A. M. C. personnel are thoroughly instructed in the chemical duties to be performed.
- (ii) That periodical inspection of the chlorinating and dechlorinating apparatus is carried out.
- (iii) That indents are submitted for the necessary chemicals and chemical apparatus.
- (iv) That courses of instruction for officers and men are held periodically.

I.A.O. 967. Purchase of Clothing Stores from outside sources.—From statistics obtained through the audit and supply departments it is observed that a large percentage of the money paid out by Government as clothing and kit allowances is not realized from soldiers as payment for issues. It is believed that this is partly due to the fact that units are purchasing stores from outside sources.

2. Clothing factories exist for the purpose of supplying good service clothing and necessaries to the army in peace and of ensuring the maintenance of an adequate supply of these articles in war. If units purchase from outside sources the output of the factories is reduced and prices are automatically increased.

3. Officers commanding units will accordingly see that the orders contained in I. A. O. No. 706 of 1922 are strictly adhered to.

L.O. 982. **Furlough and Leave—Officers**—Some misunderstanding exists as regards the conditions under which combined leave may be granted to officers. The following is a summary of the rules contained in Army Regulations, India, Volume II—

Combined Leave.—Consists of privilege leave taken in conjunction with leave on private affairs or leave on medical certificate, privilege leave coming first.

Casual Leave cannot be combined with privilege leave.

Staff Leave Rules.—The maximum amount of combined leave admissible during the tenure of appointment is eight months. It may be taken all at once, or in two instalments. If taken in instalments, the aggregate total must not exceed eight months. An instalment of combined leave may be taken towards the

Accounts—The instructions respecting the preparation and submission of documents in the case of drafts and details proceeding to port and relations in India are in many cases being disregarded. - (1) Army Form O 18016 (in triplicate) and B 127 (in sextuplicate) only are to be despatched to overseas rest camp. The forms must be placed in a sealed cover clearly endorsed as to the nature of its contents, and will be in the possession of the officer conducting the draft. In the case of small parties, will be despatched as to reach the camp *before* the men. In the event of Class 'A' invalids these Army Forms will be despatched to the Officer Commanding Station Hospital Dabhoi or Karachi and not to the overseas rest camps.
- (2) Documents other than those referred to above must be securely packed preferably in a box or cloth package, clearly endorsed and sealed, they are not required in overseas rest camps.
- (3) Stoppages from the pay of the men concerned must be made by units before the relevant documents are completed. The practice of calling upon commandants of overseas rest camps, by telegram to make stoppages from the pay of men in camp results in unnecessary work and must be resorted to only in *very exceptional* circumstances.
- (4) Officers and non commissioned officers conducting parties will be in possession of nominal rolls of all non commissioned officers and men, in their party. The names of Class 'B' invalids included in the party will be given in a separate nominal roll. This is an informal roll which officers and N C O's will be prepared to produce, if required, on arrival in camp, it may be in manuscript and is not the roll (A F D 127) referred to in para (1) above.
- (5) Documents of single men, married men and invalids must be enclosed in separate covers.

Post Office Savings Bank—British soldiers serving in India may remit monies through the public accounts for deposit in the Post Office Savings Bank, London, up to a maximum of £500 in any one calendar year without limit to the total amount standing to a depositor's credit. The total amount remitted through the public accounts during a financial year will not, however, exceed the net pay earned by the soldier during that year.

2 The rules contained in sub para (d), para 2 of the Annexure to India Army Order No 34 of 1908, will be amended accordingly.

I.A.O. 985. **Accounts—Adjustment of cost of clothing issued by detachment or party commanders to recruits at Gorakhpore—**Clothing issued by units to their detachment or party commanders for issue to recruits at Gorakhpore is not taken on ledger charge by the Recruiting Officer for Gurkhas at Gorakhpore. It will be kept therefore on ledger charge by units until issued to recruits.

2. Should any articles of clothing be required by party commanders to supplement the supply brought from units and if requisitioned for direct from the Clothing Factory, the indent will show clearly the unit for which it is required and the C. M. A. of the district against whom the debit of the cost should be raised.

I.A.O. 986. **Conveyance of Sports Gear.**—The issue of Military Credit Notes and Bills of Lading is not authorised for the conveyance to Iraq of regimental sports gear which is the private property of a regiment.

NOTICE

The following letter relating to the National Institute for the Blind is published for information

Telephone

MUSEUM 9701

224, GREAT PORTLAND STREET,

LONDON, W 1,

October 10th 1975

DEAR SIR,

SERVICE APPEAL

Last year we asked you to support the above Appeal on behalf of —

- 1 Blind Ex Service Men not eligible for a Government Pension or training at St Dunstan's
- 2 Ex Service Men who become blind after reversion to civilian life
- 3 All serving or ex-service men's wives or children who are or may become so afflicted

As you know this Fund is under the personal direction of Captain E B B Touse, V C and we can safely say no one who comes under the above categories can have a better friend. He has used his own experience of Blindness for the benefit of those handicapped in the same way.

We have gone through the Balance Sheet and the Official Report of the Fund which already shows what extremely good work is being done but beyond this Captain Touse has persuaded Local Blind Institutions throughout the United Kingdom to assist him where facts are not included in the Report we enclose.

Although we are glad to see a considerable balance we agree with Captain Touse the Fund must be on a stronger footing but regular pensions are paid out.

"No Blind Ex Service Man must be in Want"

This is what we are aiming at and we feel sure that it is the wish of every serving officer and man no matter what his rank may be.

Several Units became annual subscribers last year, and we take this opportunity of thanking them and hope that others will follow suit this year.

We realise that many cannot be annual subscribers; still, we trust that you will bring this Appeal to the notice not only of those directly under your command, but also to the notice of your friends. If you subscribed last year, we hope that you will do so again. If you did not subscribe, we hope that you will start at once, and enable this Fund to be built up; so that not only those blind men who can be will be trained, but that those who cannot will be granted pensions.

Contributions should be sent to Captain E. B. D. Towne, V.C., at 224, Great Portland Street, W.-1

Yours faithfully,

ALLENBY,

Field Marshal.

ANNEXURE TO INDIA ARMY ORDER No. 1021 of 1925

COPY OF MEMORANDUM No. 20227/1 (M.W.-3), DATED 4TH SEPTEMBER 1923
FROM THE QUARTERMASTER GENERAL IN INDIA, TO HEADQUARTERS OF
COMMANDS.

The collection of articles of M. W. Furniture, required as Mobilization Reserves for General Hospitals, ordered to be despatched to the arsenals given in I A O. 123 of 1922, should soon be completed and the following instructions are issued for guidance.

2 A gradual turnover of M. W. articles of supply should be effected by utilizing these reserves of furniture on any new projects or for replacing worn out furniture required for authorized purposes; but in no case should articles of furniture be withdrawn from reserves until new cases are ready to replace them or are in actual process of supply. The ideal to aim at is for nothing to be kept in reserve for longer than 3 years, if possible.

3. Change of pattern will be automatically catered for by the arrangements for turnover.

4. A joint inspection of these Mobilization Reserves will be carried out every year by a local representative of the M. W. S., I. A. O. C. and Medical authorities; three weeks' notice is required by the responsible Ordnance Office of an impending inspection. As the stores are in the custody of the I. A. O. C. it is incumbent on the latter to bring to notice any serious defect that requires investigation during the interval between inspections.

5 A report based on the inspection will be furnished to this office annually on the 1st May embodying the following points:—

- (a) General state of completion expressed as a percentage. Any items notably deficient to be specified.
- (b) General state of repair and action proposed to remedy defects.
- (c) General percentage of turnover effected during the year.
- (d) Any special points.

6 Any repairs to M. W. items of these Reserves that are necessary should be financed from the repair grant at the disposal of G. O. C.-in-C. under Head B-50. Military Works, Repairs and Renewals (Furniture).

C:— Insert the following as paragraphs 104-A, 104-B and 104-

104-A.—Unless there are special reasons, questions affecting the pension of an officer will not ordinarily be considered until he actually retires. This rule does not, however, prohibit the consideration, until an officer retires, of a proposal to condone a break in his service, nor does it prohibit the submission of a preliminary application for pension on behalf of an officer intending to retire immediately, while he is still in employ.

104-B.—Where delay in reporting on a pension claim is anticipated, the Controller of Military Accounts concerned, may, upon a declaration, as follows, by the officer, sanction the immediate disbursement of the pension to which after the most careful summary investigation that he can make without delay, he believes the officer likely to be entitled:—

DECLARATION.—Whereas the (here state the designation of the officer sanctioning the advance) has consented, provisionally, to advance to me the sum of Rs. _____ a month, in anticipation of the completion of the enquiries necessary to enable the Government to fix the amount of my pension, I hereby acknowledge that, in accepting this advance, I fully understand that my pension is subject to revision on the completion of the necessary formal enquiries, and I promise to have no objection to such revision on the ground that the provisional pension now to be paid to me exceeds the pension to which I may be eventually found entitled. I further promise to repay any amount advanced to me in excess of the pension to which I may be eventually found entitled.

104-C.—If upon the completion of the regular investigation, it be found that the pension thus summarily assigned differs from the pension finally settled, the difference must be adjusted in the first subsequent payments

ANNEXURE TO INDIA ARMY ORDER No 1029 of 1925.

COPY OF FINANCE DEPARTMENT LETTER No. F-129-C.S.R., DATED
THE 15TH AUGUST 1924.

In order to minimise as far as possible delays in the issue of authority for payment of pensions, the Government of India have decided to adopt the following suggestions for modifications in the present procedure regarding the preparation and disposal of applications for pension :—

- (a) It will be permissible in future for officers taking leave preparatory to retirement to submit their formal application for pension on proceeding on leave if they specifically declare that they propose to retire at the end of their leave, and if the proposed date of retirement is definitely known, Audit officers will verify the services wherever necessary and send their final report to the sanctioning authority who will sanction the pension as soon as may be after the date of retirement of the officer.
- (b) When an officer is appointed direct from the Army to an appointment from which he will ultimately retire on a civil pension, his military service should be verified forthwith and the details be handed over to the Civil Audit and Accounts officer.
- (c) The immediate verification of such military service should also be made in the case of civil officers now in the Service who have had previous military service, whether prior to taking up a civil appointment or during the Great War.

I am to request that, (with the approval of His Excellency the Governor in Council), steps may be taken to bring the revised procedure into force in the Madras, etc, Presidency
Bihar and Orissa, etc

8 Paragraph 1439. *Delete* from "The", in line 5, to the end of the sentence and *substitute* :—

"Whichever arrangement is used, and when both arrangements are used in combination, the National Anthem will invariably be rendered in the following style :—

The first six bars will be played *pianissimo*, using the full reeds, horns and basses, the whole phrase of six bars being slurred over in all parts.

The first and second cornets and the side drum will be added on the second beat of the sixth bar (the side drum *rolling*), commencing *pianissimo*, a *crescendo* being made to a *fortissimo* on the first beat of the seventh bar, where the full band is to be employed.

The last eight bars will be played in a broad, strongly marked style, each note *marcato*, except in the second last bar where there is more than one note to a syllable; these notes will be slurred.

The correct time of the first six bars is .1 = M.M. 84, and that of the last eight bars is .1 = M.M. 75, a slight *rallentando* being made in the sixth bar, and also in the second last bar.

When the first part only is used for saluting, or for any other purpose, it will be rendered in the style indicated above for the last eight bars—i.e., *fortissimo* and *marcato*."

INDIA ARMY ORDERS.

Qualifications for the Command of a Unit.—The increasing strain and complexity of modern warfare demands a higher standard of leadership and training from officers entrusted with command of battalions and regiments in peace and war.

His Excellency the Commander-in-Chief wishes it impressed on all officers that, under these conditions, it is no longer possible to regard a unit command as the normal consequence of a certain number of years' service.

To obtain the command of a unit of the Indian Army an officer must have proved himself, not only to possess the qualities of leadership, but to be thoroughly up to date in his professional knowledge and in his ability to train for modern warfare both the officers and men under his command.

The above considerations are those on which selections are made by the Selection Board.

ANNEXURE TO INDIA ARMY ORDER No 1060 OF 1925

ARMY COUNCIL INSTRUCTION No. 339 OF 1924

339 Educational Training—The Army Council have recently held an enquiry into the present system of Educational Training in the Army, and as a result have come to the following conclusions —

- 1 *The Army Educational Corps*—Notwithstanding the difficulties consequent upon reduction of establishment and the hitherto unsettled conditions, which have been detrimental to the steady development of the system of educational training, the Corps has justified its existence and proved itself to be a valuable organization
 - 2 *Uniformity of the Standards*—*Certificates*—Educational certificates are issued with considerable latitude in for these certificates, but it would appear that insufficient attention is given to co ordination, with the result that there is danger of considerable variation in standard in different commands, especially at depôts. While as many recruits as possible should obtain the third class certificate before leaving the depot, that certificate should not be awarded to a man who is not sufficiently advanced to commence working for the second class certificate when he passes on to his unit. It is considered therefore, that in the case of depôts, G O's C in C should arrange for the examination papers to be set and the work scripts to be marked by Army Educational Corps officers and not by depot authorities
 - 3 *System of Education in Units*—Experience has shown that under certain conditions the best means of providing continuity of instruction, as well as suitable grading into classes, is by the formation of central unit schools. The policy of the Army Council is that educational training shall continue to form an integral part of the training of the soldier, for which a C O is held responsible. For this branch of training a C O may, at his discretion form a central unit school
- Whether such a school is formed or educational training carried out on a squadron battery or company system, the Army Council have decided that map reading and regimental history are subjects which should be taught by regimental officers
- For teaching in the other subjects of the second and third class certificates a suitable number of N C O's (according to the number of men under instruction) should be struck off all other duties for a period of not less than one year, thus maintaining continuity of instruction. All such N C O's should have qualified at the School of Education

Pending further instructions, where a central unit school is formed, an officer, entitled "Unit Educational Officer" should be specially detailed to assist the C. O. in the administration of the unit school. This officer should not be relieved of his other regimental duties and will not receive extra pay for this work.

For teaching the subjects of the first class and special certificates of education, the services of Army Educational Corps personnel will normally be utilized. Personnel of this Corps will also be available to advise and assist C. Os. in the organization and syllabus of educational training in units.

4. *Stage to which General Education is Compulsory.*—The Army Council have decided that all soldiers will continue their general education until they have attained the standard marked by the second class certificate, which is the minimum standard for a proficient soldier and is essential for men admitted to any Army Vocational Training Centre.

Although educational training beyond this standard is not compulsory, it is desirable that either general education or vocational training should be continued through a man's colour service, according to whether he desires to prepare himself for further advancement in the Army or for return to civil life.

5. *The School of Education.*—The programme of courses to be held at this school is under revision, and instructions on this subject will be issued shortly. The 24th Course, starting on 20th June next, will be cancelled so far as officers are concerned.

6. *Exemptions from Educational Tests.*—The Army Council have decided that the time has arrived when exemptions from the prescribed educational tests for promotion to warrant and non-commissioned ranks should cease.

Exemptions already granted will stand, but from this date para 259, King's Regulations, 1923, will be the sole authority in this matter. This decision will apply to promotions to substantive rank (or substantive appointments) and to the grant of acting rank (or acting appointments), with the exception authorized in para. 259, King's Regulations, 1923. The Army Council will be prepared to consider up to 1st April 1925, however, cases of outstanding merit where the N. C. O.—

- (a) Is otherwise fully qualified and would be selected for a vacancy actually existing or about to occur ;
- (b) Has completed at least 12 years' service (exclusive of boy service) ;
- (c) Has held acting rank as warrant officer for at least two years ;
- (d) Is certified by his C' O. to be fully competent to carry out efficiently the duties of that rank ;

and when the G. O. C-in-C. of the Command personally recommends exemption after satisfying himself that the case is exceptional and highly-deserving one and that the conditions stated above are fulfilled. It is the intention of the Council that such exemptions shall be extremely rare.

- 7 *Vocational Training*—The Army Council have considered a suggestion that a larger proportion of the money available for this branch of training should be spent on the two Army Vocational Training Centres, at the expense of vocational training in commands but they were unable to adopt the suggestion as it would be inconsistent with the policy of progressive manual and vocational training throughout a soldier's term of colour service.
- 8 *Amendments to Regulations*—Any necessary amendments to regulations consequent upon the above decisions will be published in due course.

Conveyance of Baggage by Transport or Freightship.—Army Council Instruction No. 501 of 1925, on the above subject, is republished below.

**I.A.O.

14th Dec.
1925.**

ARMY COUNCIL INSTRUCTIONS, DATED 7TH OCTOBER 1925.

**61151
Q.M.G.-2.**

501. Conveyance of Baggage by Transport or Freightship.

1. Numerous cases have occurred of baggage (both accompanied and unaccompanied) for intermediate ports being over-carried, i.e., carried beyond the ports at which it should have been put ashore. Not only has this inflicted considerable inconvenience on the owners but, in some cases, expense to the public has been involved.

2. In some cases the overcarriage has been due to non-compliance with the regulation (para 1135, King's Regulations, 1923) which requires each article to bear a label at each port. C. Os., Officers-instructions to ensure that baggage is de-patched to the port so that storage in both the main and present use baggage rooms may be so arranged that baggage for any intermediate port is kept distinct and stored in a position that will ensure it being readily accessible on the arrival of the ship.

3. The use of destination labels should also be enforced in the case of *un-accompanied* baggage consigned on Baggage Notes (A. F.-G-959)

— 13|General|7288 (Q M. G -2-A).

Adjustment of Advances of Passage Money—With the approval of the Secretary of State for India, it has been decided that officers who drew advances of passage money before the publication of Army Instruction (India) No. 5-S. of 1925, and who did not expend the whole amount advanced on passages up to the extent admissible under that Instruction, will be held personally responsible for disclosing the fact as early as possible to the Controller of Military Accounts, Presidency and Assam District

**I.A.O.
1087.**

**63849
Q M G -2**

Such officers will furnish full particulars as to the amount drawn as an advance, the persons for whom the advance was secured and the amount actually expended on account of the passage for each such person. The difference between the amount advanced and the amount actually expended on passages to the extent authorised by Army Instruction (India) No. 5-S. of 1925, will be recovered either by the India Office or the Controller of Military Accounts in whose payment the officer happens to be, and the amount recovered will be intimated to the Controller of Military Accounts, Presidency and Assam District, Calcutta, for credit being afforded to the passage accounts of the officers and members of the families concerned.

ANNEXURE to INDIA ARMY ORDER No 1097 of 1925

Instructions and Notes for Units detailed for duty in Waziristan District

1 Units proceeding to the Waziristan District must be prepared for conditions much more akin to field service than to the peace conditions prevailing in India. Although nominally at peace, troops in Waziristan are always serving under conditions which do not permit active service precautions being relaxed for a moment. Peace regulations for such things as accounting, clothing, rations etc, are in force throughout the District, while in the matter of accommodation except at D I Khan and Bannu the majority of the troops are living under canvas. At such places as Razmah, Razani and Damdil, however, buildings are being constructed, but some considerable time will elapse before all troops serving in Waziristan are housed.

Tactical Advance Party

- 2 (a) Units detailed for Waziristan District will, about 3 months before leaving their station, send a small party to be attached to the unit which they are to relieve, in order to learn protective and other duties which their unit will have to undertake on arrival in the District.

- (b) In the case of Infantry battalions and Cavalry regiments this party will normally consist of —

The Officer in Command or his next senior officer

1 Other British officer

2 Platoon or Troop Commanders

4 Non Commissioned Officers

In the case of an Artillery Brigade —

The Brigade Commander or Field Officer detailed by him

One officer per Battery

Other units will send similar advance parties of a strength proportionate to the size of the unit.

- (c) The duration of the attachment will be settled by the Commander of the District or Independent Brigade in which the relieving unit is serving, in consultation with the General Officer Commanding, Waziristan District and will not exceed six weeks.

- (d) Dates will be decided upon between the Commanding Officers concerned.

- (e) On conclusion of the attachment the party will return to their unit and disseminate the information gained.

- (f) Units detailed to proceed to Waziristan will apply to their Brigade Headquarters, during the hot weather preceding the relief, for an officer with frontier experience to instruct the unit in frontier work, should the services of such an officer be available and considered necessary.

3. (a) Detached sections are often employed.

Special for
Artillery Units

Battery Staff must be easily divisible into sections with Signallers, Q. M. S. Vet, and shoeing establishments and their equipment in each section.

(b) Equipment tables do not allow sufficient stores for detached sections.

Extra equipment required will be handed over on arrival at the Station.

(c) Two signalling yakduns are required.

Signallers must be highly trained and 50 per cent. able to ride

(d) Lewis Gunners One B. O. and two B. O. Rs. to have had training in Lewis Guns.

(e) Range finders Proficiency in the use of Barr and Stroud range-finder is important

(f) Useful notes on Artillery generally are given in "Report by the I. G. of Communications and Directors of Services, Waziristan District, 1919-1920", printed by Government Central Press, Simla. This is out of print and should be taken over from the relieved unit.

4. Signalling.—

Special for
Infantry.

(a) A qualified signalling Officer is essential

He should have done a course lately at the Army Signal School. This also applies to regimental assistant instructors

(b) Units to be up to the full establishment of signallers laid down, with classes to replace casualties. Fifty Signallers should be worked up to.

(c) Prior to arrival in Waziristan District units should concentrate on —

(i) Perfect accuracy in sending and receiving messages at 8 w P M

(ii) Plenty of transmitting work by visual.

(iii) Line laying across country, finding line faults and making joints

(iv) Chapters 7, 8 and 9 Signal Training, Part I India 1920, to be paid special attention to, and in particular in transmitting station work and station discipline.

If opportunity offers an officer should be trained in use of Searchlights

5. (a) Physical fitness and Hill work —

Essential to bring the man up really fit, as the work is arduous and tiring.

Special for
British
Inf

Vigilance and alertness suffer at once when the men are tired and slackness in this respect will inevitably lead to disaster.

Hill climbing and descending at speed are essential. If the Battalion is still in the hills when warned for the Frontier this training should be practiced very hard. It takes the men and officers some time to find their feet on the steep and rocky hills, and the more preliminary training they can get the easier it will be found on first arrival. Speed in all ranks is very important, with full equipment and S A A.

(b) Semaphore Signalling —

Every officer and man in the ranks should know semaphore signalling and be able, at least, to read and send a simple message at slow speed.

It is invaluable for inter communication across valleys, up to piquets, between piquets etc, etc, and co operation is made far more efficient by its use.

General

B (A) (a) In marching up the L of C —

The route is picketted by permanent piquets and the road protected by road and convoy protection troops detailed from each post or camp, and a battalion moves as part of the "convoy". This does not mean that the battalion can either do without its own protection, or that it should march in a massed column of fours. Road protection troops cannot prevent enemy sniping. A very useful march formation is column of route with fairly big intervals between platoons and companies, for instance, 100 paces between companies and 50 paces between platoons. In the event of sniping occurring the battalion should break at once into a series of small columns (e.g., section) on a wide front, maintaining the same distances and above all keeping clear of the road itself if it is possible to do so. The sniper always has the road or track carefully ranged.

(b) In Infantry battalions one officer is to be in charge of all animals of the unit and given opportunity to train syces and drivers on the lines indicated in "Notes on Horse Management in the Field".

(B) Musketry —

Quick and accurate shooting at short ranges is important. Visual training in picking up targets quickly necessary.

(C) Lewis guns —

Lewis Guns teams to be fully trained and complete. Much used in covering picketting troops. Practice in quick switch targets is important.

(D) Vickers Guns —

Platoons to be fully trained and complete. Men physically fit and active.

(E) Grenades:—

All men should have had practice with dummy grenades, and as many as possible with live ones.

(F) Training in use of Rifle grenades:—

Men to have been trained in use of rifle grenades.
Work in pairs.

(G) Range Finders:—

Personnel should be trained in the use of these instruments which are very valuable in frontier fighting where it is extremely difficult to estimate ranges and the strike of the bullet can seldom be seen.

(H) Co-operation with Aircraft.—

All Infantry Battalions coming to Waziristan District should bring Equipment for co-operation with aircraft in accordance with A. I. (I) 672 of 1923.

(I) Searchlights.—

16" or 20" Searchlights are part of the equipment of certain Posts in Waziristan. These are on charge of and are operated by Infantry.

(J) All signalling equipment authorized to be brought to Waziristan under I. A. Os. 672 and 1040 of 1924, should be complete in every respect and all unserviceable articles replaced before departure for the District

7. Units will be in possession of the following pamphlets when warned to proceed to Waziristan.— pamphlets.

(a) "Manual of Operations on the North-West Frontier of India".

(b) "Relation of Troops with Tribesmen" (to be issued by Northern Command)

8. Sufficient maps will be supplied to S. S. O, Bannu, Maps.
to allow of an issue of sufficient copies per unit for their march from detraining station to their destination. A supply of local maps will be issued by Brigade Headquarters.

9. Books of reference dealing with the Country are—

For the posts specified as "frontier posts" under sections 2 (1) (C) and 22, Indian Army Act, see Gazette of India, Army Department Notification No 1209 of 1924 at pages 513 and 514, Manual of Indian Military Law

Advance Party,

17 Units should arrange for an advance party consisting of the Quartermaster and ten other ranks in the case of Infantry Battalions and Cavalry regiments, other units in proportion to reach Bannu or Manza three days in advance of the unit. This party will take over from the S S O at Bannu or Manza special winter clothing issues under Army Instructions (India) No 680 of 1923 and 104 of 1924. This extra clothing will be obtained in accordance with India Army Order No 417 of 1925

District Order No 358 of 1924 is republished as Appendix III

accommoda-
tion

18 There is no accommodation in Waziristan District for families either of British Officers or of British and Indian Ranks except in the case of units that are definitely ordered to Dera Ismail Khan or Bannu. At both these places the accommodation available is limited

equipment

19 (a) Units will proceed to Waziristan District equipped in accordance with I A Os 401 of 1923 and 1072 and 1040 of 1924 as amended by I A Os 770 and 506 of 1925. The balance of equipment will be taken over from the relieved unit

(b) Although all units in Waziristan District are clothed on Peace Scales of Clothing and come under the ordinary Peace rules of Clothing procedure, it has been decided that owing to lack of good storage accommodation in the District, units will maintain and demand *one* instead of the *three* months supply of Clothing authorised in para. 5 of Clothing Regulations, India

(c) Units arriving in Waziristan should not bring all their heavy baggage with them on account of the very limited amount of accommodation that can be provided for storage at all stations in the District except Bannu. See para. 35. Heavy Baggage

20. Railheads are at Manzan and Bannu. The normal form of Transport. Transport is Pack mules & A T Carts (See Appendix II).

Mules are used for carrying baggage, water, rations, etc., to permanent pickets.

21. (a) Boots—

Equipment.

A good shoemaker's shop is essential. Boots must be kept thoroughly repaired and lubed. All boots will be nailed. Boot repair materials will be brought up.

British and Indian Other Ranks receive special boot allowance—value of $1\frac{1}{2}$ paise per year, vide A. I. (I.) No 3-S of 1925

(b) Repairs—

Vide Peace Establishments issued under the authority of A. I. (I) 655 of 1923. Infantry units are allowed one armourer havildar, two asstt armourers and three boot-makers. The object of this measure is to make the unit self-contained as regards repairs of its own equipment. Articles capable of repair regimentally returned to Ordnance for replacement will accordingly in the absence of special reasons, either be re-issued to the unit or the value of the new articles debited. It is therefore desirable that the unit should thoroughly overhaul all equipment before leaving for Waziristan.

(c) *Mule Tanks and Bicycles*—Mule Tanks and bicycles will not be taken by units moving by rail. If they are essential for any moves within the district the District Commander will make the necessary arrangements.

(d) *Charpoy*—

Units coming into Waziristan will not bring charpoy.

- 22 (a) Battalions moving in relief up the Tochi Line will draw from Post Stores, Bannu, the following for use in case of necessity on the march up —

Men in first line — 80 rounds S A A per man

16 Lewis Guns — 846 rounds S A A per gun

4 Vickers Guns — 5000 rounds S A A per gun

Grenades, etc — Nil

These Battalions will on arrival at their destination take over the balance of their mobile echelon of ammunition from the Battalion they relieve

The relieved Battalion will march down to Bannu with ammunition as detailed above, and will hand it into Post Stores, Bannu, before their departure by train, with the exception of the 20 rounds pouch ammunition per man which they will take with them out of the District. If moving by road to Kohat special orders will issue

- (c) Full T S Equipment with S A A is worn. The haversack may be worn on the shoulders. The

(d) Articles of clothing for officers can be obtained from the Army Canteen Board (India), Razmak.

Packing and Loading

31 Thorough training in loading pack mules will be carried out and all ranks exercised in packing and loading their kits on mules especially in the dark.

Water

32 Very strict orders will be issued warning all against drinking from streams and river beds during the march up and later during road protection duties or at any time. All water has to be chlorinated before being drunk.

Do not rely on railway authorities altogether for water. Filled pakhals should be placed on the train and be easily got at. Chlorinated water is supplied at Rest Camps and at Posts under Camp or Post arrangements.

Accounts

33 The peace system of accounting under all headings is in force in Waziristan District.

Policy for Relief

34 The policy for relieving Indian Infantry in Waziristan is as follows—

(a) North Waziristan is divided into three groups Nos 1—3

(v) South Waziristan consists of one group No 4

(2) North Waziristan

No 1 Group—Infantry at Razmak 5 Battalions

No 2 Group—Infantry at Razani 2 Battalions

No 3 Group—Infantry at Dandil
Idak } 1 Battalion
Banna } 1 Battalion
 } 2 Battalions*

No 4 Group—Infantry at Manzar 3 Battalions†

Gank 1 Battalion†

(3) The intention is that Indian Battalions entering Waziristan will be posted to a group for the 2 years it is in Waziristan. This arrangement should ensure 50 per cent first year battalions 50 per cent 2nd year battalions.

(4) As far as No 1 and 2 groups are concerned, units once posted to these stations will remain there the whole 2 years.

* With detachment from one battalion at Gaidgi

With detachment of 1 company at Khirgi

† With detachments of 1 company at D I Khan and 1 platoon Marf Indus

(5) In regard to No 3 group, incoming units spend their first year at Bannu and their 2nd year either at Idak or Dandil.

(6) In regard to No 4 Group, units are posted to Manzai in the first instance. Subsequently one of the units who are spending their second year in this Group, will move to Tank.

35. (i) Attention is invited to para. 19 (c) regarding policy for Indian Infantry reliefs in Waziristan, and to A. I. (I) No 1187 of 1924 Regimental and Officers Baggage,

(ii) At present accommodation in Posts (except Bannu) is hardly sufficient for the storage of the peace and mobilization equipment, which units must have with them, consequently there is no accommodation available for the storage of baggage of units surplus to this, except at Bannu. At Bannu storage for the surplus heavy baggage of two Infantry Battalions can be made available.

(iii) Units proceeding to the 7th and 9th Brigades at Razmak and Razam respectively will remain at those places for two years and should take with them as little regimental and private baggage as possible.

(iv) Units proceeding to the 8th Brigade will remain at Bannu for one year and then proceed for a second year to Idak or Dandil. These units may take their heavy baggage (Mess equipment, etc.), complete as for a peace move in India, as accommodation in which to store their surplus baggage during the second year can be allotted in Bannu when they move to Idak or Dandil.

(v) Units proceeding to the 10th Brigade will remain at Manzai for one year and Tank for the second year or at Manzai for two years. In neither of these two places is there accommodation for the storage of surplus heavy baggage.

(vi) Units proceeding to stations other than Bannu are advised to store their surplus heavy baggage with their training battalions.

(vii) The following maximum scale of maundage for units proceeding to stations other than Bannu should not be exceeded—

	Maunds
Lieut-Colonels	15
Major	15
Captains	10
Subalterns	10
Regtl and Garrison Warrant Officers	■
N. C. Os Class I	2½
N. C. Os Classes II and III	1½

Furlough is suspended during the term of service in Waziristan and leave is granted on medical certificate or very urgent private affairs only. In the case of Gurkha battalions the ordinary leave rule in paragraph 853, A R I, Vol II are applicable.

Medical.

30 (a) All individuals prior to arrival in the District should be inoculated with T A B and small pox vaccine so as not to be thrown out of work by reason of having to undergo inoculation after arrival in the District.

(b) Men suffering from chronic malaria will not stand service in Waziristan and should be weeded out before arrival as far as possible.

31 Thorough training in loading pack mules will be carried out and all ranks exercised in packing and loading their kits on mules, especially in the dark.

32 Very strict orders will be issued warning all against drinking from streams and river beds during the march up and late during road protection duties or at any time. All water has to be chlorinated before being drunk.

Do not rely on railway authorities altogether for water. Filled pakhals should be placed on the train and be easily got at. Chlorinated water is supplied at Rest Camps and at Post under Camp or Post arrangements.

Policy for relieving

34 The policy for relieving Indian Infantry in Waziristan is as follows—

(a) North Waziristan is divided into three groups Nos 1—3

(b) South Waziristan consists of one group No 4

(2) North Waziristan

No 1 Group—Infantry at Razmak	5 Battalions
No 2 Group—Infantry at Razani	2 Battalions
No 3 Group—Infantry at Dandul	} 1 Battalion 1 Battalion 2 Battalions*
Idak	
Banna	
No 4 Group—Infantry at Manza	3 Battalions†
Gank	1 Battalion†

(3) The intention is that Indian Battalions entering Waziristan will be posted to a group for the 3 years it is in Waziristan. This arrangement should ensure 50 per cent. first year battalions 50 per cent. 2nd year battalions.

(4) As far as No 1 and 2 groups are concerned, units once posted to these stations will remain there the whole 3 years.

*With detachment from one battalion at Saidgi

With detachment of 1 company at Khirgi

†With detachments of 1 company at H I Khan and 1 platoon Marik

(11) It is not intended that the scale of baggage suggested above should in any way affect the free allowance of Stores, etc, shown in A R I, Volume X. The cost of any excess weight will be borne by the unit.

(12) Officers are advised to take kit for games, grey flannel trousers, blazer, etc, only

Lounge suits are not necessary except in Bannu and D. I. Khan.

(13) Officers having shot guns are advised to take them, but the shooting suffers many restrictions on account of safety. There is a little fishing in the area but it is poor, fish run small and restrictions are the same as for the shooting

(14) As much kit as possible for regimental games should be taken

36 O. C. Posts will arrange that units marching in are met by an Officer (or an N. C. O. with written instructions) sufficiently far from the post to ensure the unit taking the best route to camp

37 O. C. Post will at once telegraph to Brigade Headquarters—

- (a) Name of unit and its Commander.
- (b) Approximate strength
- (c) Hour of arrival

38 O. C. Post will inform O. C. unit of the arrangements for—

- (a) Local defence.
- (b) Rations and water.
- (c) Issue of transport for next day's march, and will point out the local hospital, staff office and post and telegraph office

39 On the evening before the departure of a unit O. C. Post will inform O. C. Post ahead—

- (a) Hour of march next day.
- (b) Name of Commander
- (c) Approximate weight of baggage, etc. (1st and 2nd line)

40. O. C. unit will ascertain (a) whether there is any change from the normal as regards road protection arrangements and intelligence regarding raiding gangs.

41. On arrival at a post O. C. unit will hand in to O. C. Post I. A. F. T. 1708 (approximate strength of marching in).

42. Units will find their own working parties.

43. If M. T. is provided one man will travel on each lorry with a British Officer in command of the baggage party in the leading lorry.

This Officer is responsible that the lorries are unloaded with utmost despatch as they have to return for supply convoy duty.

44. Convoys and parties of "details" will march under the usual arrangement but in rear of units (with their transport) marching with relief.

45. O. C. Post will detail an I. O. or N. C. O. to accompany Unit Headquarters to the next post so as to point out our piquets and commonly known topographical features enroute.

46. Schedule of Instructions for incoming units is shown in Appendices I and II.

Invaliding—A great deal of inconvenience and avoidable correspondence is being caused by failure on the part of officers concerned with the despatch of invalids to comply with I L O No 606 of 1925, particularly paragraphs 8 and 30, which relate respectively to documents and to cases of venereal disease.

Documents

Commanding officers will be held responsible for the handing over of the regimental documents of invalids to the Officer Commanding, British Station Hospital, the documents of each invalid being in a separate cover clearly endorsed with the contents and with the number, rank and name of the individual concerned. Officers Commanding, British Station Hospitals will be responsible that the medical documents of each invalid are similarly enclosed and endorsed in a separate cover. In the case of invalids proceeding to Karachi or direct to Bombay the medical officer or other person in charge of the invalids will immediately on arrival at the Railway Station hand over all documents (regimental and medical) to the representative sent by the D A D M S (Embarkation), to meet the train. In the case of invalids proceeding to Bombay via Deolali the Officer Commanding, British Station Hospital, Deolali will despatch all documents as to reach the Embarkation Commandant, Bombay at least 24 hours before the arrival of the invalids at Bombay.

Cases of venereal disease

Officers responsible for cases of venereal disease must be held responsible for handing over at least three clear days before the date of embarkation. Draft commanding officers will be responsible that venereal cases are handed over separately to the Embarkation Commandant.

The attention of all concerned is drawn to the necessity for strict compliance with the instructions contained in I. A. O. No. 606 of 1925, as non-compliance gives rise not only to much inconvenience and unnecessary clerical labour but also, in many cases, to considerable hardship to the invalids themselves.
